Preface

Rumi told many stories, from the Old testament. Rumi explained that the StarGate Ka'bah in Mecca, Saudi Arabia was built through the Hebrew lineage. This is the StarGate where Muhammad had his Final Journey home. It was from there he travelled in a StarShip to the StarGate in Jerusalem at Dome of the Rock. This is the Last Journey whose Path is retraced by millions of Pilgrims each year for Hajj. This is the one of the five Pillars of Islamic Faith; the creed, daily prayers, fasting during Ramadan, almsgiving and the pilgrimage to Mecca StarGate.

From the Masnavi: 4:1141--[From the story about the construction of the Farther Mosque, or the Temple of Solomon:] "That building (made) by the prophets was (constructed) without greed [on their part], (and) because of that, its prosperity and success continued to increase. The noble (prophets) have built many mosques, but their name was not 'the Farther Mosque.' The grandeur which increased every moment for the Ka'ba was (the result of) the virtuous devotional acts (done) by Abraham. The excellence of (such a mosque) is not from earth and stone, but (because) there is no greed or quarreling in its builder. Their Books are not like the books of others, nor (are) their mosques, professions, houses, and homes. (And) nor (are) their observance of respect [ADAB], their anger, punishment, drowsiness, reasoning, and speaking. (There is) a different (kind) of glory for each one of them, (and the bird of their spirit (is) flying because of a different (kind) of wing. (4:1136-1142)~Elizabeth Trutwin, ***Sacred Galactic Scripture : Masnavi***, 2011.

The Dome of the Rock StarGate, Jerusalem~כיפת הסלע, Masjid Qubbat As-Sakhrah, مسجد قبة الصخرة

A Galactic Federation Ship~Image Analysis by Reverse Engineer reported to NSA as "not one of theirs" I wrote back in email: "I know it is not One of Yours because it is One of Mine."

Dedication

~ For all my brothers who endured silence and for all my brothers who broke the silence. ~Thank you.

"Today's launch may mark the final flight of the Space Shuttle, but it propels us into the next era of our never-ending adventure to push the very frontiers of exploration and discovery in space,"

~President Barack O'bama

Foreword

The Disclosure Movement asks the United States President to Disclose to the American people the presence of extraterrestrials as well as the releasing a lot of files from the military agencies. Political Advocacy is about society, it is not about individuals.

In the extraterrestrial phenomena realm there are a range of theories about what ET intends and where this is all going. On one hand folks believe fantastic things are coming with new technologies and wonderful improvements. On the other end there are folks who fear we are going to be taken over. In the range between are many views. Because so much information is missing from our purview at this moment, it is impossible to truly judge what we do not know.

As the President comes forward to acknowledge our government's engagement with non-humans, known as extraterrestrials from other Planets in our Galaxy and beyond, we will learn new and wonderful things. We will have access to technologies that will solve many issues we struggle with now. We will also no doubt learn about secrets that were kept from society which may be shocking and a dark stain for humanity. So it has been. It is important to keep an open mind to all the potentials and not become too attached to one opinion or another. Our final challenge is removing all nuclear materials from the Planet. Only then will we know Peace.

Chapter 1

SELF-DISCLOSURE

Remarking on The Joint Chiefs new appointments: “Between them they bring deep experience in virtually every domain,” he said. “Land, air, space, sea and cyber.”
~President Barack O‘bama

The White House Petition is the Path to Self-Disclosure

WE ARE PROGRAMMED BY FALSE FLAGS IN THE MEDIA

The Times, Sun, Guardian, Financial Times, Independent, Daily Mail, and Daily Telegraph newspapers are displayed featuring an apology from News Corp chairman and chief executive officer Rupert Murdoch, in London Saturday. News Corp is trying to quell the uproar over a phone-hacking scandal that has shaken the company and claimed its top two newspaper executives. ~Suzanne Plunkett/Reuters 7•16•11

Self-Disclosure is when the United States government Discloses to its citizens that it has indeed engaged with extraterrestrials from other Planets. There have been hundreds of thousands of accounts of direct contact with extraterrestrials in the last 20 years written up and sent to researchers. Some have been contactees and others have been abductees. The Truth Embargo is a policy that was initiated in the 1950s by the United States and its allies that the reality of the extraterrestrial presence is contained and it could not be acknowledged. No work was to be funded and the media never was to cover it appropriately. Please see the Wall Street Journal article: **Dear White House: Please Tell Us the Truth About E.T. by Laura Meckler, October 18, 2011** **http://online.wsj.com/article/SB10001424052970204774604576629070254619868.html**

When the Truth Embargo ends they will say something along the lines of 'for national security reasons we could not inform you of this prior to today'. The longer governments refuse to acknowledge their extraterrestrial engagement the less citizens trust their governments. Thousands of UFO/ET files have been released by France, UK, Ecuador, Brazil, Mexico, New Zealand, Canada. We are now in an international Disclosure race. Which country will go first?

To Begin With

In response to the Disclosure Petition I, by Steve Bassett, the Office of Science and Technology Policy (OSTP) at the White House stated, “The U.S. government has no evidence that any life exists outside our planet, or that an extraterrestrial presence has contacted or engaged any member of the human race.”

The White House Petition website is the most powerful and profound offering to be seen in Washington in many decades. We cannot underestimate its impact for raising collective consciousness. This is our chance to participate in Action Politics to reclaim our role as constituents in our government for the people and by the people. “The right to petition your government is guaranteed by the First Amendment of the United States Constitution. We the People provides a new way to petition the Obama Administration to take action on a range of important issues facing our country. We created We the People because we want to hear from you. If a petition gets enough support, White House staff will review it, ensure it’s sent to the appropriate policy experts, and issue an official response.” https://petitions.whitehouse.gov/how-why/introduction

Steve Bassett of Paradigm Research Group has said as long as there is a White House Petition site there will be a Petition from PRG asking for Disclosure. http://ParadigmResearchGroup.org To date, after 5 Petitions addressing Disclosure specifically we still have not received a proper response. We must keep trying because Self-Disclosure is the only Path to Freedom, the Path to Peace.

A Little Ancient History

The Occupy Movement has called a lot of attention to the bought and sold Supreme Court Justices in the United States as well as the corporate-owned Politicians. In order for me to share information on the StarGates it is necessary

to look at the corruption we see in the papers everyday. Most of the stories published are not true. They are designed to program society to believe what is convenient for the few who wish to control the many. There are those who feel President Obama is not working toward Peace. I would like to say that the media makes it look that way. Much of what he does behind the scenes at the International Space Station and other undisclosed locations goes unreported. I invite you to set aside your political differences and hear the story from the perspective up above. The purpose of this book is not to expose political opinion. Collective Consciousness on Earth has been taught, programmed, to believe a Grand Illusion. The purpose of this book is to spotlight Planet Earth‘s Great Beauty in her Seas, Lakes, Mountains and Portals and the Secrets which lie there. It is to show the connection between the people of Earth and all the Cosmos. It is also to make a plea to end all nuclear weapons so the beauty which is Earth can prosper. May the Force Be With You.

When we look at the chaos in the world today it reminds me of an old bedtime story called the Ramayana. This legend myth has been dated back thousands of years. Whether it is history or legend is open to wide debate. In this Hindu Epic there was a small group led by the King of Lanka, Ravana. Ravana was a monster with 10 heads and 20 arms. He had armies and a castle with a harem and all forms of excess. He drove around in a golden chariot translated as a “flying car.” He was causing harm to the peoples in all the surrounding territories and claiming control over everything. It was widely felt he could not be defeated. A young Prince of a Kingdom known for truth and love named Rama set out to battle the monster king. In fact, it was known since before he was born, by the holy sages and by his parents that he was coming to Earth to defeat Ravana and restore peace in the land. It had been said that Ravana could only be destroyed by a man in flesh. Rama was said to be an incarnation of God himself as a man. He fought Ravana with all forms of weapons. Rama also drove around and did battle from his “flying car.” Are we repeating history now? How is that? All over Earth are just a handful of people, who through control of the banks, lands and military, including nuclear weapons, have announced that they own everything and the ‘little man‘ should pay more taxes and submit to the will of a few. These

are the same Ones who control the media to hold sway collective opinion based on false flags of terror. If we can work together to rid Earth of Nuclear Weapons, arrest the War Criminals trying to control Earth and restore Peace we create an environment for Disclosure. In an environment of Peace our Galactic Family will be able to land their Ships and share their wondrous technologies. It all begins with Self-Disclosure. Enter the White House Petition.

The White House Petition

The Computerized Petition Has Not Been Without Its Problems

The We the People Website at the White House has posted these Guidelines on their site:

“The White House will respond to petitions submitted through We the People that comply with these Terms of Participation and reach the second signature threshold listed below. Petitions on We the People must meet the first signature threshold in order to be publicly searchable on http://WhiteHouse.gov Petitions that do not meet these signature thresholds will be removed from the site after the time limit has expired. The White House may elect to respond to petitions at any time, including those that have not crossed the first or second threshold.

To avoid the appearance of improper influence, the White House may decline to address certain procurement, law enforcement, adjudicatory, or similar matters properly within the jurisdiction of federal departments or agencies, federal courts, or state and local government in its response to a petition.

...the limited purpose of the We the People platform, which is to allow individuals to petition the Administration to take action on a range of issues — to address a problem, support or oppose a proposal, or otherwise change or continue federal

government policy or actions. To focus discussion, the platform is limited to a discrete set of topics, which may be adjusted over time."

There have been many problems in the past with getting booted off the site, having trouble creating an account and having trouble logging in to sign a petition. The White House We The People website suddenly was dealing with more traffic to the site than they could handle. Also, in October of 2011 the threshold for signatures was increased from 5,000 to 25,000 to receive a response from the White House. It is too hard to get 25,000 signatures in 30 days even with national press conferences, interviews and massive web coverage. We should ask the White House website to lower the threshold to a fair number around 15,000. This keeps their administrative duties down and is also a number which can be completed for serious petitions in 30 days.

The following is a Disclosure Petition I added to the White House Website in February 2012:

Given the national security implications, the United States should conduct an independent investigation.

This inquiry must transparently review the National Space Council with access to classified documents. It must have the power to call witnesses and grant immunity.
The findings should be publicly presented.

The Members who have knowledge of the National Space Council and their Annual Congressional Reports from 1989-1992 were:

Section 1. Establishment and Composition of the National Space Council.

(a) There is established the National Space Council (“the Council”).

(b) The Council shall be composed of the following members:

(1) The Vice President, who shall be Chairman of the Council;

(2) The Secretary of State;

(3) The Secretary of the Treasury;

(4) The Secretary of Defense;

(5) The Secretary of Commerce;

(6) The Secretary of Transportation;

(7) The Director of the Office of Management and Budget;

(8) The Chief of Staff to the President;

(9) The Assistant to the President for National Security Affairs;

(10) The Assistant to the President for Science and Technology;

(11) The Director of Central Intelligence; and

(12) The Administrator of the National Aeronautics and Space Administration.

(c) The Chairman shall, from time to time, invite the following to participate in meetings of the Council:

(1) The Chairman of the Joint Chiefs of Staff; and

(2) The heads of other executive departments and agencies and other senior officials in the Executive Office of the President.

By reviewing the Annual Reports we gain Self-Disclosure from our Government Officials regarding satellite images of ET/UFO activities and an understanding of the inner workings of the Earth Observing System (EOS) satellite Terra (formerly AM-1) and the conflicts between Ex-NASA Chief Richard H. Truly and President George H. W. Bush. None of the above named Council who had knowledge of these reported findings ever shared publicly the details of a program with a budget in the billions.

The two following articles from the New York Times from 1990 and 1992 outline the Moon and Mars Bases Mission and the desperate need for Disclosure.

NYT 1990

“NASA Losing 30-Year Monopoly In Planning for Moon and Mars~New York Times

By WILLIAM J. BROAD

Published: January 15, 1990

The White House is reaching beyond NASA in a search for new ways to advance the nation's manned space program, challenging a near monopoly the agency has held for more than three decades. It is doing so mainly out of frustration with the agency's high cost estimates for space ventures.

It has asked two groups, the National Academy of Sciences and the Aerospace Industries Association, to conduct the search. The hope is that they will uncover bold new ideas from industry, academia and Federal research centers on how to send Americans to the Moon and Mars, as President Bush vowed to do last year.

The National Aeronautics and Space Administration will still have a fundamental role in evaluating many of the ideas, as well as developing its own. But its dominance in planning for the manned space program is being challenged for the first time in history.

An Unprecedented Move

"This has never happened before," said Dr. John M. Logsdon, director of the Space Policy Institute at George Washington University and a White House adviser. "This is an open window for new ideas."

Arnold D. Aldrich, NASA's associate director for aeronautics and space technology, said the agency felt the move was "highly appropriate."

"We think there definitely are other ideas out there," he said. "A lot of our ideas are good, but we certainly haven't covered the waterfront."

The process has already begun. A panel set up by the industry association, which represents 54 aerospace companies, met for the first time last week, and the other panel is to start work this week. Among the new ideas already under study are building cheap, inflatable spaceships and using less astronaut labor in favor of robots for assembly in space.

Federal officials said the National Space Council, whose chairman is Vice President Dan Quayle, turned to the groups mainly out of frustration with the cost of NASA's plan to go back to the Moon and then on to Mars. Rough estimates put it at $400 billion over three decades.

Mr. Quayle suggested the change on Wednesday in a speech to astronomers, saying President Bush had asked the space council to create an "aggressive" space program that challenged "accepted ways of doing business." The council is searching for "innovative approaches" that go "across the traditional divisions," Mr. Quayle said.

The council, made up of Mr. Quayle and directors of 10 Federal agencies, is the Administration's top body for the formation of space policy.

A Federal official familiar with the council's plan, who spoke on the condition of anonymity, said the approach was fundamentally new.

"There's never been a case where outside bodies were used in a quasi-operational capacity, as envisioned here," the official said. "The independent review is to make sure that any good idea, no matter who the owner is, gets fair and equal treatment. We want a system that allows all the good ideas to rise to the surface."

The change comes as the Bush Administration struggles to achieve what some experts dismiss as an impossible dream, given the nation's budget woes.

Last July, on the 20th anniversary of the first lunar landing, Mr. Bush called on the United States to establish a manned base on the Moon and to send an expedition to Mars. Skeptics belittled the speech as political rhetoric with no firm commitment of money. White House officials, citing rough NASA studies, conceded that the goals might cost $400 billion and that concrete plans had yet to be developed.

Mr. Bush put the project in the hands of the space council, which asked NASA to do a quick study of its feasibility. That report was delivered to the White House in November, generating mixed reviews. It laid out five approaches for meeting the President's goals, using techniques and technologies the agency had studied for

years and sometimes decades. At the earliest, the plans envisioned a human presence on the Moon in 2001 and on Mars by 2011.

In late November, a 15-person panel of scientists and aerospace experts gathered at the White House at Mr. Quayle's request to help him assess the NASA report. They included Dr. Logsdon; Edward C. Aldridge, former Air Force Secretary; Dr. Thomas Paine, former NASA director; Dr. Carl Sagan, the astronomer; Dr. Edward Teller, the weapon scientist; Dr. Charles H. Townes, an inventor of the laser, and Harrison Schmitt, a former United States Senator and former astronaut.

A Federal official said the panel confirmed Mr. Quayle's feeling that "a redirection was necessary for the success of this effort."

New Concepts

On Dec. 19, Mr. Quayle wrote Vice Adm. Richard H. Truly, NASA's administrator, saying he wanted "to insure that all reasonable conceptual space exploration alternatives have been evaluated." The Moon-Mars effort, he said, needed to consider "different architectures, new systems concepts, promising new technologies and innovative uses of existing technologies."

Published: January 15, 1990

Mr. Quayle asked NASA to ”take the lead” in the search, without specifying how. So far, the White House has received no formal reply, although NASA officials have informally agreed to go along with the search.

Mr. Aldrich of NASA said in an interview that his office would head the effort. ”We’re putting together a plan” that will be at the White House by the end of the month, he said.

Last week, Federal officials outlined several steps they said would widen the search and insure its thoroughness and objectivity.

In addition to the NASA effort, they said, a 20-person panel from the Aerospace Industries Association is looking at the process of gathering new ideas, seeing if new channels need to be cut through the Federal bureaucracy and its procurement process. The panel met for the first time last week in Washington, with an interim report to the White House due by the end of March.

”We’re also looking at how you manage an effort as large and long as the human exploration initiative,” said James C. Harrington, chairman of the panel. Mr. Harrington is a vice president of Kaman Aerospace Corporation of Rosslyn, Va.

One Federal official described the industrial association’s role as ”looking over NASA’s shoulder to make sure they’re evaluating things fairly” in an examination of the decision-making process.

Arm of Academy of Sciences

Another review is centered at the National Research Council, the main operating arm of the National Academy of Sciences, a federally chartered but independent organization that studies technical issues for the Government. The council's study is directed by Dr. H. Guyford Stever, a former Presidential science adviser who headed the academy's study of the redesign of NASA's faulty shuttle booster rocket.

The 16-person panel is reviewing NASA's plan and conducting its own hunt for innovative ideas. It will hold its first formal meeting this week when it conducts a workshop, by invitation only. "We'll search as broadly as we can," said Dr. Stever. "I personally think one has to think of fairly large concepts rather than gadgets."

Its report is due at the end of February. The White House is also discussing with the academy a way to insure its long-term participation in the Moon-Mars venture, especially in reviewing the innovative concepts gathered by NASA.

Among the new ideas already getting attention is one from the Lawrence Livermore National Laboratory in California that proposes to use inflatable parts, rather than rigid metal structures, to build a space station, Moon base and Mars probe. The Livermore goal is to reduce the project cost from $400 billion to $40 billion.

Another idea is to reduce the amount of time astronauts spend assembling structures, relying instead on robots and so-called smart machines or on pre-assembled ships and bases.

Federal officials say virtually nothing has been ruled out, that even proposals from foreign experts would be considered.

”What we want,” said an official, ”is to be sure we’ve examined every model” of how to go to the Moon and Mars – ”the compact, the mid-size and the luxury.””

http://www.nytimes.com/1990/01/15/us/nasa-losing-30-year-monopoly-in-planning-for-moon-and-mars.html?src=pm

NYT 1992

“Space Council Cuts NASA’s Role In Exploration of Moon and Mars~NYT 3.14.1992

Published: March 14, 1992

The National Space Council tightened its control over space activities today by dividing NASA’s responsibility for the Moon-Mars project among several Government agencies.

Vice President Dan Quayle, who heads the space council, made public a space policy directive approved by President Bush that assigns “major roles” to the

Department of Defense and the Department of Energy while establishing the National Aeronautics and Space Administration as the principal agency in the project.

On July 20, 1989, the 20th anniversary of the Apollo 11 moon landing, Mr. Bush declared a goal to establish a base on the Moon and to send human expeditions to Mars. Later, he set a goal to have the Mars landing by the year 2019. A Lukewarm Reception.

Cost estimates for the 30-year project have ranged from $400 billion to more than $500 billion. But the project, called the Space Exploration Initiative, has received a lukewarm reception in Congress and has been very little push from the Bush Administration. Only $8.5 million has been spent on the initiative to date.

For example, NASA had requested $51 million for the project in the current fiscal year, but the Administration asked for $14 million less when it submitted its budget to Congress. In the fiscal year 1991, Congress refused to spend any money for the initiative.

But Mr. Quayle's announcement said the new directive was a reaffirmation of America's commitment to space exploration. It draws on recommendations made last year by the Synthesis Group, headed by Thomas Stafford, a former astronaut.

In response to the Stafford report the space agency set up an exploration office, and the directive calls for that office to be staffed both by NASA “and representatives from other participating agencies.”

The exploration office is charged with preparing an annual status report, and the directive requires the exploration office to present its first report to the National Space Council, outlining options for carrying out the missions. It also orders that a strategic plan be submitted by April 1993 and every year thereafter.

The space council, a creation of the Bush Administration, has long been at odds with NASA’s astronaut-oriented management. The council has said repeatedly that the space agency’s programs have taken too long and cost too much, and has called on NASA to seek new ideas and new techniques from universities, Federal laboratories and private business.

The dispute led to the resignation last month of the NASA administrator, Richard H. Truly, who is a former astronaut. On Wednesday the President named Daniel S. Goldin, an industry pioneer in making civil spacecraft and spy satellites, as Mr. Truly’s successor. The Senate must confirm the nomination.”

http://www.nytimes.com/1992/03/14/us/space-council-cuts-nasa-s-role-in-exploration-of-moon-and-mars.html?src=pm

The United States, Canada and Israel Corporations are an Avenue for Cash for the Secret Space Program

Imagine that the United States invented a separate Country which it could give humanitarian aid to, and that aid could be spent by the leaders in the other Country on anything they want. They could spend it on guns, drugs, nuclear weapons, building things which it sells to others for more profits to make more guns, an army, tanks, bombs, scud missiles, Secret Government Space Programs. Imagine that the reason to invent a separate Country is to launder billions of dollars under the guise of humanitarian aid. Imagine that the powers at be invented this Country under the guise of a religious conflict and started fake wars based on religion. Can you just hear John Lennon singing now? Don't you think he understood the Illusion we have put ourselves under? We can end nuclear threat and admit to ourselves that our governments have deceived us on every level. The Cabal is locked into their own program and, even though it will fail, they can not let go of it. They are in the top levels of all the world agencies and control these decisions, but not for long.

Look, let me explain it this way.

Israel is the 51st State of the United States and is registered on the Stock Exchange. Israel is listed as a Corporation on the SEC http://sec.gov/cgi-bin/browse-edgar?action=getcompany&CIK=0000052749&owner=exclude&count=40 with a New

York City address for the Corporation. Here is Canada listed on the Securities Exchange Commission as a Corporation http://sec.gov/cgi-bin/browse-edgar?action=getcompany&CIK=0000230098&owner=exclude&count=40 whose address is in Washington D.C. Israel is a Corporation. The CEO is Netanyahu, the COO is Hillary Clinton and the Board is Mossad, headed by Rahm Emanuel. These are the dirty players President Obama must indict to bring Peace. As he navigates this elaborate chess game he is dealing with about 400 Members of Congress who have been taken out and replaced with solid holograms. This may seem far out, although it is true. This is how the soulless agenda has been pushed through. Slightly more than 100 Congressmen are alive ensouled humans. The rest are machines manipulating you.

Operation Majestic Was the Beginning of the Deception

President Truman was responsible for starting the CIA under Executive Order to Manage the Black Ops Secret Space Program September 24, 1947. http://www.majesticdocuments.com/documents/intro.php

Operation Majestic-12 was established at the recommendation of Dr. Vannevar Bush, Chairman of the Joint Research and Development Board. The goal of the group was to exploit everything they could from recovered Extraterrestrial Technology. This is when the BANKS-GOVERNMENT-SECRET SPACE PROGRAM-BLACK Ops-NEGATIVE ET Cover-up was born. Vannevar Bush

organized the JOINT US-UK-CANADA Bank Funded Manhattan Project to make the first Nuclear Weapons.

CIA is in charge of the negative-ET Programs and Secret Space (National Security Agency) NSA Astronauts with a NASA Cover-Story. The CIA runs the Black-Ops Military because the soldiers drop the bombs. Lockheed Martin runs the bombs and the UFO Re-engineering in a factory in Colorado. Colorado is a Republic, but that is a whole other story. Canada bankrolls the whole thing by enslaving Palestinians who work in Israeli run sweat houses on the West Bank. Canada has a free-trade agreement with Israel so they manufacture everything the Israeli fake-state needs. Canada exports its jobs to Palestine like the U.S. exports its jobs to Mexico where we manufacture guns and drugs.

Israel gets approximately $8 Billion/yr in total aid from the United States. $312 Million of that is mailed back each year to Congress as bonuses in amounts based on how they vote “YES” for the Israel Agenda. The rest is spent on keeping the MidEast in constant conflict manipulating ideas about Iran having nukes. Saudi Arabian Royalty also pay for and manipulate the lies and keep the MidEast at war. No human would do this. Their political interests are lobbied through AIPAC [American Israel Public Affairs Committee]. AIPAC has even bragged that they ‘own Congress’ and control the U.S. through these means. The aid to Israel in 2007 was 20 times more that given to Palestine. Until you take a close look and raise your awareness you will Occupy and not fully understand why.

Let's Look Deep Into the Rabbit Hole~

Enter our Friends To The North, Canada

Canada-Israel Free Trade Agreement (CIFTA). CIFTA structures economic relations in such a way that Canadian corporations are encouraged to provide succor to Israel's system of apartheid and commission of war crimes and profit from the suffering and exploitation of Palestinians. The Canadian-Israel CIFTA dumped funds into Israel at a rate of $567 million in 1997 to a record high of $1.4 billion in 2007. Through this agreement Canada implicitly legalizes Israel's occupation of the Palestinians and allows it to exploit Palestinian labor and resources in its production processes.

From the U.S. and Canada Israel receives around $10 Billion a year to do with what they will. Millions becomes bribes, some is used to bomb the neighbors and the rest is poured into the Secret Space Program. Oy Gevalt! Through this arrangement the International Space Station (ISS) was born. In the beginning NSA Astronauts made it to the Moon and it was almost a decade later NASA walked on the Moon with NSA Astronauts and ET Craft there to greet them. Now ISS is working with the positive ETs of the Galactic Federation. All of the negative ETs who were trying to control Earth resources have been purged from Earth. Any that appear to still be here posing as humans have been taken out and replaced by clones. Do not say it is far fetched because Mothers in Palestine whose husbands' work in slave factories funded by Canada and whose children

are bombed on the street would whole-heartedly disagree. More than anything else is the secrecy involved and the lack of any need to account for the money. It can be spent for anything they choose, and it is. Canadian Corporations fund and supply Palestinian workers to build the illegal West Bank Settlements and the Canada-Israel Highway which transports the goods and services over to the West Bank illegally.

December 12, 2011 Two Canadians Filed Suit in Federal Canadian Court in Toronto Against:

HER MAJESTY THE QUEEN,

THE CANADIAN MINISTER OF FINANCE,

THE CANADIAN MINISTER OF NATIONAL REVENUE,

THE [FEDERAL PRIVATIZED CENTRAL] BANK OF CANADA,

THE ATTORNEY GENERAL OF CANADA

In the Statement of Claim it explains how the Canadian Government nullified the Bank of Canada Act, RSC, 1985, c. B-2 making loans at zero percent interest to Countries like Israel laundered through BIS and IMF. So in effect Canada's Citizens, their hospitals, roads, schools, libraries and such were robbed to funnel money to Israel to pay for War Crimes *and* THE SECRET SPACE PROGRAM.

In the Statement of Claim it is Explained This Way:

i) Parliament and the government, including the Defendant Minister of Finance, abdicating their duty to govern, and insofar, as monetary, currency and financial policies, per se, are concerned, and in turn as they effect socio-economic governance, have abdicated their constitutional duty(ies)and handed them over to those international, private entities, whose interests, and directives, are placed above the interests of Canadians, and the primacy of the Constitution of Canada, not only with respect to its specific provisions, but also with respect to the underlying constitutional imperatives, and which provision reads:

(m) open accounts in a central bank in any other country or in the Bank for International Settlements, accept deposits from central banks in other countries, the Bank for International Settlements, the International Monetary Fund, the International Bank for Reconstruction and Development and any other official international financial organization, act as agent or mandatory, or depository or correspondent for any of those banks or organizations, and pay interest on any of those deposits;

Self-Disclosure Means Major Overhauls in the Courts, Of the Politicians and the Illegal Central Banks Including BIS and IMF ~ It Is A Very Complicated Issue

Now is it clear why Full Galactic Disclosure is key to NESARA Law and visa versa? When we are told the truth that our Governments have been working with

positive ETs at ISS which was built from funds stolen from our Central Banks by our Governments by fake laws backed by corrupt Judges we realize we need to fire all the Judges and Politicians and Bankers immediately. NESARA Law has provisions for this and only needs to be enacted. It was signed into law by Bill Clinton in October, 2000.

If They Disclose ~ Can You Handle The Truth?

In the meantime, while we wait for President Obama and the Intelligence Complex (CIA, DIA, FBI, NSA, DoD and others) and the Military Complex (NSA Astronauts, NASA Astronauts, Navy SEALS, Delta Force, Private Contractors and others) grow the cajones to tell their Citizens the truth it begs the question: Can You Handle The Truth? We have all seen the UFO flying next to the Moon. Secret Space Program snapped that shot from Apollo 16 and "NASA the cover-story" still continues to refuse to allow us to see the other Planets on their secret satellites.

Anyone from Any Country Over Age 13 May Sign The Petitions

Yet and still the official "White House response" to the Disclosure I Petition was, and I am paraphrasing, *'there is no evidence of life out there.'* Seriously, is that the World you want to live in? I thank you for Occupying America. I hope more Americans wake up to the truth and demand the Government Self-Disclose to its Earth Citizens. Realize this: If we have Disclosure it means ALL OF THE WAR CRIMINALS will go to trial at the Hague and they know the sentence will may be

a death sentence. They hide the truth from you to save their own skins. (AND to make more money) How we Co-Create New Earth is understanding the Canadian Federal Court Case suing the Queen of England for Acts of High Treason is Earth shattering. Finally, we realize this Canadian Lawsuit adds to pressure on the Media to report the truth. The Disclosure II Petition, Need to Know Petition and Disclosure III Petition were open for ALL EARTH CITIZENS TO SIGN. When we bump up the signatures past 25,000 we are informing the media that we require an answer to the secrecy surrounding Occupy Wall Street Issues. They are all ONE. We create our own world. Either we allow the Truth Embargo to continue 64 more years or we make our children proud and demand change.

Background on Secrecy and Link to Government Today

On December 12, 2011 Boris Chertok, Engineer of one of the first manned missions to space for the Soviet Union died at age 99. The U.S. Intelligence Complexes and U.S. Military Complexes hope all of the eye witnesses to the Secret Space Program will die off before they have to tell the Truth. The 25,000 signatures needed in 30 days for the Disclosure Petitions are a joke because the number is too high. The War Criminals at NSA and CIA have committed treason many times over and they hope you will just give up and forget. After all, teenagers today don't even remember 911 so if they continue with denial they can cover up their crimes under a suspended U.S. Constitution and have their way with us eventually ending Democracy altogether? Does it sound far-fetched?

Think again. The Patriot Act has already been in effect 10 years. Why don't Americans demand the Obama Administration repeal it?

Back in the 1920s the Iraq StarGate was uncovered in Baghdad during redecorating of the Presidential Palace. This StarGate was surrounded by the "Green Zone" during the Iraqi War and was the whole purpose for the war. Weapons of Mass Destruction (WMD's) were an excuse. Having control of the StarGate was the goal of the Bush Administration as well as Nazi Germany. This was a repeat of when Hitler and Nazi Germany went to Iraq to fight against the British as both wanted control of the Iraq StarGate. Führer Directive No. 30 dealt with German intervention in support of Arab Nationalists in the Kingdom of Iraq. During the 1930s, representatives of Nazi Germany and Fascist Italy attempted to gain favor with various Iraqi nationalists and promised support against the British. On 2 May 1941, after tensions mounted on both sides, the British launched pre-emptive land strikes against Iraqi forces and the Anglo-Iraqi War began. Rashid Ali immediately requested that the Germans make good on the earlier promises of assistance. The International Zone (formerly known as the Green Zone) is the heavily guarded diplomatic/government area of closed-off streets in central Baghdad where U.S. occupation authorities live and work. The Green Zone in the central city includes the main palaces of former President Saddam Hussein where the StarGate is located in the basement of the main palace. The area houses the civilian ruling authority run by the Americans and British and the offices of major U.S. consulting companies. Prescott Bush had

furnished weapons through the banks to Nazi Germany to arm them for World War II.

According to research carried out over the last few years, Wall Street bankers (amongst others) financed Hitler's rise to power while making large profits at the same time. U.S. economist Victor Thorn has noted that although a large number of other corporations aided the Nazis (such as Standard Oil and Rockefeller's Chase Bank, as well as U.S. automobile manufacturers) Prescott Bush's interests were much more profound and sinister. In their book, Tarpley and Chaitkin explain that in this way a significant part of the Bush family's financial base is related to supporting and aiding Adolph Hitler. Therefore, the U.S. president number 43, just like his father number 41 (former CIA Director, Vice President and President) reached the peak of the U.S. political hierarchy thanks to his great-grandfather and grandfather and generally his entire family, who financially aided and encouraged the Nazis.

Hitler was a contactee who made deals with then negative Extraterrestrial (ETs) Groups. Hitler and Others traveled through 'Time-Space Rift' that Montauk and other programs like the Philadelphia Project created. They also made deals with negative ETs to attain other time-travel means. Nazi Germany, Stalin’s Russia and the United States and England were working with Extraterrestrial Technologies long before the 1947 Crash at Roswell. That Crash was caused by the U.S. Military who played with radar signals where the Craft were spotted which caused a problem in the Crafts navigation computers which could not be

corrected before they crashed. This Craft was used for re-engineering as were other Craft and some of those were shot down by the U.S. Military.

The wars were all created as a diversion. Running guns, drug smuggling and war profits all had only one goal and that was to run the Secret Space Program. We have Border Facilities like Fort Bliss in El Paso Texas used for Black Ops in Mexico. We placed our deep Secret Space Facilities in Tunneled Underground Labs near Indian Reservations in New Mexico and Arizona so no United States Citizen could see the Black Ops trainings without effort. The National Security Agency (NSA) has been running a Secret Space Program since its inception. They have technologies which far exceed anything NASA has. President Obama closed down the Space Shuttle Program because the NSA Craft are 4th/5th Generation beyond the Space Shuttle. When we sign the Petitions we demand President Obama, the Intelligence Complexes and Military inform us of what has been hidden. They are not trying to debunk ET, they are afraid of worldwide anger at being deceived and a following dissolution of all governments as citizens learn more about all the deceptions which have been kept hidden under a cover story.

The CIA was originally set up by executive order under President Truman in 1947 and the National Security Agency (NSA) grew out of that. Since then the CIA has been running the United States Military and Black Ops Budget running the Secret Space Program. Anyplace the United States had a need for Military Intervention, the CIA is there with Black Ops running the Military. It would be impossible to

audit the United States Military simply because the Black Ops Budgets have never been written down. The Majestic Documents can be downloaded and printed online. The Freedom of Information Act declassified several documents which UFO Experts have been researching and posting online for years. This is not a conspiracy or a theory.

Mr. Chertok was an electrician at 17, and by 1930 was working in an aircraft factory. He graduated from the Moscow Energy Institute in 1940. After World War II, he was a member of a team of experts sent to Germany to mine records of the German rocketry program. Another member of that team was Mr. Korolev. They brought back the blueprints of the German V-2, which became the basis for the Soviet missile and space programs. Mr. Chertok's systems guided the rocket that bore Sputnik 1, the first artificial satellite to orbit Earth, into space on Oct. 4, 1957; and, on April 12, 1961, the rocket that took the first official man into space, Yuri Gagarin. (Less than a month later, Alan B. Shepard Jr. became the first official American in space.) When JFK made the call for a manned space flight, he knew that the United States NSA had already landed on the Moon in 1961. During World War II there were no real enemies. Everything was fabricated to fund the Soviet Union, Germany and the United States to go into Space.

In 1938 when Hitler was named Time Magazine's Man of the Year, American pilot Howard Hughes flew into the Arctic Circle looking for the portals into Inner Earth at the North Pole. He found it. He flew from Yakutsk Russia over the Pole to Fairbanks Alaska. He was funded by the same Wall Street Bankers who

funded the Secret Space Program. He flew in a Lockheed Jet. Lockheed, BMW and other Industrial Corporations were fronts for Secret Space Development. Lockheed's Skunk Works is an alias for Lockheed Martins Advanced Development Projects. In Colorado they build the bombs we drop in Iraq funding the Secret Space Program. That is a nice way to launder money and keep everything quiet from the U.S. Citizens. The Cold War was a diversion, not to hide Space Secrets from the Russians, but to hide the truth from the American People. Communism was a strategy for Russia to get the funds it needed to run their Secret Space Program. Hitler did the same thing in Germany. There were shuttle flights to the Moon and Mars weekly during the 1960s and Laura Magdalene Eisenhower talks about The Mars Colony and the things she learned from her Great-Grandfather, President Eisenhower.

The International Space Station (ISS) is a habitable, artificial satellite in low Earth Orbit. It is the ninth space station to be inhabited. The station is operated by Expedition crews, and has been continuously occupied for 11 years and 46 days having exceeded the previous record of 3,644 days, held by Mir, in 2010. That's what the official word is, anyway. President Obama regularly visits ISS and keeps in contact with the Astronauts from the over 15 countries who have ISS Astronauts. According to the original Memorandum of Understanding between NASA and RSA, the International Space Station (ISS) was intended to be a laboratory, observatory and factory in space. It was also planned to provide transportation, provide servicing and act as a staging base for possible future missions to the Moon, Mars and Asteroids (such as Ceres). NASA prepares an

out for the deception. In the 2010 United States National Space Policy, the ISS was given additional roles of serving commercial, diplomatic, and educational purposes. President Obama is often in communication with these Astronauts on Flat Screens like a video Skype Call, only different. He is working with the Altimarians and other positive benign Extraterrestrial Groups helping our Astronauts with advanced technologies like nanites. Microsoft is another company who creates and distributes technology to the Secret Space Program. Bill Gates provided and placed all the nanites into the Worlds Satellites. The Extraterrestrial Scientists who are a part of the Galactic Federation are already working to bring new technologies to Earth and wait for Self-Disclosure between our Governments and their Citizens to expand greatly their service to Earth. They do this out of compassion for the need of our Social Contracts being reported violated by those who we have elected to represent us. They do this instead of a Messier Forced Contact. Senator Paul Wellstone was taken out because he planned on telling the Truth about some of these deceptions. Many have been threatened with death to keep all of us in complete denial. The Altimarians referred to here are 12 scientists from the planet Altimar who volunteered to come to Earth and assist with environmental remediation efforts here. They help clean up nuclear and oil spills in the oceans. They bring green technology. They apparently arrived on Earth sometime in January, 2008. Gabrielle Giffords, Congresswoman from Arizona and Member of the United States House Science Subcommittee on Space and Aeronautics is married to Mark Kelly. Mark Kelly and his twin brother Scott were both selected to be shuttle pilots by NASA in 1996. Scott served as commander of (ISS) Expedition 26. NASA astronauts

Mark Kelly and Frederick Sturckow have visited the ISS four times, the most of any other NASA Astronauts. All of the technology developed through the Secret Space Program is utilized at ISS as well as technology we cannot even imagine. Disclosure is long, long overdue. Gabrielle lived through an attempt on her life where 6 other people died including a Federal Judge. Gabrielle and Mark are both White Knights working to bring Disclosure the right way at the right time.

When we take the mature view of the problem we realize that not only President Obama, but also Intel, including CIA, FBI, DoD, DIA, and NSA & NASA among others, the Old Guard at the Pentagon and the Military Industrial Complex must all agree together it is time for Disclosure. This is all happening at a time when the United States government is coming apart at the seams. There is a dysfunctional decline of the United States as a world power, the banks are broke and the Congress has the Patriot Act in place for 10 years and refuses to end torturing detainees at Gitmo. Signing the Petitions is Action Politics at its best and it is We The People's chance to petition their democracy and demand a change in policy which renders truth in the darkness. The New York Times informs us in great detail of a Russian rocket engineer who played a central role in designing the navigation systems for Soviet spacecraft during the race to the moon in hopes that we will forget and let it all pass away. The Media has played a major role in keeping on the blindfold. Will you let it rest?

On February 23, 2012 Stephen Bassett Executive Director of the Paradigm Research Group submitted the fourth petition for Disclosure, his second .The following is the text to this Path to Self-Disclosure.

Disclosure Petition II – the Rockefeller Initiative See: Disclosure Petition I

“WE PETITION THE OBAMA ADMINISTRATION TO immediately investigate UFO/ET Disclosure efforts during the Clinton administration – the Rockefeller Initiative.”

Disclosure Petition II

The Obama administration has formally stated, “The U.S. government has no evidence that any life exists outside our planet, or that an extraterrestrial presence has contacted or engaged any member of the human race.”

If true, what was Clinton’s Office of Science and Technology Policy investigating from March 1993 to October 1996 in concert with billionaire, Clinton friend, Laurance Rockefeller?

Those who knew and have not spoken publicly of this initiative include: President Bill Clinton, Sec. of State Hillary Clinton, Obama transition chairman John Podesta, Sec. of Defense Leon Panetta, Vice President Al Gore and Gov. Bill Richardson.Contact: prg@paradigmresearchgroup.org Confirming Documents: http://tinyurl.com/8x7k9lf & www.presidentialufo.com/bill-clinton

Chapter 2

ANCIENT ASTRONAUT THEORISTS

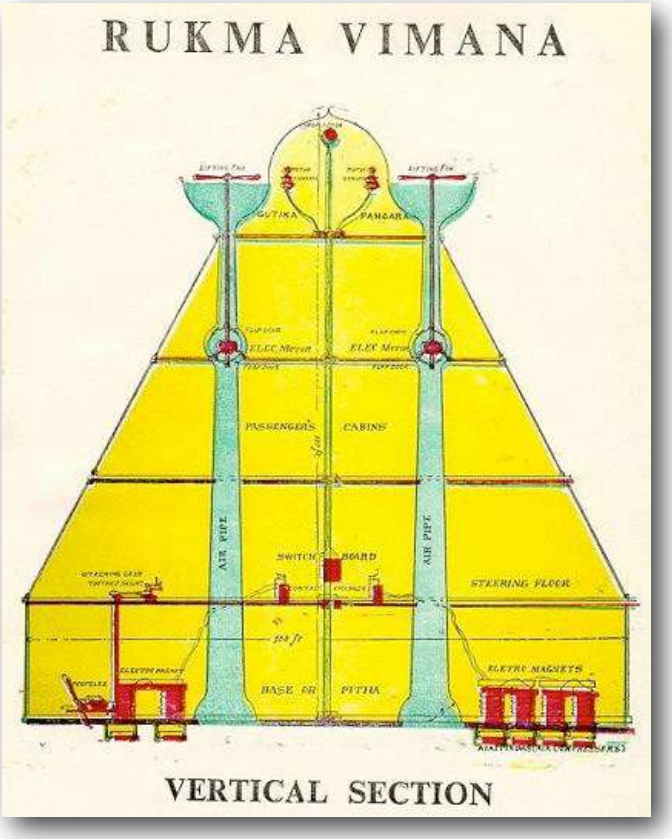
"Flying chariots," "celestial cars," "mechanical birds," "winged vehicles," and "aerial cities." These may sound like the swarming aircrafts from James Cameron's sky-battles in Avatar, but, in fact, they come from a much older source: ancient Sanskrit literature. Called Vimanas (pronounced "vimans") in Sanskrit, such flying vehicles appear throughout India's ancient texts, especially in combat sequences, when gods and divine beings battle their enemies high above the Earth.

Chariots flown by gods are not unique to Indian mythology: the Greek god Apollo flies the Sun Chariot; Kay Kavus, the mythological Persian king steers a flying throne to China; and Thor, of the Norse tradition, commandeers the Chariot of Thunder.

Ancient Astronaut Theorists

VIMANAS

Ancient Astronaut Theorists believe they see Space Craft in ancient cultures far advanced of what we see now on Earth. They look at ancient texts, art and architecture for these examples. We have this technology now on Earth and we all know it, Disclosure asks our Governments acknowledge it publicly.



The Mahabharata:

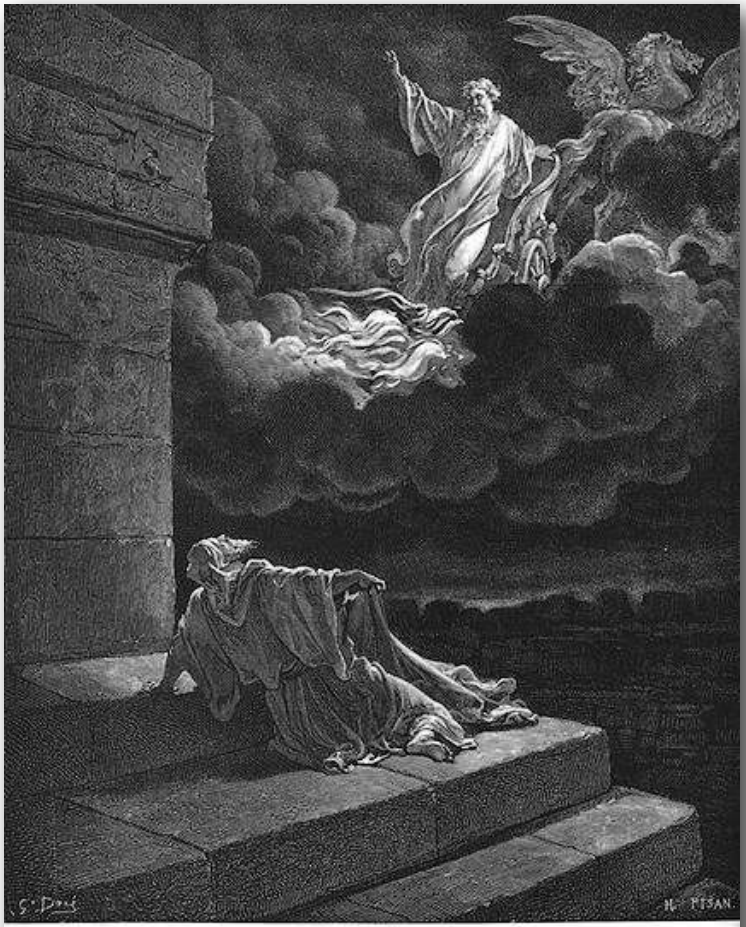
"Gurkha, flying a swift and powerful vimana (fast aircraft) hurled a single projectile (rocket) charged with the power of the Universe (nuclear device). An incandescent column of smoke and flame, as bright as ten thousand suns, rose withall its splendor....It was an unknown weapon, an iron thunderbolt, a gigantic messenger of death, which reduced to ashes the entire race of the Vrishnis and the Andhakas....The corpses were so burned as to be unrecognizable. Hair and nails fell out; Pottery broke without apparent cause and the birds turned white....After a few hours all foodstuffs were infected...to escape from this fire the soldiers threw themselves in streams to wash themselves and their equipment."

In the Hindu Epic *The Ramayana*, the pushpaka ("flowery") vimana of Ravana is described as follows:

"The Pushpaka chariot that resembles the Sun and belongs to my brother was brought by the powerful Ravana; that aerial and excellent chariot going everywhere at will .... that chariot resembling a bright cloud in the sky ... and the King [Rama] got in, and the excellent chariot at the command of the Raghira, rose up into the higher atmosphere."

Egyptian Ancient Astronaut Flying Machines Found in Hieroglyphics.

Ancient Mayan Astronaut from Palenque, Pacal Votan. This is a view of his Sarcophagus (above) and to the right is a detailed view of the cover. He is piloting his flying machine.



ELIJAH TAKEN UP TO HEAVEN IN A CHARIOT OF FIRE

Behold, there appeared a chariot of fire, and horses of fire, and parted them both asunder; and Elijah went up by a whirlwind into heaven. And Elisha saw it, and he cried, My father, my father, the chariot of Israel, and the horsemen thereof. And he saw him no more . . . (II Kings 2: 11, 12)

Christian Mythology of Jesus going for a Vimana ride. The Transfiguration of Jesus happened at the StarGate on Mt. Hermon.

Jewish Mythology of Prophet Elijah going for a Vimana ride.

Chapter 3

THE DISCLOSURE AND ADVOCACY MOVEMENT

"Exopolitics is the study of the key individuals, political institutions and processes associated with extraterrestrial life. Information concerning extraterrestrial life and technology is kept secret from the general public, elected political representatives & even senior military officials. The supporting evidence is overwhelming in scope and shows that decision making is restricted on a strict 'need to know' basis."

~ Dr. Michael Salla

The Disclosure and Advocacy Movement

PARADIGM RESEARCH GROUP

"But the advocacy movement is now representative of a new era - exopolitics. The era of the UFO is over. It ended no later than 1991. "UFO" is now an anachronistic contradiction in terms. [Imagine the India independence movement had focused on UFOs - Unidentified Foreign Occupiers.] The truth embargo is not about preventing citizens from learning about frisbees, balloons and bird flocks. It's about withholding acknowledgment of non-human, intelligent beings flying about in Earth's skies and much more. The scientific study of the phenomena should of course go forward, but should be called extraterrestrial phenomena research - not ufology. "

~Steve Bassett, http://ParadigmResearchGroup.org

The Disclosure and Advocacy Movement has grown over the years. The politics of hiding the Secret Space Program by our elected government officials and military services with the intelligence services is the basis of Exopolitics. The following is only a sample of the important research and advocacy work that is being done.

"Stephen Bassett is a leading advocate for ending the 64-year government imposed truth embargo regarding an extraterrestrial presence engaging the human race. He is a political activist, lobbyist, commentator, the executive director of Paradigm Research Group and the Extraterrestrial Phenomena Political Action Committee (X-PPAC) and executive producer of the annual X-Conference. His work has been covered extensively by national and international media." http://www.paradigmresearchgroup.org/stephenbassett.html I interviewed Steve Bassett in December of 2011. I asked him what we can say regarding how the Obama administration has continued the Truth Embargo. He replied this way: "We are literally seeing the decline of the United States as a premiere World Power. It is literally coming unglued before our eyes. We are watching it disassemble. Now that's a big deal. So it is in that context that the quote "United States Government" which means the Executive branch and our President, whoever that is, the military services, headed by the Joint Chiefs and the intelligence services, some of which answer to the Joint Chiefs and some answer to the Executive Branch-they all have yet to come together in a decision to Disclose. (Right) So its going to happen."

“Its not going to be oil companies giving them permission, Its not going to be some ancient family in Europe that decides its time to have this particular thing happen - No. Its going to be the entities you would expect which are the Military Complexes, the Intelligence Complexes (of course of which is operating in the Black [Ops] world, or the private world, and the Executive Branch of government. They have not been able to do it. (Right) They have not been able to have that meeting and make this call. In the context of the rest of what’s going on, including America’s dysfunctional decline right now as well as the complexities of this world they haven’t been able to get it done. The Advocacy movement is about helping them and even pressuring them to some degree, to make this decision.”

There is a common misnomer that the President is solely responsible for Disclosure. often we overlook the hidden agenda of other entities. We must look at the well documented Secret Space Program. There is a lot of money being made behind the scenes and under the table for private contractors working for Black Ops. None of the money is accounted for. No one knows exactly how much is being made. This is the main block to Disclosure. The following is a summary of the work of only a few notable courageous historians and scientists on Disclosure.

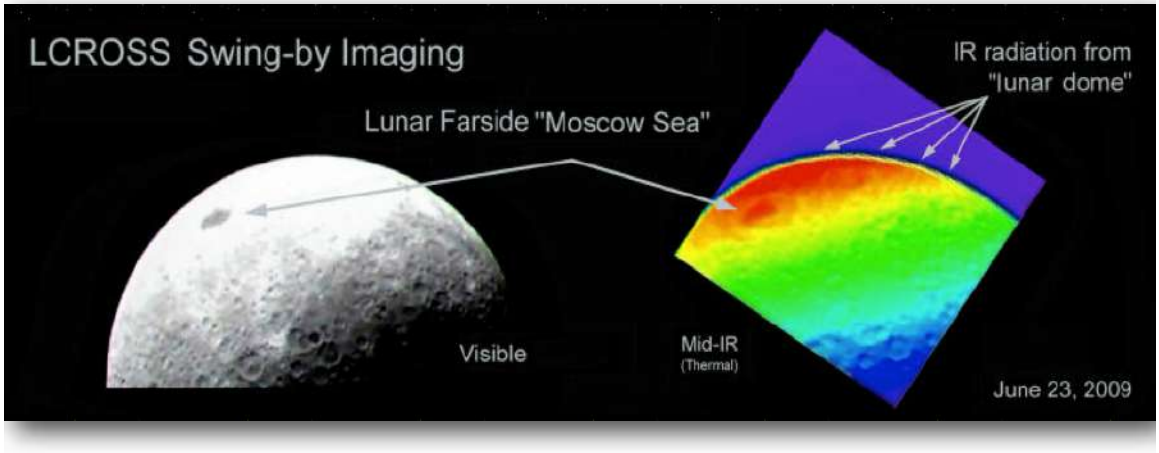
Historian Richard Dolan presented in Amsterdam in 2011 a program on the Secret Space Program. He wrote an article which may be seen on his website http://www.keyholepublishing.com For Skeptics and Believers: *12 Documents Proving the United States Government Interest in UFOs.* He explains why this

topic is important from a National and Global Security perspective. He also speaks of retrieval of non-human bodies and technologies and reverse engineering. Crash retrievals from Craft driven off course by manipulation of radar and also by being shot down.

Richard Hoagland has been studying images coming back from Space many years. He wrote “The Monuments of Mars: A City on the Edge of Forever.”

He describes recent Secret Space activities with the LCROSS swing by of the lunar surface.

“In this official LCROSS image comparison (below), the left-hand view is from the LCROSS



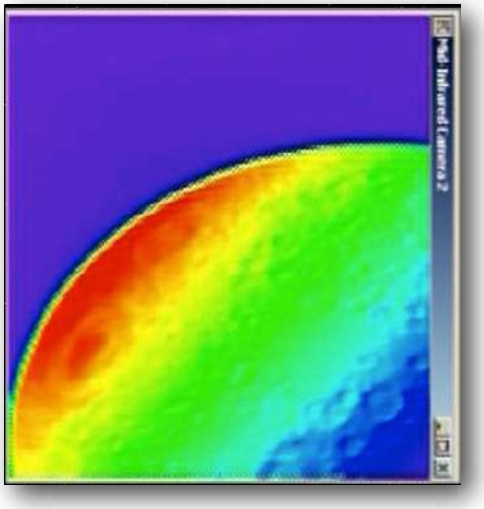
"shepherding satellite's" visible light camera-- showing a section of the Moon's Farside (the hemisphere never seen from Earth) taken during LCROSS' critical

lunar "swing-by" maneuver; the image on the right is a false-color version of the same scene taken, however, in the "mid-infrared" (the heat part ...) of the spectrum.

As can be seen in comparing the visible light image with its infrared counterpart: the Moon's surface temperature totally ignores all local surface features -- mountains, craters, impact basins, etc., etc.; instead, the temperature distribution runs smoothly from the extremely cold, pre-dawn value of -250 F. (the blue-violet portion of the Moon, at the bottom of the image - below), to the "red hot" +250 F. of "high lunar noon" -- seen as one approaches the upper, curving lunar limb.

And yet, in this "textbook" temperature distribution radiometer image ... there is one MAJOR, glaring "flaw"--

That curving yellow line ... arcing just above the actual red (high temperature) surface of the Moon ….



What's producing that?!

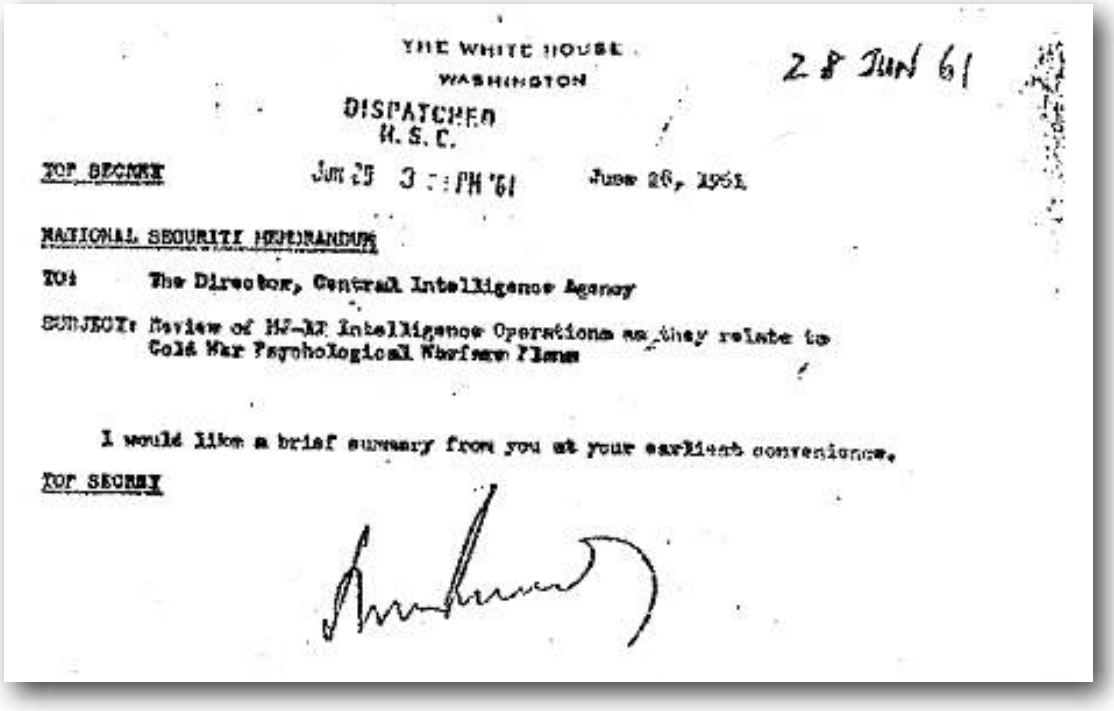
"That" is the combined effect of "countless numbers of semi-transparent, heat-radiating, ancient lunar structures ..." all blending together ... along a substantial section of the horizon of the Farside of the Moon ….

They have "given themselves away" by their intrinsic thermal heating from the Sun ... and then, re-radiation of that heat back into space ... which the sensitive LCROSS' IR cameras immediately picked up -- and then displayed as that "room temperature" yellow-arc stretching above the real, higher-temperature (red) lunar surface.

The potential extent of these artificial lunar structures -- stretching along a major segment of the total visible horizon! -- may surprise some new to our lunar investigations; it shouldn't." From Richard Hoagland's website http://www.enterprisemission.com/SmokingGun2.htm

"Steven M. Greer, MD is Founder of The Disclosure Project, The Center for the Study of Extraterrestrial Intelligence (CSETI) and The Orion Project." http://www.disclosureproject.org/presskit/sgbio.shtml Dr. Greer has been working since 2001 on compiling witnesses to the fact that our government has engaged with UFOs or extraterrestrial vehicles, extraterrestrial life forms, and resulting advanced energy and propulsion technologies. The Orion Project has a vivid focus on free energy technologies and the transformation of Earth by using sustainable energy from enlightened sources.

Dr. Michael Salla writes about Exopolitics in the Kennedy Administration the following: “A number of documents and testimonies cast light on President Kennedy’s knowledge of UFO crash retrieval operations, and his efforts to gain access to classified files concerning extraterrestrial life and technology. There are two main phases to



THE WHITE HOUSE
WASHINGTON

TOP SECRET Jun 29 3 :PM '61 June 28, 1961

NATIONAL SECURITY MEMORANDUM

TO: The Director, Central Intelligence Agency

SUBJECT: Review of NSC-5412 Intelligence Operations as they relate to Cold War Psychological Warfare Plans

I would like a brief summary from you at your earliest convenience.

TOP SECRET

Kennedy’s efforts. The first is a series of executive actions he began on February 19, 1961 to place cold war psychological warfare programs under the control of his national security advisor, and later in June 1961 to implement Presidential

executive oversight over covert CIA operations through the Joint Chiefs of Staff. These executive actions coincided with Kennedy's efforts to gain access to the activities of a highly classified project dealing with UFOs and extraterrestrial life – MJ-12 Special Studies Project. The second phase began on September 20, 1963 when Kennedy embarked on a high risk political strategy of getting NASA to cooperate with the USSR on joint space and lunar missions. This brought to a climax a confrontation over the release of classified UFO files with the CIA & those in control of the MJ-12 Special Studies Project. This article reviews testimonies, documents and events concerning Kennedy's interest in UFOs and extraterrestrial life, and how this culminated in a deadly behind-the-scenes confrontation with the CIA and MJ-12 in the final month of his life." http://exopoliticsjournal.com/vol-3/vol-3-3-Salla.htm

This very grainy photo from 1967 is a leaked NASA photo clearly showing the portal at the North Pole which leads to Inner Earth. The hash marks are measuring the distance across the portal.

Chapter 4

THE DOCUMENTS

"Majestic Documents.com is a groundbreaking look at the United States UFO program called Majestic and the top secret government documents that tell the story of presidential and military action, authorization, and cover-up regarding UFOs and their alien occupants. A remarkable work of investigative journalism, this website is the first to authenticate top secret UFO documents that tell a detailed story of the crashed discs, alien bodies, presidential briefings, and superb secrecy. Special attention is paid to the forensic authentication issues of content, provenance, type, style and chronology. The story the documents tell leaves the reader with little doubt that the cover-up is real, shocking, and at times unethical."

http://MajesticDocuments.com with permission.

The Majestic Documents

THE WORK OF

DR. ROBERT M. WOOD & RYAN WOOD AND THE TEAM **HTTP://THEMAJESTICDOCUMENTS.COM**

When I embarked on this project I contacted Ryan Wood and asked permission to share verbatim from their website, *the documents*. He graciously agreed and stated he hoped to encourage my efforts. Dr. Wood and Ryan Wood have worked tirelessly, with their Team to provide for public review the most researched documents on UFO Disclosure. Their Team includes Nick Redfern, Stanton T. Friedman, Timothy S. Cooper, Jim Marrs and Jim Clarkson.

They ask your assistance: Volunteer To Help With Research Our goal at http://MajesticDocuments.com is to provide an outstanding resource and dissemination vehicle for the investigation of UFO-related documents. If you are interested in military history, archival research, witness interviewing, and private investigation send an

e-mail rswood@majesticdocuments.com explaining your background, areas of interest, and how you would like to help the effort.

Project Blue Book

On 11 September 1951, Captain Edward J. Ruppelt took over the reins of Project Grudge; and one month later, a revamped version was established – Grudge II. The Battelle Memorial Institute, a "think-tank" consulting firm, was asked to prepare a statistical study of UFO reports obtained up until that time period. Several months later, in March 1952, Grudge II was officially designated as Project Blue Book – a project that would remain in existence until 1969.

There can be no doubt, however, that the role of Blue Book's mission was radically different to that of both projects Sign and Grudge. For the most part, Blue Book's approach was directed by a panel formed in late 1952 by the CIA known as The Scientific Advisory Panel on UFOs, or more popularly, The Robertson Panel. Although it was determined that there was a distinct lack of evidence to support the notions that UFOs were extra-terrestrial in origin, the Robertson Panel nevertheless felt that UFO sightings represented a potential danger to national security that could be exploited for propaganda and psychological means by the Soviets. It was this concern that prompted the Robertson Panel to conclude that UFO mystery should be demystified. This was to be the role assigned to Blue Book.

Whilst it is true that some staff assigned to Blue Book (such as Edward Ruppelt) were genuinely interested in resolving the UFO mystery and made praise-worthy moves to do so, on many occasions, bizarre and simply inaccurate explanations were offered to try and resolve as many cases as possible. Moreover, despite all the hype that continues to surround Blue Book, it was never anything more than an exercise in public relations and received minimal staffing from one officer, two clerks and a number of typists. Until it was officially terminated in 1969, Blue Book continued to present seemingly adequate explanations to the UFO mystery whilst the real work went on behind the scenes. As evidence of this, consider the following extracted from a 1969 USAF memorandum prepared by Brigadier General C.H. Bolender, the Air Force’s Deputy Director of Development. “Reports of unidentified flying objects which could affect the national security are made in

accordance with JANAP 146 or Air Force Manual 55-11, and are not part of the Blue Book system."

The following extract (classified SECRET) is taken from the SUMMARY to the U.S. Air Force's PROJECT GRUDGE TECHNICAL REPORT on UNIDENTIFIED FLYING OBJECTS of August 1949. Prepared by Lt. H. W. Smith and Mr. G. W. Towles for the Commanding General Harold E. Watson, Colonel, USAF, Chief Intelligence Department, it states:

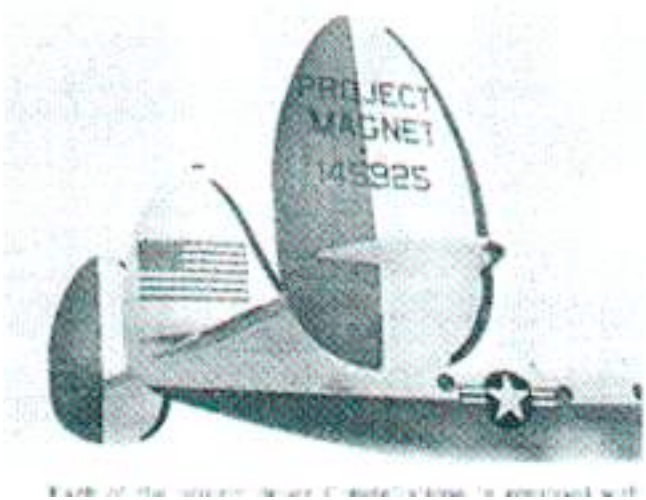
While there are approximately 375 incidents on record, only incidents Nos. 1 thru 244 are encompassed in this report. Of the later incidents, many have not yet been investigated, few have been completely tabulated, and none have been submitted to the consulting agencies. It is certain that better over-all results will be obtained in the analysis of the later reports, as these incidents generally have been more completely investigated. Since 5 December 1948, a series of recurring phenomena described as "green fireballs" have been reported in the general vicinity of Albuquerque, New Mexico. Dr. Lincoln La Paz, noted meteoritic expert, has been directly, though unofficially, associated with the investigation of these sightings and has himself observed the phenomena. Dr. La Paz states he is convinced the green fireballs are not ordinary meteors. This group of incidents has little or nothing in common with other incidents on file with Project "Grudge", therefore, these incidents are not considered in this report. The Scientific Advisory Committee was asked to investigate this matter and had advised that an independent investigation be conducted in the field of atmospheric research.

Upon eliminating several additional incidents due to vagueness and duplication, there remain 228 incidents, which are considered in this report. Thirty of these could not be explained, because there was found to be insufficient evidence on which to base a conclusion.

It is important to stress that Project Grudge was one of three acknowledged U.S. Air Force projects dealing with UFO investigations – the other two being Sign and Blue Book. Between 1948 (the year that saw the creation of Project Sign) and 1969 (the year in which Project Blue Book was officially terminated), 12,618 UFO reports were investigated by personnel assigned to these three projects. According to the Air Force, out of this total only 701 UFO reports remained unexplained; and that with respect to the remainder, "…there was no indication of a technology beyond our own scientific knowledge…" The Air Force further asserted (and continues to assert to this day) that no sighting "…could be considered an extra-terrestrial vehicle [and] throughout Project Blue Book there was never a shred of evidence to indicate a threat to our national security."

How then do we reconcile these statements with the Majestic documents, the very demonstrable threats to national security posed by UFOs and cited in the documents, and the data pertaining to UFO crash-retrievals suggesting that at least some UFOs are alien spacecraft? It must be noted that the bulk of the data pertaining to projects Sign, Grudge and Blue Book was classified up to Secret level only. However, as the Majestic documents make abundantly clear, data pertaining to crash-retrievals was classified at Top Secret level and need-to-know

clearance to access such information was strictly required. Furthermore, consider the following extracted from a 1969 USAF memorandum prepared by Brigadier General C.H. Bolender, the Air Force's Deputy Director of Development: "[R]eports of unidentified flying objects which could affect the national security are made in accordance with JANAP 146 or Air Force Manual 55-11, and are not part of the Blue Book system."



Project Magnet

The genesis of Project Magnet can be largely traced back to a memorandum of 21 November 1950 that Wilbert B. Smith, an official with the Canadian Government's Department of Communications (and who held a B.Sc. and a M.Sc. in Electrical Engineering), wrote to the Department of Transport. Smith, who had a personal interest in UFOs and had studied the subject, stated in his proposal that (a) the Canadian Government should be prompted to establish an

official UFO investigation project; and (b) that he was on the track of something that would lead to an understanding of both how UFOs were powered and the development of new technological advances on Earth.

According to Smith: "The existence of a different technology is borne out by the investigations which are being carried on at the present time in relation to flying saucers." Smith also advised the DoT that, having made a number of discreet inquiries at the Canadian Embassy in Washington, DC, he had learned the following from a Dr. Robert Sarbacher:

A. The matter is the most highly classified subject in the United States government, rating higher even than the H-bomb.

B. Flying saucers exist. 
C. Their *modus operandi* is unknown but concentrated effort is being made by a small group headed by Dr. Vannevar Bush.

D. The entire matter is considered by the United States authorities to be of tremendous significance.

On receipt of the memorandum, the Canadian Department of Transport quickly approved Smith's proposal to officially investigate UFO reports; and on 2 December 1950, Project Magnet — a classified Canadian government project — swung into action and a number of high-quality UFO reports caught the attention of Magnet staff. On 10 August 1953, Smith submitted the following report: "It appears then, that we are faced with a substantial probability of the real existence of extraterrestrial vehicles, regardless of whether they fit into our scheme of things. It is therefore submitted that the next step in this investigation should be a substantial effort toward the acquisition of as much as possible of this technology."

Three months later, at Shirleys Bay, Ontario, a station for investigating and detecting UFOs was established; and on 8 August 1954, the equipment "went wild," recalled Smith later. All of the available evidence suggested that a UFO had flown in close proximity of the station. Regrettably the entire vicinity was bathed in clouds and no visual sighting was made; the instrumentation, however, did record a major disturbance. Two days later, the DOT announced that Project Magnet was being shut down. The speed with which the project was shut down has led to allegations that a decision was taken to continue studies at a far more

covert level. It is intriguing to note, too, that in the early 1980s Dr. Robert Sarbacher reaffirmed his knowledge of secret U.S. Government UFO investigations overseen by Vannevar Bush and admitted that he was aware that the U.S. had in its possession both crashed UFOs and alien bodies. Wilbert Brockhouse Smith died on 27 December 1961, at the age of 52.

Project Moon Dust & Blue Fly

Although ostensibly two projects involved in the recovery and exploitation for the US Government of foreign space debris such as crashed satellites, rocket boosters and so on, there is intriguing data at our disposal showing that both projects have been involved in the recovery of far more exotic items – including possibly crashed UFOs and UFO debris. A 1961 US Air Force document states that:

In addition to their staff duty assignments, intelligence team personnel have peacetime duty functions in support of such Air Force projects as Moon Dust, Blue Fly and UFO, and other AFCIN directed quick reaction projects which require intelligence team operational capabilities.

Unidentified Flying Objects (UFO): Headquarters USAF has established a program for investigations of reliably reported unidentified flying objects within the United States.

Blue Fly: Operation Blue Fly has been established to facilitate expeditious delivery to Foreign Technology Division of Moon Dust or other items of great technological intelligence interest.

Moon Dust: As a specialized aspect of its overall material exploitation program Headquarters USAF has established Project Moon Dust to locate, recover, and deliver descended foreign space vehicles.

Of the approximately 1000 pages of official documentation on Moon Dust and Blue Fly that have now been released into the public domain by the Department of State, Air Force, Defense Intelligence Agency and CIA, one near illegible report from 1965 is titled: "FRAGMENT METAL, RECOVERED IN THE REPUBLIC OF THE CONGO, ORIGIN BELIEVED TO BE AN UNIDENTIFIED FLYING OBJECT."

Similarly, a DIA paper from 1967 states the following with regard to a UFO encounter over Agadir: "This report forwards translations of two articles which appeared in the Potit Morocain. Each article is separately identified as to source. Although the two articles are very contradictory, the page one coverage afforded this sighting demonstrates a high level of interest in the subject of UFOs, and presages future reporting which could be valuable in pursuit of Project Moon Dust."

It should be noted to that Project Moon Dust is referenced in the 1-page CIA paper pertaining to crashed UFOs, alien bodies, the late actress Marilyn Monroe and the Kennedy brothers John and Robert.

Project Sign

Declassified in 1997 as part of the GAO's investigation sponsered by the late Congressman Schift (Rep - New Mexico) in the Roswell incident, project SIGN began in 1947 as an Air Force investigation of UFOs, headed by Col. H. M. McCoy, Chief of Intelligence, Air Materiel Command, Wright Patterson AFB, Dayton Ohio. Project SIGN ended in early 1949 when the name was changed to Project GRUDGE, though Col. McCoy remained in charge of the successor project. The 900 pages of released documents are primarily UFOB intelligence reports, some with good data and administrative correspondence, green fireball reports of 48-49 in the desert southwest. The Fund for UFO Research has an excellent summary of the Air Force's project SIGN documents.

At approximately 3.00 p.m. on the afternoon of 24 June 1947, pilot Kenneth Arnold had his now-classic UFO encounter near the Cascade Mountains, Washington State. According to Arnold, he viewed nine, elliptical-shaped objects flying in a wedge-like formation and stated that the objects flew as a saucer would if it were skimmed across a pool of water. The Flying Saucer mystery had begun. In the weeks and months after Arnold's now-historic encounter, a wealth of other reports reached both the military and the media.

On 28 June, while flying at a height of 10,000 feet and 30 miles northwest of Lake Meade, Nevada, an Air Force Lieutenant reported seeing five or six white, circular-shaped UFOs in close formation and traveling at a speed of approximately 285 miles per hour.

The following day, a party of three – including two scientists – reported seeing a large UFO near the White Sands Missile Range. They were able to keep the object in view for almost a full minute and described it as disk-shaped, moving at high speed and with no discernible wings.

On 7 July 1947, five Portland, Oregon, police officers reported varying numbers of disks flying over different parts of the city; and on the same day, William Rhoads of Phoenix, Arizona, saw an object not dissimilar to that reported by Kenneth Arnold. Seventy-two hours later, a Mr. Woodruff, a Pan-American Airways mechanic, reported seeing a circular-shaped UFO flying at high speed near Harmon Field, Newfoundland.

As the summer of 1947 drew to a close and the Air Force had become an independent entity of the military, Air Intelligence demanded a report from Air Materiel Command regarding the then-current opinions on "flying disks". Lieutenant General Nathan F. Twining, the Commander of the Air Materiel Command at Wright Field, held a conference with individuals attached to the Propeller Laboratories of Engineering Division T-3, the Air Institute of Technology, and the Office of Chief Engineering Division. The result was a 23 September 1947, memorandum sent by Twining to Brig. General George Schulgen, Chief of the Air Intelligence Requirements Division. It concluded that:

a. The phenomenon reported is something real and not visionary or fictitious.

b. There are objects probably approximating the shape of a disk, of such appreciable size as to appear to be as large as man-made aircraft.

c. There is a possibility that some of the incidents may be caused by natural phenomena, such as meteors.

d. The reported operating characteristics such as extreme rates of climb, maneuverability, and actions which must be considered evasive when sighted or contacted by friendly aircraft and radar, lend belief to the possibility that some of the objects are controlled either manually, automatically, or remotely.

e. The apparent common description of the objects is as follows:
(1) Metallic or light reflecting.

(2) Absence of trail, except in a few instances when the object apparently was operating under high performance conditions
(3) Circular or elliptical in shape, flat on bottom and domed on top.
(4) Several reports of well kept formation flights varying from three to nine objects.
(5) Normally no associated sound, except in three instances a substantial rumbling roar was noted.
(6) Level flight speeds normally above 300 knots are estimated.

f. It is possible within the present U.S. knowledge - provided extensive detailed development is undertaken - to construct a piloted aircraft which has the general description of the object in subparagraph (e) above which would be capable of anapproximate range of 7,000 miles at subsonic speeds.

g. Any development in this country along the lines indicated would be extremely expensive, time consuming, and at the considerable expense of current projects and therefore, if directed, should be set up independently of existing projects.

h. Due consideration must be given to the following:
(1) The possibility that these objects are of domestic origin - the product of some high security project not known to AC/AS-2 or this Command.
(2) The lack of physical evidence in the shape of crash recovered exhibits which would undeniably prove the existence of these objects.
(3) The possibility that some foreign nation has a form of propulsion, possibly nuclear, which is outside of our domestic knowledge.

As a result, Air Materiel Command requested that a directive be issued assigning a permanent project to study the UFO phenomenon. On 30 December 1947, Major General L. C. Craigie, Director of Research and Development, issued an order that would establish Project Sign as the investigative body tasked with examining UFO reports. It would be the role of Sign to: "… collect, collate, evaluate and distribute to interested government agencies and contractors all information concerning sightings and phenomena in the atmosphere which can be construed to be of concern to the national security."

During the first six months of 1948, Project Sign studied UFO reports at Wright-Patterson AFB and focused much of its attention on the possibility that some UFOs were, indeed, other-worldly in origin.

On 5 August 1948, the Project Sign team determined that it was time for an evaluation of the data obtained. As a result, a Top Secret Estimate of the Situation was prepared by the US Air Force's Air Technical Intelligence Center, which concluded that UFOs were interplanetary spacecraft. This was to cause widespread dismay and concern amongst the higher echelons of the military and the conclusions of the report were rejected, largely on the orders of Chief of Staff, General Hoyt Vandenberg, who argued that the Estimate was bereft of any firm evidence to support such beliefs. As a result of this, the ET-hypothesis lost favor within Sign; and those involved in the production of the report were rapidly reassigned alongside rumors of a lack of morale within the project.

Nevertheless, by the end of 1948, Project Sign had received several hundred UFO reports, of which 167 had been classed as “good”; and almost 40 of which were considered to be “unknown”. By 16 December 1948, however, the work of Sign (much of which supported the ET-hypothesis) came to a close; and Brigadier General Donald Putt changed the name and made way for the more debunking-oriented Project Grudge.

If the Estimate of the Situation report was rejected by General Vandenberg, one might ask, is that because the conclusion was based on faulty data or is there a more sinister scenario? It is known that the project only carried a 2A restricted classification (with 1A being the highest); and whilst the project could, under required circumstances, be assigned a higher clearance, this suggests strongly that Sign personnel did not have blanket need-to-know with respect to the UFO mystery. Interestingly, the author and investigator Kevin Randle has spoken with a U.S. colonel who had worked with ATIC in the late 1940s and who confirmed the existence of the Estimate of the Situation and was aware that it had been hand-delivered to Vandenberg. According to the colonel, Vandenberg ordered that two paragraphs be removed from the Estimate – both of which referred to UFO crashes in New Mexico. Vandenberg’s actions seem to suggest that (a) Project Sign’s conclusions were being manipulated from the very beginning; and (b) there were those within the military that wanted Sign kept strictly out of the crashed UFO/Majestic 12 loop.

Project Snowbird

The original and only documented reference to this project came in 1983 when the “Project Aquarius Briefing Document” was shown to William L. Moore (the co-author of the book, *The Roswell Incident*) by an insider source in the U.S. Intelligence community. According to the documentation briefly revealed to Moore, Project Snowbird was established in 1972 to research and test-fly a recovered alien spacecraft. To date, attempts to resolve this claim via the Freedom of Information Act have been unsuccessful. The existence of another Project Snowbird, however, has been verified. This was a joint U.S. Army-U.S. Air Force military exercise established in 1955 to train troops to fight in the sub-Arctic region.

The Robertson Panel, 1952-53

For years rumors have circulated to the effect that the Central Intelligence Agency has been deeply implicated in the UFO mystery and in the crashed UFO controversy in particular. These assertions are further bolstered by the contents of the Majestic 12 documents. Nevertheless, at an official level at least, the CIA has only confirmed its direct involvement in one UFO study – the so-called Robertson Panel. To fully understand the official story of the Robertson Panel, take note of the following from the National Reconnaissance Office (NRO) historian, Gerald Raines:

In January 1953, H. Marshall Chadwell [CIA Director of Scientific Intelligence] and H. P. Robertson, a noted physicist from the California Institute of Technology, put together a distinguished panel of nonmilitary scientists to study the UFO issue. It included Robertson as chairman; Samuel A. Goudsmit, a nuclear physicist from the Brookhaven National Laboratories; Luis Alvarez, a high-energy physicist; Thornton Page, the deputy director of the Johns Hopkins Operations Research Office and an expert on radar and electronics; and Lloyd Berkner, a director of the Brookhaven National Laboratories and a specialist in geophysics.

The charge to the panel was to review the available evidence on UFOs and to consider the possible dangers of the phenomena to US national security. The panel met from 14 to 17 January 1953. It reviewed Air Force data on UFO case histories and, after spending 12 hours studying the phenomena, declared that reasonable explanations could be suggested for most, if not all, sightings. For example, after reviewing motion-picture film taken of a UFO sighting near Tremonton, Utah, on 2 July 1952 and one near Great Falls, Montana, on 15 August 1950, the panel concluded that the images on the Tremonton film were caused by sunlight reflecting off seagulls and that the images at Great Falls were sunlight reflecting off the surface of two Air Force interceptors.

The panel concluded unanimously that there was no evidence of a direct threat to national security in the UFO sightings. Nor could the panel find any evidence that the objects sighted might be extraterrestrials. It did find that continued emphasis on UFO reporting might threaten "the orderly functioning" of the

government by clogging the channels of communication with irrelevant reports and by inducing "hysterical mass behavior" harmful to constituted authority. The panel also worried that potential enemies contemplating an attack on the United States might exploit the UFO phenomena and use them to disrupt US air defenses.

To meet these problems, the panel recommended that the National Security Council debunk UFO reports and institute a policy of public education to reassure the public of the lack of evidence behind UFOs. It suggested using the mass media, advertising, business clubs, schools, and even the Disney corporation to get the message across. Reporting at the height of McCarthyism, the panel also recommended that such private UFO groups as the Civilian Flying Saucer Investigators in Los Angeles and the Aerial Phenomena Research Organization in Wisconsin be monitored for subversive activitiesThe Robertson panel's conclusions were strikingly similar to those of the earlier Air Force project reports on SIGN and GRUDGE and to those of the CIA's own OSI Study Group. All investigative groups found that UFO reports indicated no direct threat to national security and no evidence of visits by extra-terrestrials.

Following the Robertson panel findings, the Agency abandoned efforts to draft an NSCID on UFOs. The Scientific Advisory Panel on UFOs (the Robertson panel) submitted its report to the IAC, the Secretary of Defense, the Director of the Federal Civil Defense Administration, and the Chairman of the National Security Resources Board. CIA officials said no further consideration of the subject

appeared warranted, although they continued to monitor sightings in the interest of national security. Philip Strong and Fred Durant from OSI also briefed the Office of National Estimates on the findings. CIA officials wanted knowledge of any Agency interest in the subject of flying saucers carefully restricted, noting not only that the Robertson panel report was classified but also that any mention of CIA sponsorship of the panel was forbidden. This attitude would later cause the Agency major problems relating to its credibility.

Despite the history of the CIA's involvement in the UFO controversy as presented by Haines and the Agency itself, suspicions abound that the full story has yet to be told. Victor Marchetti, formerly of the CIA, has stated that he heard from within "high-levels" of the Agency accounts of the bodies of "little gray men" recovered from a crashed UFO held at Wright-Patterson Air Force Base, Dayton, Ohio. Similarly, the late UFO investigator Major Donald Keyhoe learned from insider sources that the purpose of the Robertson Panel was to debunk and demystify the UFO subject and to allow the CIA to continue its UFO investigations at a far more covert level – something that ties in with the material presented in the Majestic documents.

The Air Force, General Accounting Office, Mogul Balloons and Crash-Test Dummies

As evidence that the controversy surrounding the so-called Roswell Incident refuses to roll over and die, in the 1990s the Air Force published two investigative

reports pertaining to the events of July 1947. The following is taken from the Air Force's press release on the first report published in 1994 in response to an inquiry launched by the General Accounting Office — the investigative arm of Congress. The GAO's inquiry came as a direct result of questions initiated by the late New Mexican Representative, Steven Schiff. According to the Air Force's massive, near-1000 page report (The Roswell Report: Fact vs. Fiction in the New Mexico Desert, 1994) the debris found at Roswell was most likely from a Mogul balloon — a Top Secret Army-Air-Force device designed to assist the U.S. military in detecting evidence of nuclear tests by the Soviets. But what of the reports of alien bodies? In 1997, the Air Force expanded on this aspect of the Roswell affair in a document titled *The Roswell Report: Case Closed*:

This report discusses the results of this exhaustive research and identifies the likely sources of the claims of "alien bodies" at Roswell. Contrary to allegations, many of the accounts appear to be descriptions of unclassified and widely publicized Air Force scientific achievements. Other descriptions of "bodies" appear to be actual incidents in which Air Force members were killed or injured in the line of duty.

The conclusions are:

Air Force activities which occurred over a period of many years have been consolidated and are now represented to have occurred in two or three days in

July 1947."Aliens" observed in the New Mexico desert were actually anthropomorphic test dummies that were carried aloft by U.S. Air Force high altitude balloons for scientific research.

The "unusual" military activities in the New Mexico desert were high altitude research balloon launch and recovery operations. Reports of military units that always seemed to arrive shortly after the crash of a flying saucer to retrieve the saucer and "crew," were actually accurate descriptions of Air Force personnel engaged in anthropomorphic dummy recovery operations.

Claims of "alien bodies" at the Roswell Army Air Field hospital were most likely a combination of two separate incidents:

a 1956 KC-97 aircraft accident in which 11 Air Force members lost their lives; and,

a 1959 manned balloon mishap in which two Air Force pilots were injured. This report is based on thoroughly documented research supported by official records, technical reports, film footage, photographs, and interviews with individuals who were involved in these events.

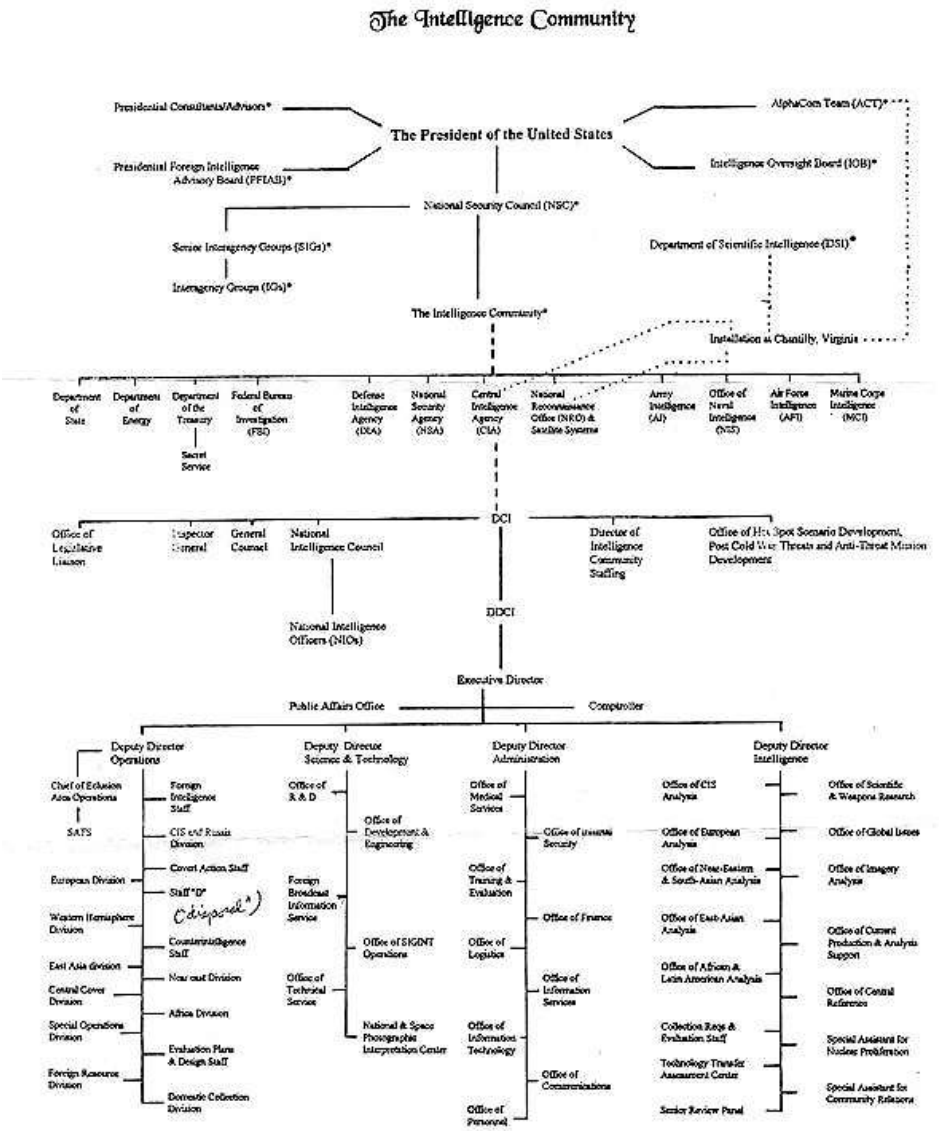
Despite the Air Force’s attempts to diffuse the controversy surrounding the Roswell events of 1947 and preempt the GAO’s findings, it is significant to note several key factors. First, Mogul balloons possessed no unusual characteristics such as those described by the witnesses to the event. Second, the crash-test

dummy experiments that the Air Force asserts led to the legends of alien bodies being recovered were not initiated until the 1950s. Third, during the course of its investigation, the GAO learned that all of the administrative records of Roswell Army Air Field from March 1945 until December 1949 and all outgoing messages from the base from October 1946 to December 1949 had been inexplicably destroyed. The Roswell enigma continues — despite the best efforts of the Air Force to lay the matter to rest.

Congressional Hearings on UFOs and Blue Book

There have only ever been two official Congressional Hearings held on UFOs. The House Armed Services Committee convened the first such hearing in 1966 in response to widely publicized UFO sightings and repeated public and media criticism of the Air Force's Project Blue Book. The hearing had the noted support of former U.S. President, Gerald Ford, the House Minority Leader. However, the only witnesses who testified were allied to Project Blue Book. As a result, the Secretary of the Air Force announced that there would be an outside, independent review of Blue Book. This was to be the genesis of the University of Colorado's Scientific Study of UFOs –or the Condon Committee project (after Edward U. Condon), as it is popularly known. Two years later, the House Science and Astronautics Committee convened a second hearing (which occurred during the final stages of the Condon Committee project) to review the scientific evidence for UFOs. It took the form of a scientific symposium in which six scientists testified and six others submitted prepared papers

In 1969, the Condon Committee published its findings. According to the director of the project, physicist Dr. Edward U. Condon, no scientific evidence existed in support of a genuine UFO mystery for UFO. The result? It was recommended that Project Blue Book should be terminated. Critics of the Condon Report have noted, however, that no less than 30 per cent of the cases investigated by the committee defied explanation. According to the critics, such as Dr. J. Allen Hynek, Dr. Condon's conclusions were



politically oriented rather than scientific: the Air Force wanted Blue Book closed at the earliest opportunity.

Nevertheless, of the six scientists who testified as part of the University of Colorado's study, five were of the opinion that UFOs were still a valid area for investigation. Of those, the late Dr. James McDonald concluded: "My own study of the UFO problem has convinced me that we must rapidly escalate serious scientific attention to this extra- ordinarily intriguing puzzle."

Following the release of the Condon Report, Project Blue Book was set for termination, with an announcement to that effect made in March 1969. A formal directive was finalized in December of that year by Air Force Secretary Robert C. Seamans, Jr. According to Seamans: "The continuation of Project Blue Book cannot be justified either on the ground of national security or in the interest of science."

From the commencement of Project Sign to the conclusion of Project Blue Book, 12,618 UFO reports were analyzed. Of these, 18% (701 cases) were catalogued as unidentified – and nearly half of which dated from 1952. Since the close of Blue Book, the Air Force has constantly tried to distance itself from the UFO subject – publicly, at least. The Air Force's current fact sheet on UFOs states that "since the termination of Project Blue Book, nothing has occurred that would support a resumption of UFO investigations by the Air Force." Nevertheless, as the Freedom of Information Act has shown, official interest in the UFO subject

continues - albeit at a restricted and far more covert level than that of Project Blue Book.

MJ12: The FBI Connection Nick Redfern

The purpose of this report is to relate the way in which the Federal Bureau of Investigation (FBI) became involved in the investigation of the Majestic 12 documents in the late 1980s. The story is a strange and convoluted one and involves the surveillance of U.S. citizens and authors, liaisons with the Air Force (and possibly the CIA), and even allegations of Soviet intelligence links to the story.

That the FBI has had involvement in the UFO subject is no secret: in 1976, the researcher (and author of the book The UFO-FBI Connection, 2000) Bruce Maccabee obtained via the Freedom of Information Act more than one thousand pages of UFO- related files from the FBI that dated back to 1947; and since then additional files have surfaced on a variety of issues linked to the UFO controversy. But what of the FBI link to MJ12?

The first person to publicly air the original batch of two MJ12 documents – the so-called Eisenhower Briefing Document and the Truman Memorandum – was the British author Timothy Good, who did so in May 1987 in his book Above Top Secret (Sidgwick & Jackson, 1987). Essentially, the first document is a 1952 briefing prepared by

Admiral Roscoe H. Hillenkoetter for President-elect Eisenhower, informing him that a UFO and alien bodies had been recovered from the New Mexico desert in 1947. The second is a 1947 memorandum from President Harry Truman to Secretary of Defense James Forrestal, authorizing the establishment of MJ12.

Shortly after Good's publication of the documents, additional copies surfaced in the USA via the research team of Stanton Friedman (a nuclear physicist), William Moore (the co-author of the book, The Roswell Incident (Granada Books, 1980) and Jaime Shandera (a television producer).

Moore had been working quietly with a number of intelligence "insiders" who had contacted him shortly after publication of The Roswell Incident in 1980. From time to time various official-looking papers would be passed onto Moore, the implication being that someone in the U.S. Government, military or Intelligence Community wished to make available information on UFOs that would otherwise have remained forever outside of the public domain. It was as a result of Moore's insider dealings that a roll of film negatives displaying the documents was delivered in the mail to the home of Shandera in December 1984.

Moore, Friedman and Shandera worked carefully for two and a half years in an attempt to determine the authenticity of the documents. With Timothy Good's release, however, it was decided that the best course of action was to follow suit. As a result, a huge controversy was created that continues on fifteen years later.

But how and why did the FBI become embroiled in the MJ12 affair? Howard Blum is an award-winning author and former New York Times journalist, twice nominated by the editors of that newspaper for the Pulitzer Prize in Investigative Reporting. In 1990, Blum's book Out There (Simon & Schuster, 1990) was released, and detailed his investigation of U.S. military and governmental involvement in the UFO subject. According to Blum, on 4 June 1987, the UFO skeptic, Philip J. Klass, wrote to William Baker, Assistant Director at the Office of Congressional and Public Affairs. "I am enclosing what purport to be Top Secret/ Eyes Only documents, which have not been properly declassified, now being circulated by William L. Moore, Burbank, California, 91505..." The Bureau swung into action.

Jacques Vallee—the UFO author, investigator, and former principal investigator on Department of Defense computer networking projects—stated in his book Revelations (Ballantine, 1991) that the FBI turned away from the MJ12 documents in "disgust" and professed no interest in the matter. Papers and comments made to me by the FBI and the Air Force Office of Special Investigations, however, reflect a totally different scenario. Furthermore, there are indications that the FBI launched (or were at least involved in) several MJ12-linked investigations during the late 1980s.

Of those investigations, one definitely began in the latter part of 1988. Howard Blum has stated that of those approached by the FBI "in the fall of 1988," one was a "Working Group" established under the auspices of the Defense

Intelligence Agency tasked with looking at the UFO problem. In 1990, Blum was interviewed by UFO Magazine (Vol. 5, No. 5), and was asked if the Working Group could have been a “front” for another even more covert investigative body within the U.S. government. Blum’s response aptly sums up one of the major problems faced by both those inside and outside of government when trying to determine exactly who knows what.

“Interestingly,” said Blum, “members of [the Working Group] aired that possibility themselves. When looking into the MJ12 papers, some members of the group said—and not in jest—‘Perhaps we’re just a front organization for some sort of MJ12. Suppose, in effect, we conclude the MJ12 papers are phony, are counterfeit. Then we’ve solved the entire mystery for the government, relieving them of the burden in dealing with it, and at the same time, we allow the real secret to remain held by a higher source.’ An FBI agent told me there are so many secret levels within the government that even the government isn’t aware of it!”

We also know that what was possibly a separate fall 1988 investigation was conducted by the FBI’s Foreign Counter-Intelligence division (which I have been advised operated out of Washington and New York). Some input into the investigation also came from the FBI office in Dallas, Texas (the involvement of the latter confirmed to me by Oliver B. Revell, Special Agent in Charge at Dallas FBI).

On September 15, 1988, an agent of the Air Force Office of Special Investigations contacted Dallas FBI and supplied the Bureau with another copy of the MJ12 papers.

This set was obtained from a source whose identity, according to documentation released to me by the Bureau, AFOSI has deemed must remain classified to this day.

Before addressing the involvement of the FBI's Foreign Counter-Intelligence division in this matter, let us focus our attention on Dallas FBI. On October 25, 1988, the Dallas office transmitted a two-page Secret Airtel to headquarters that read as follows:

Enclosed for the Bureau is an envelope which contains a possible classified document. Dallas notes that within the last six weeks, there has been local publicity regarding 'OPERATION MAJESTIC-12' with at least two appearances on a local radio talk show, discussing the MAJESTIC-12 OPERATION, the individuals involved, and the Government's attempt to keep it all secret. It is unknown if this is all part of a publicity campaign. [Censored] from OSI, advises that 'OPERATION BLUE BOOK, mentioned in the document on page 4 did exist. Dallas realizes that the purported document is over 35 years old, but does not know if it has been properly declassified. The Bureau is requested to discern if the document is still classified. Dallas will hold any investigation in abeyance until further direction from FBIHQ.

Partly as a result of the actions of the Dallas FBI Office and partly as a result of the investigation undertaken by the FBI's Foreign Counter-Intelligence people, on November 30, 1988 an arranged meeting took place in Washington DC between agents of the Bureau and those of AFOSI. If the AFOSI had information on MJ12, said the Bureau, they would like to know.

A Secret communication back to the Dallas office from Washington on 2 December 1988 read:

This communication is classified Secret in its entirety. Reference Dallas Airtel dated October 25, 1988. Reference Airtel requested that FBIHQ determine if the document enclosed by referenced Airtel was classified or not. The Office of Special Investigations, US Air Force, advised on November 30, 1988, that the document was fabricated. Copies of that document have been distributed to various parts of the United States. The document is completely bogus. Dallas is to close captioned investigation.

At first glance, that would seem to lay matters to rest once and for all. Unfortunately, it does not. There can be no dispute that the Air Force has played a most strange game with respect to MJ12. The FBI was assured by AFOSI that the MJ12 papers were fabricated. However, Special Agent Frank Batten, Jr., chief of the Information Release Division at the Investigative Operations Center with the USAF, admitted to me on April 30, 1993 that AFOSI is not now maintaining (nor ever has maintained) any records pertaining to either MJ12, or any investigation thereof. This begs an important question. How was AFOSI able to

determine that the papers were faked if no investigation on their part was undertaken? Batten has also advised me that while AFOSI did “discuss” the MJ12 documents with the FBI, incredibly they made absolutely no written reference to that meeting in any shape or form. This is most odd: government and

Military agencies are methodical when it comes to documenting possible breaches of security.

Richard L. Weaver, formerly the Deputy for Security and Investigative Programs with the U.S. Air Force (and the author of the US Air Force’s 1995 near-1000 page report, The Roswell Repor: Fact Vs. Fiction in the New Mexico Desert), advised me similarly on 12 October 1993. “The Air Force considers the MJ12 (both the group described and the purported documents to be bogus,” stated Weaver. He, too, conceded, however, that there were “no documents responsive” to my request for Air Force files on how just such a determination was reached. Stanton Friedman has also stated that, based on his correspondence with Weaver on the issue of MJ12, he too is dissatisfied with the responses that he received after filing similar FOIA requests relating to the way in which the Air Force made its ‘bogus’ determination.

Moreover, there is the fact that AFOSI informed the FBI that, “copies of that document have been distributed to various parts of the United States.” To make such a statement AFOSI simply must have conducted some form of investigation or have been in receipt of data from yet another agency. On the other hand, if

AFOSI truly did not undertake any such investigation into MJ12, then its statement to the FBI decrying the value of the documents is essentially worthless, since it is based on personal opinion rather than sound evaluation.

If the Bureau learned anything further about MJ12 in the post-1989 period, then that information has not surfaced under the terms of the Freedom of Information Act. Perhaps the Bureau, unable to get satisfactory answers from the military and the intelligence community, simply gave up the chase; I do not know. I do know, thanks to Richard L. Huff, Bureau Co-Director within the Office of Information and Privacy, that MJ12 remains the subject of an FBI headquarters Main File that is titled “Espionage.” Today that file is in “closed status.” But why would the MJ12 documents be linked with a FBI HQ Main File titled “Espionage? It is here that we have to turn our attention to the FBI’s Foreign Counter-Intelligence division.

Some of the information related above was published in my book The FBI Files. As is often the case with published authors, people who read their books will contact them with information based on the material contained within the pages of the book. In the wake of the publication of The FBI Files, I was contacted by a man about whom I will say little. I will say that he offered that he had formerly served with the FBI in the time period that the FBI was investigating MJ12 and had knowledge of the Bureau’s interest in the MJ12 documents. He also supplied information that convinced me that he was genuine. According to the man, the FBI had actually been aware of the intricacies of the MJ12 saga for some two years before Timothy Good published the documents in Above Top Secret.

However, I was advised, the investigation was intensified after the documents were publicized in the U.S. I was further told that initially there was a fear on the part of the Air Force and the FBI's Foreign Counter-Intelligence people that the MJ12 papers had been fabricated by Soviet intelligence personnel who intended using them as "bait."

That bait was to be used on U.S. citizens who had a personal interest in UFOs but who were also working on sensitive defense-related projects—including the Stealth fighter. The hope on the part of the Soviets, it was suspected by the FBI and AFOSI, was that by offering the MJ12 papers to those targeted sources within the U.S. defense industry, the Soviets would receive something of value of a defense nature in return. The man was unsure precisely how the investigation concluded. He did know, however, that no charges were brought against anyone. This is an ingenious scenario but it must be stressed that my source reiterated that the Soviet theory was simply that—a theory and nothing more. It was, he said, one of several avenues being actively pursued by the FBI at the time. A similar comment was made by Gerald Haines, historian of the National Reconnaissance Office, in his controversial paper, "CIA's Role in the Study of UFOs: 1947–1990."

In a section of the report dealing with CIA involvement in UFO investigations in the 1980s, Haines commented that: "Agency analysts from the Life Science Division of OSI and OSWR officially devoted a small amount of their time to issues relating to UFOs. These included counterintelligence concerns that the

Soviets and the KGB were using U.S. citizens and UFO groups to obtain information on sensitive U.S. weapons development programs (such as the Stealth aircraft)."

MAJESTIC–12 GROUP • APRIL 1954

It should also be noted that the Haines paper claims that no original MJ12 documents were known to exist; however, he neglects to reference the so-called Cutler-Twining memorandum that Moore and Shandera located in the National Archives.

There is further evidence, too, that the FBI has in its archives more information pertaining to MJ12 than has surfaced into the public domain thus far. On November 16, 1988, the UFO researcher Larry Bryant wrote to Ms. Hope Nakamura of the Center for National Security Studies and advised her that in a then-recent conversation with William Moore, he had been informed of Moore's efforts to secure the release of the

FBI's file on him. The bulk of the FBI's dossier on Moore (which amounted to no less than fifty-five pages) was being withheld for reasons directly affecting the national security of the United States of America.

Bryant went on to explain that Moore was attempting to find legal assistance in challenging the nondisclosure of the majority of the FBI's file. In a determined effort to lend assistance to Moore, Bryant drafted a lengthy and detailed advertisement that he proposed submitting to a number of military newspapers for future publication.

Titled UFO SECRECY/CONGRESS-WATCH, the ad specifically addressed the eye-opening fact that the Bureau's file on Moore was classified at no less than Secret level, and that at least one other (unnamed) U.S. government agency was also keeping tabs on Moore and his UFO pursuits. In particular those pursuits relating to certain "whistle-blower testimony" which Moore had acquired from a variety of sources within the American military and government. Courageously, Bryant signed off urging those reading the advertisement to contact their local congressman and to press for nothing less than a full-scale inquiry into the issue of UFOs.

Bryant's advertisement was ultimately published (in the November 23, 1988 issue of The Pentagram, a publication of the U.S. Army); yet as spirited as it was, it failed to force the FBI to relinquish its files on Moore. By 1993, the FBI's dossier on Moore (which was classified at Secret level) was running at sixty-one pages, of which Moore had succeeded in gaining access to a mere six.

In 1989, Bryant, mindful of the FBI's surveillance of William Moore, attempted to force the Bureau to release any or all records on Stanton Friedman. On 2 August of that year, Bryant received the following response from Richard L. Huff. "Mr. Friedman is the subject of one Headquarters main file. This file is classified in its entirety and I am affirming the denial of access to it."

Bryant's efforts on Friedman's behalf came after he (Friedman) had filed FOIA requests with both the Bureau and the CIA. The response from the CIA was that it had no responsive files – except for a 'negative' name check from the FBI, who subsequently refused to reveal details of either the size of the file or its security classification.

On August 28, 1989, Bryant filed suit in the District Court for the Eastern District of Columbia. "My complaint," explained Bryant, "seeks full disclosure of the UFO-related content of the FBI dossier on Stan Friedman. Neither Stan not I have been able to convince the U.S. Federal Bureau of Investigation to loosen its grasp on that dossier, which Bureau officials assert bears a security

classification." Fortunately, in Friedman's case, a "small portion" of the FBI's file pertaining to him was eventually released (on November 13, 1989) as a result of Bryant's actions. The remainder of the FBI file on Friedman has never surfaced.

What are we to make of all this? Consider the following. The FBI conducted several investigations of MJ12 (via its Dallas Office; its Headquarters at Washington, DC; and its Foreign Counter-Intelligence division). It had close liaison with the Air Force Office of Special Investigations on an MJ12-related operation that may have also involved the CIA in an attempt to crack a Soviet intelligence operation that may or may not have existed. And the fact that the Bureau holds an extensive Secret file on William Moore (co-author of the first book on the Roswell crash and a key figure in the MJ12 saga) and a file of unknown size and classification on Stanton Friedman is more than notable. It also suggests that more information currently exist in the archives of the FBI on MJ12 than has been declassified thus far. Whether or not the FBI was ever fully satisfied by its investigations into the murky world of MJ12 and with what it was told by the AFOSI is debatable, however. The final word I will leave to one of Howard Blum's FBI sources: "All we're finding out is that the government doesn't know what it knows. There are too many secret levels."

NASA and UFOs

Those with an interest in determining what has been learned by the National Aeronautics and Space Administration (NASA) about UFOs will in most cases be presented with the following press release:

No branch of the United States Government is currently involved with or responsible for investigations into the possibility of advanced alien civilizations on other planets or for investigating Unidentified Flying Objects (UFO's). The US Air Force (USAF) and the National Aeronautics and Space Administration (NASA) have had intermittent, independent investigations of the possibility of alien life on other planets; however, none of these has produced factual evidence that life exists on other planets, nor that UFO's are related to aliens. From 1947 to 1969, the Air Force investigated UFO's; then in 1977, NASA was asked to examine the possibility of resuming UFO investigations. After studying all of the facts available, it was determined that nothing would be gained by further investigation, since there was an absence of tangible evidence.

In October 1992, NASA was directed by Congress to begin a detailed search for artificial radio signals from other civilizations under the NASA Towards Other Planetary Systems (TOPS)/High Resolution Microwave Survey (HRMS) program (also known as the Search for Extraterrestrial Intelligence project). Congress directed NASA to end this project in October 1993, citing pressures on the US Federal budget. The HRMS did not detect any confirmed signal before it was

stopped. However, similar work continued through efforts of private groups and through academic institutions. The Search for Extraterrestrial Intelligence Institute (SETI Institute) in Mountain View, CA, effectively replaced the Government project, borrowing the signal processing system from NASA. The SETI Institute is a nonprofit corporation conducting research in a number of fields including all science and technology aspects of astronomy and planetary sciences, chemical evolution, the origin of life, biological evolution, and cultural evolution.

During several space missions, NASA astronauts have reported phenomena not immediately explainable; however, in every instance NASA determined that the observations could not be termed "abnormal" in the space environment. The 1947 to 1969 USAF investigations studied UFO's under Project Blue Book. The project, headquartered at Wright-Patterson Air Force Base, Ohio, was terminated December 17, 1969. Of the total of 12,618 sightings reported to Project Blue Book, 701 remain "unidentified."

The decision to discontinue UFO investigations was based on an evaluation of a report prepared by the University of Colorado entitled, "Scientific Study of Unidentified Flying Objects;" a review of the University of Colorado's report by the National Academy of Sciences; previous UFO studies; and Air Force experience investigating UFO reports during the 1940's, '50's and '60's. As a result of experience, investigations, and studies since 1948, the conclusions of Project Blue Book were: (1) no UFO reported, investigated, and evaluated by the Air Force was ever a threat to our national security; (2) there was no evidence

submitted to, or discovered by, the Air Force that sightings categorized as "unidentified" represented technological developments or principles beyond the range of modern scientific knowledge; and (3) there was no evidence indicating that sightings categorized as "unidentified" were extraterrestrial vehicles.

With the termination of Project Blue Book, the USAF regulation establishing and controlling the program for investigating and analyzing UFO's was rescinded. Documentation regarding the former Project Blue Book investigation was permanently transferred to the Modern Military Branch, National Archives and Records Service, in Washington, DC 20408, and is available for public review and analysis.

Since the termination of Project Blue Book, nothing has occurred that would support a resumption of UFO investigations by the U.S. government.

Since neither NASA nor the Air Force is engaged in day-to-day UFO research, neither one reviews UFO-related articles intended for publication, evaluates UFO-type spacecraft drawings, or accepts accounts of UFO sightings or applications for employment in the field of aerial phenomena investigation.

It should be noted that there are very few indications of deep involvement in the Majestic projects on the part of NASA personnel; therefore, that NASA should take a stance very much like that of Project Blue Book is not surprising

Originally published in France in 1999, the Cometa Report (titled *UFOs and Defense: What Should We Prepare For?*) made a valuable contribution to the subject of UFOs. The following is extracted from an opening statement contained in the report from French Air Force General Denis Letty and gives valuable background data on Cometa and its findings. “The accumulation of well-documented sightings made by credible witnesses forces us to consider from now on all of the hypotheses regarding the origin of unidentified flying objects, or UFOs, and the extraterrestrial hypothesis, in particular.” The document continues:

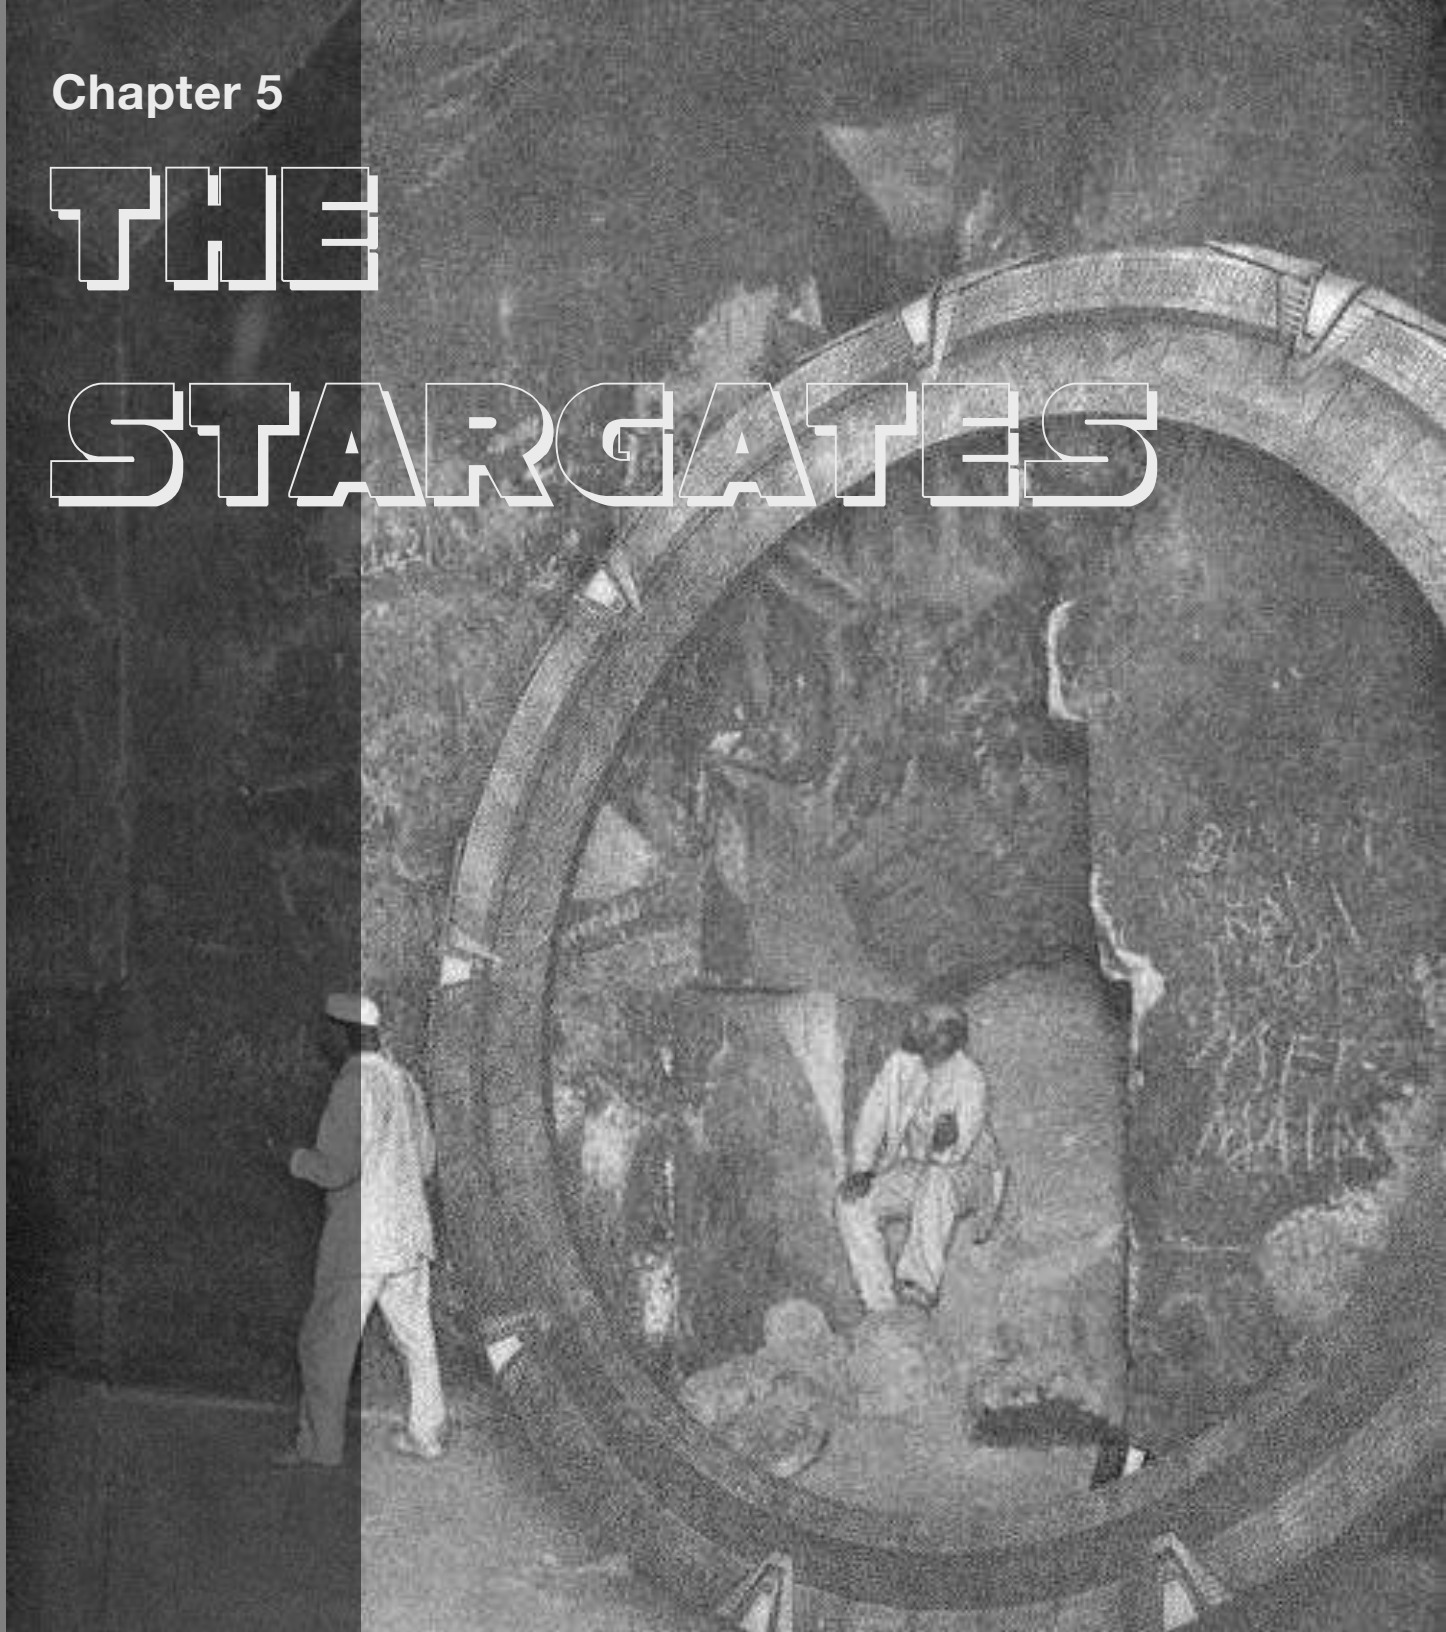
Although no characterized threat has been perceived to date in France, it seemed necessary to the former auditors of the Institut des Hautes Etudes de Defense Nationale (IHEDN) to take stock of the subject. Along with qualified experts from extremely varied backgrounds, they are grouped together to form a private in-depth fact-finding committee, which was christened COMETA. This committee was transformed into a COMETA association, which I chair.

COMETA members included: Air Force General Bruno Le Moine, weapons engineer General Pierre Bescond and Chief of Police Denis Blancher. Those who contributed to the study included: Edmond Campagnac, former Technical Director of Air France; Squadron Commander Michel Perrier; and Air Force General Joseph Domage. Among the subjects covered within the report are: the testimony of French pilots who had seen UFOs; close encounters in France; aeronautical cases from around the world; radar-based UFO incidents; and political, religious and scientific implications relating to the UFO mystery. The July

1947 events at Roswell, New Mexico are also covered in an appendix titled “The Roswell Affair – Disinformation.” This section makes a valuable contribution to the way in which the U.S. government’s program of disinformation has been utilized to successfully diffuse interest in, and confuse the truth surrounding, the Roswell UFO crash. http://MajesticDocuments.com

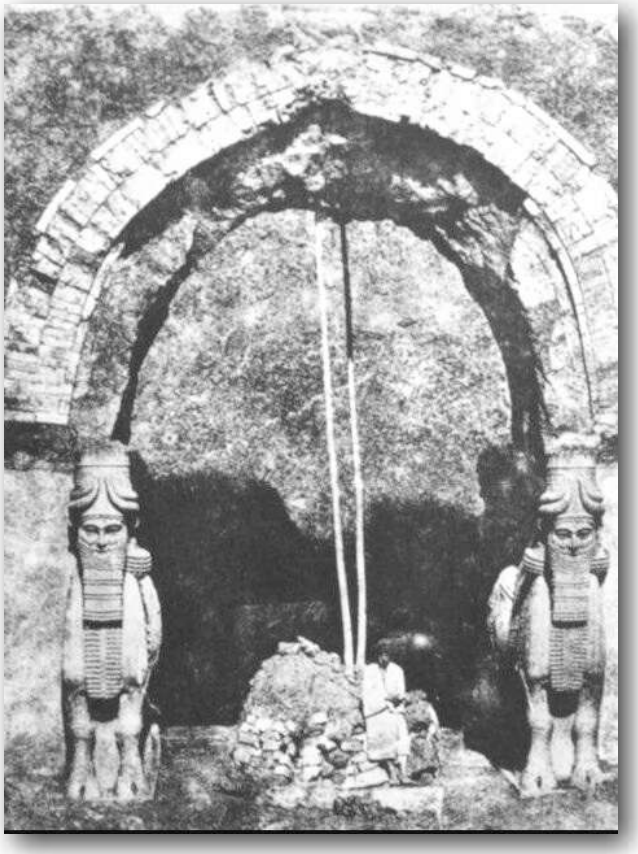
Chapter 5

THE STARGATES



The StarGates

AN ARTIFICIAL STARGATE MEANS ONE THAT WAS BUILT AND IS NOT LOCATED ON A MOUNTAINTOP, IN A LAKE OR IN THE SEA ~THIS SUMERIAN STARGATE IS IN IRAQ



“In a recent two hour interview conducted by Project Camelot, (Dr) Dan Burisch speaks about stargate technology, both natural and artificial, and how this has been used by both extraterrestrials and various government entities to travel or send information through time (see: http://projectcamelot.org/dan_burisch.html). A 'natural stargate' is similar to an Einstein-Rosen bridge or 'wormhole' which has been theorized to form when space-time is distorted by the intense gravitational fields generated by collapsing stars. Collapsing stars compress to the extent that they form a point of singularity wherein time slows down in relation to outside observers. Singularity points have been hypothesized to exist at the center of black holes, and it is possible that they exist in other locations wherein space-time is significantly distorted by an intense gravitational field. At a singularity point, time would effectively stop as it dilates to infinity as predicted by Einstein's General Theory of Relativity. This would make it possible for anyone able to survive even briefly, the intense gravitational fields accompanying a singularity point, to emerge into whatever future date they desired. Physicists also consider it theoretically possible for an Einstein-Rosen bridge to form wherein one could travel backwards in time. So a singularity point, at least in theory, offers a means to travel forward or backward in time.” http://www.exopolitics.org/Exo-Comment-56.htm

Do We Really Want Full Galactic Disclosure?

Full Galactic Disclosure goes far beyond the Eisenhower meeting on a UFO at Holloman AFB in 1954. It goes far beyond the Black Ops Secret Space Program funded by our criminal judges, banks and corporations who bought out congress. It even goes beyond understanding the Space Elevators to Mars and the Moon and NSA Re-engineered Craft and Space Travel. Full Galactic Disclosure means understanding that the positive benevolent Extraterrestrials are already a part of day-to-day life on Earth.

Secret Space Programs is Constantly Monitoring Changes in Earths StarGates and the Underwater ET Civilizations from Low Earth Orbit ISS

For example, Why do we have so many satellites and low earth orbit craft? The Secret Space Program is constantly monitoring the activity at the StarGates and the activity in and out of the Lake and Sea Civilizations in the Andes Mountains and the South Pacific near the Mariana Islands. Google Earth shows us pictures that are three months or older. Google Earth works hand in hand with the military to hide portions of Earth from the public by pixelating areas they do not want us to see. NASA vigorously filters its images by removing the background data in photos and making all surface images colorless, the Moon is grey, Saturn is grey, Mercury is grey on a fade to black background.

Welcome to SpaceShip Earth, Revealed

Because imaging is altered to hide the Extraterrestrial Presence on Earth from us, let's review what we know about StarGates on Earth, Inner Earth Portals, and Underwater ET Bases. Not only are their Bases on the Moon and Mars, we also have Bases on Earth. Long ago we stopping hearing the calls of nature, we stopped listening to the calls from the Cosmos. In order to explain what I mean I need to take you on a tour of your Home Planet. We in the west dig in under the tv with our social relationships on our laptop. We do not get out much. Let's take a closer look at Spaceship Earth.

What is a StarGate?

A StarGate is a Doorway of sorts. StarGates are a place where energies, seen or unseen, are broken down and analyzed in their purest and most basic form, consisting of pure energy or light which resonates and exists as a vibratory frequency or pattern. Each Planet, Solar System and Galaxy, as an example, all hold their own resonant energies. A StarGate ensures that this resonance or projected energy can only harmonize with energies that vibrate or resonate at a similar harmonious vibratory frequency which determine and create our physical results. I liken StarGates to the locks at the Panama Canal. By checking the level of each incoming Ship and correcting for resonate water levels, or energies as it were, it makes it possible for the vessel to pass through from One atmosphere to

the next. StarGates require any vessel or body to be resonate with the energies where it is going, or it literally shall not pass. This is Universal Law.

StarGates ~ A Bend in The Space - Time Continuum

StarGates hold another important function. They are a short cut, a bend in the space-time continuum. StarGates have specific destinations. Passing through an Earth StarGate will take you to one specific destination, Aldebaran, Alpha Centauri, Sirius-- in an instant. It was believed that who controlled the StarGates controlled Interplanetary Space Travel. That is a misnomer, because just like Mother Earth, StarGates have a resonant sentience of their own. There are slightly over 50 StarGates on Earth and I touch on around 16 of these. Some of Earth's StarGates are: Lake Titicaca StarGate, Gulf of Aden StarGate, Detroit StarGate, Baghdad Palace StarGate, Iraq StarGate at Khorsabad, Ziggurat Ur StarGate, Ziggurat at Aqar Quf StarGate, Sudan StarGate, Mt Shasta Lake Clarence King StarGate, Mt Rainier StarGate, Mt Kailash StarGate, Lake Mansarvour StarGate, Mt Hermon StarGate, Lake Ram StarGate, Mt Fugi StarGate, Mt Everest StarGate, Mt Klyuchevskaya StarGate, Dome of the Rock StarGate in Jerusalem and The Kabba StarGate in Mecca. To behold and breath in the pictures of these locations while sensing their majesty we return to truly understanding the beauty of Mother Earth. In my newest book, due out January 5, 2012, StarGate Earth, I offer photos of all of these StarGates with the Google Earth coordinates so anyone can duplicate the research and behold the beauty for themselves. This is Earthling 101 but we have allowed ourselves to become

so programmed in the matrix we have forgotten the calls of Nature and the interconnectedness of all things throughout the Cosmos. Entanglement Physics studies our connection within the Cosmos.

What is an Inner Earth Portal?

The easiest way to describe how an Earth Portal works is by sharing an eyewitness accounting. Five months before the Roswell Crash which was caused by our militaries' doppler radar targeting the Extraterrestrial craft, causing their navigation systems to go out, Admiral Richard Byrd flew right into an Inner Earth Portal. Howard Hughes had attempted the same in 1938. Admiral Byrds' four planes were each outfitted as photographic laboratories. Each plane had 250 pounds of film for cameras previously used in wartime and radar on each Navy plane to read below the ice formations of the Antarctic. They observed transantarctic mountain ranges with peaks higher than 20,000 feet. The photographers on the planes took overlapping exposures every three seconds for the entire flight to map the entire flight. The photograph mapping was carefully synced with the radar to record mineral deposit locations from shore to shore. England, Norway, South Africa, Australia, New Zealand, South American countries and Russia all made claims to the vast Earth resources at Antarctica. The United States made no claim to Antarctic territory. Three of the planes

returned to base once they have used their fuel, but Admiral Byrd's plane was missing. The airplanes' gyroscope was swinging and the instruments were spinning. Admiral Byrd noticed the light was different here and he could not see the Sun. They were now seeing forest, a river and a meadow. Everything was photographed. 300 square miles with no ice and no snow. They photographed a chain of warm water lakes. They found a lake five miles long and landed to measure water temperatures and take samples. In this place it was seventy-four degrees air temperature and thirty-eight degrees water temperature. Admiral Byrd reports seeing silver disc aircraft that had swastika like markings. These benevolent craft had communicated with Adolf Hitler and he took the symbol from them with a much different intension. He felt he could control the StarGates and Earth resources. He wanted to control the resources of several Planets. It turns out they found maps from Germany mapping Middle Earth from 1939, a year after Hughes expedition across the Inner Earth portal. Hitler knew about the Inner Earth portals from Howard Hughes flight.

Admiral Byrd describes in his logbook receiving a message over their radio saying: "Welcome to Our Territory". Seven minutes later they were pulled in by a tractor beam and landed very smoothly on the ground. He described several men approaching their airplane on foot. He then describes boarding a flat platform which flew at great speed to a City made from material resembling crystal. The Master who greeted him said he was in Arianna, the Inner World of Earth. Admiral Byrd's accounting of the conversation with the Master focused on a warning that there were now people of the Surface Earth race who were more

interested in power and had reach the point of no return where they were willing to destroy the entire world than relinquish their perceived power. He told Admiral Byrd he had tried to warn them because when we exploded atomic weapons over Nagasaki and Hiroshima he sent his craft out to investigate and they had been followed with threats of being shot down. He said he could see a time in the future when Surface Earth saw the absurdity of rivalry and war they would again come out to help us with our science and culture. Admiral Byrd went to Washington a few days later and reported to the Pentagon and President and NSA about the message he was told to return. He was questioned for over 6 hours and it was recorded. As a Naval Admiral the Pentagon staff ordered him to remain silent about this message and the meeting at Inner Earth. He relates feeling this is “Unbelievable!” Later in 1956 Admiral Byrd says he kept the meeting secret against his values and his against his will. He said the years following were not easy. He felt his days were numbered and he then says, “as any Truth, sooner or later prevail.”

Full Galactic Disclosure means we face the facts that our Government, indeed the governments of many countries have lied to the Earth Citizens about so many things for a very long time, too long. Full Galactic Disclosure means our Collective Consciousness has agreed to act as mature spiritual Beings and accept the truth so we may move on. In the words of Admiral Byrd: “I seen the truth and it strengthened my spirit and set me free!” Admiral Byrd’s log and pictures can be seen here: http://youtu.be/jVhEtoa8ens

UnderSea and UnderLake Extraterrestrial Work Base Civilizations

There are Extraterrestrials living under the Sea in the South Pacific in a vast Civilization of building structures with air-to-sea StarCraft. These are benevolent members of the Galactic Federation. Their work is monitoring Earth and assisting with energy grids, environmental concerns and Cosmic Integration of races. They work assisting us with things like chemtrails, oil spills, nuclear waste, dumping, air quality, many operations without our notice. They also work with large planetary projects with the giant crystalline caverns deep in the Earth, the Earth Grid and much science we do not yet understand. They are linked with the amino acid computers on the MotherShips and the great Ships of Soltec monitoring Earth. We have been receiving technological environmental assistance a very long time. This Undersea Base can be seen on Google Earth at Mariana Trench near Japan. There are other such bases in the Andes Mountains Lakes and these too can be seen on Google Earth. In my book StarGate Earth I share screen shots and long-latitude markers so all the research can be easily duplicated.

Full Galactic Disclosure Recognizes the Quarter of a Million Planets Discovered and Named Since 1800 and How NASA Has Landed On and Explored Many Of These Planets.

The following is NASA's description of one such mission:

“Dawn [Craft] will delve into the origins of our solar system through intense study of Ceres and Vesta, two minor planets that reside in the vast asteroid belt between Mars and Jupiter. The mission marks the first time a spacecraft will orbit two planetary bodies on a single voyage. Ceres and Vesta evolved under radically different circumstances in different parts of the solar system more than 4.6 billion years ago. Water may have kept Ceres cool as it evolved. There may still be frost or vapor on its surface and, possibly, water-bearing minerals. Vesta's origins were hot and violent. Its interior is melted; its surface dry. As a result of these diverse evolutionary paths, Ceres remains in its primordial state, while Vesta evolved and changed over millions of years. By observing both protoplanets with the same set of instruments, Dawn will provide new insight into the formation and evolution of our solar system."

The Dawn mission was launched on September 27, 2007. It will study Vesta beginning in July 2011, and Ceres beginning in February 2015. The Dawn Mission is part of NASA's Discovery Program, an initiative for lower-cost, highly focused, rapid-development scientific spacecraft. The Dawn mission is led by Christopher T. Russell of UCLA. The project is managed by NASA's Jet Propulsion Laboratory, Pasadena, California. Orbital Sciences Corp., Dulles, Virginia, will develop the spacecraft.”

We are lead to believe there are 9 to 12 Planets in our Solar System. NASA filters all photos coming back from Space so we cannot see what is really there. All photos of Planets have no stars of space showing. They are all edited to have

a solid black background. They do this to hide the trillions of StarShips of the Galactic Federation in our Solar System. We are planetary Citizens in a Galaxy teaming with human and other-race life forms on hundreds of thousands of named Planets. The full list of Planets, with the name of the person who discovered the Planet, their Country and Observatory location with an explanation of the name have been recorded since 1800. This does not include such ancient records which had been kept by the Hindu culture going back [the Hindu scientists claim 100s of] thousands of years. An alphabetical list (with the number) of the 250,000 + Planets can be seen here: http://www.minorplanetcenter.net/iau/lists/MPNames.html Also, you may read the 998 page book, 5th Edition prepared on behalf of Commission 20 Under the Auspices of the International Astronomical Union, Dr. Lutz D. Schmadel Astronomisches Rechen-Institut Mönchhofstrasse 12–14 69120 Heidelberg, Germany. “Dedicated to my colleagues, dear friends and everlasting supporters of this project Ingrid van Houten-Groeneveld, Senior Staff Astronomer, Leiden Observatory, The Netherlands and Brian G. Marsden, Director, IAU Minor Planet Center, Cambridge, MA, USA” Imagine us not knowing there are hundreds of thousands of named Planets which they fail to mention? Imagine programming us to think there are 9-12 discovered Planets?

In the following pages note the Google Earth coordinates and dive in the water or fly over mountaintops to see the StarGates for yourself. It is best to view these locations in Google Earth Pro. To join there is a fee, but anyone can try Google

Earth for free for a trial period. By taking screen shots on your computer you can capture similar images at home.

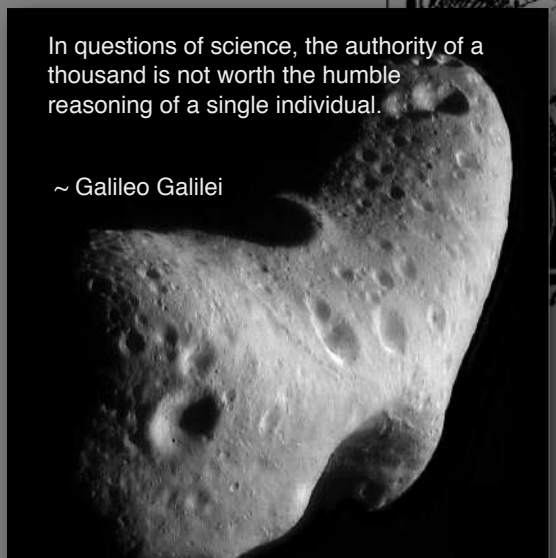
THE OTHER 250,000 OR SO PLANETS NASA NEVER MENTIONS



In questions of science, the authority of a thousand is not worth the humble reasoning of a single individual.
~ Galileo Galilei

There are over 256,000 Discovered Planets since 1800

INTERNATIONAL ASTRONOMICAL UNION

"According to a long-standing astronomical tradition, the naming of minor planets in the solar system is the privilege of the discoverers. Contrary to most other kinds of celestial objects which receive complex alpha- numerical designations, the names of minor planets often say more about the discoverers than about the object in question."~Richard M. West, President IAU Commission 20

http://minorplanetcenter.net/iau/mpc.html

"Minor Planet Designations

The choice of an appropriate name for a celestial body presents difficulties as the total number of objects in- creases rapidly and considerably. Eventually one is forced to introduce a numbering system. Very large numbers of objects, however, require the simultaneous use of numbers and names in order to avoid mistakes. In particular, minor-planet nomenclature requires such a procedure.

Until the middle of the nineteenth century, nomenclature problems did not exist. Ceres, Pallas, Juno, and Vesta were mentioned in scientific literature without associated numbers.

They were handled the same way as the major planets known at the time. Problems only arose in about 1850 with the dramatic increase of minor-planet discoveries. It became customary to assign a special symbol to the name and number of a minor planet, following the custom of the traditional symbols associated with the major planets. This procedure, however, soon failed.

On the one hand, it was difficult to print these symbols; on the other hand, it soon became impossible to remember all the different symbols assigned. It seems that Luther (1855) was the last astronomer who assigned a special symbol to a minor planet, namely to (37) Fides."~Dictionary of Minor Planet Names, Lutz D. Schmadel,

Prepared on Behalf of Commission 20 Under the Auspices of the International Astronomical Union, Fifth Revised and Enlarged Edition

This partial list of Planets just gives you an idea-the full list would fill over 200 pages of this book. Please see the whole list here: http://www.garuda.co/dictionary-of-minor-planet-names/

All of the over 256,000 OTHER named Planets have been included here for the simple reason that the list is impressive.

NASA does mention on their website the minor Planets, however, it does not go out of its way to mention all the hundreds of thousands of other Planets. We are programed to believe there are 8 or 9 Planets.

The typical google search for number of Planets looks like this: “There are 8 major planets in our solar system.There were 9 planets which including Pluto too. International Astronomical Union decided that Pluto is no longer a planet , it is a dwarf planet.There are 5 dwarf planets.

Planets from 2006 to present (8) : Mercury Venus Earth Mars Jupiter Saturn Uranus Neptune

Dwarf planets from 2006 to present (5) : Ceres Pluto Makemake Haumea Eris

Planets from 1930 to 2006 (9) : Mercury Venus Earth Mars Jupiter Saturn Uranus Neptune Pluto

Planets from late 19th century to 1930 (8): Mercury Venus Earth Mars Jupiter Saturn Uranus Neptune

Planets in early 19th century (11) : Mercury Venus Earth Mars Vesta Juno Ceres Pallas Jupiter Saturn Uranus Planets and Dwarf Planets in the Solar System.”

That is pure nonsense and an outright lie. WAKE UP! There Is Life Out There.

Chapter 6

THE ASHTAR COMMAND

In this photo of sunrise notice what looks like a second red Sun to the upper left in the picture. This is the Planet Niburu seen in Earths inner Orbit.

The Ashtar Command

A SITING OF A FEDERATION SHIP OVER CHINA. THEY ARE WAITING FOR SELF-DISCLOSURE BEFORE LANDING. IF WE CANNOT TALK HONESTLY WITH OUR GOVERNMENTSABOUT EXTRATERRESTRIALS THEN WHY LAND IN SUCH A CIVILIZATION?

PLEASE SIGN THE WHITE HOUSE PETITIONS.

From my Book~ *Lord Ashtar and the Galactic Federation, 2011:* "In 1957 The Publishers put out a book of telepathic transmissions between Ashtar and Lady Ethel P. Hill who had received the information through a process called automatic writing. This is where where the communicant, Ashtar, controls the sensitive's hand to write messages. You may be more familiar with seeing one transmit messages through their voice.

In the Foreword it is pointed out:

"Now, some say that any kind of spirit communication is evil. Some claim that, according to the Bible, it is wicked to call back the dead but the Bible itself is full of communications with spirits of departed ones. Even Jesus spoke to Elijah and Moses on the Mount of Transfiguration."

It was on Mt. Hermon where Jesus was transfigured, which just means he was in his Etheric 5th Dimensional Body, which is also called a ‘Glowie Body’ due to the sparkling, glowing quality. Mt. Hermon is part of The Golan Heights and this is the area that Israel added under the new borders established in 1967 after the 6 Days War. The other area added was the West Bank and there was a change of 8/10ths of a mile in Jerusalem to make the Dome of the Rock part of Israel. Both Mt. Hermon and the Dome of the Rock are StarGates. The whole point of the 6 Days War was to possess the StarGates, which can have no possessor. It says in the Bible Jesus took his closest inner circle with him to the top of Mt. Hermon; Peter, James and John. It then says they fell asleep, so they did not see what happened next. When they woke, Jesus was transfigured and his face shone like the son. Jesus’ spiritual parents are Helios and Vesta and they are our Solar Logos. When they were sleeping, a StarShip, or flying saucer, had come and when they awoke the three men saw standing there, talking to Jesus, Elijah and Moses.

In Matthew 17:1-9 we see that it was not the first time StarShips had revealed themselves to his Disciples.

Matt 17:1-9 1:

“And after six days Jesus taketh Peter, James, and John his brother, and bringeth them up into an high mountain apart, 2 And was transfigured before them: and his face did shine as the sun, and his raiment was white as the light. 3 And, behold, there appeared unto them Moses and Elias talking with him. 4

“Then answered Peter, and said unto Jesus, Lord, it is good for us to be here: if thou wilt, let us make here three tabernacles; one for thee, and one for Moses, and one for Elias. While he yet spake, behold, a bright cloud overshadowed them: and behold a voice out of the cloud, which said, This is my beloved Son, in whom I am well pleased; hear ye him. And when the disciples

heard it, they fell on their face, and were sore afraid. And Jesus came and touched them, and said, Arise, and be not afraid. And when they had lifted up their eyes, they saw no man, save Jesus only. And as they came down from the mountain, Jesus charged them, saying, Tell the vision to no man, until the Son of man be risen again from the dead.” (KJV)

This bright cloud which overshadowed them was a cloaked CloudCraft. This CloudCraft came to them through the StarGate on top of Mt. Hermon. Now today stands a United Nations facility on top of Mt Hermon. This way the Pope who has infiltrated and controls the United Nations can attempt to control what happens there. No man can control anything about a StarGate. This is a misguided desire of the dark Ones, the fallen Angels. The subsequent war between Israel and Palestine are a by- product of this struggle for control of the StarGates and it effects the worldwide banks, stock markets and corporations in every nation.

In John 3:13 Jesus clearly explains to us that we are all Starseeds on Earth and we all are from other Stars and came to Earth in StarShips or flying saucers, many times over through the ages of time.

John 3:13:

"And no man hath ascended up to heaven, but he that came down from heaven, even the Son of man which is in heaven." The Starseeds come and go from Earth to other Stars in StarShips. Elijah and Moses both were noted in the Bible to be Spacemen or Space Beings also known as Extraterrestrials or Starseeds.

Moses went up to the top of Mt Sinai to enter into a CloudCraft through that StarGate. Jesus likewise went to Mt Herman 6 days after his death. Six days Jesus and Moses both participated in purification exercises before transforming into their Etheric or Glowie Bodies to enter the Etheric StarShips.

Moses stayed in the CloudCraft for 40 days and Jesus stayed on Earth 40 days before returning to his post as Admiral of the MotherShip called the New Jerusalem. The Bible says that "Elijah went up by a whirlwind into heaven" (2 Kings 2:11) All of these men were Galactics and Members of the Crew of the New Jerusalem. Ashtar is the Captain and Jesus, also known as Sananda, and incarnate on Earth now as KOS, is the Admiral. Then there is an accounting that when the Lord came to beam Moses up onto the New Jerusalem, there was “Under his feet was something like a pavement made of sapphire, clear as the sky itself.” (Exd 24:10) This is describing the blue tractor beams which are the same today and portrayed as they are on tv and in the movies. This is practiced by many Starseeds who travel back and forth on the Ships as part of their Mission on Earth.

Transfiguration is also a spell taught to 6th years and above at the Hogwarts School of Witchcraft and Wizardry of the famed Harry Potter Books. It simply means leaving the physical and entering the etheric body. It is in this form that One enters their Merkivah Body and this is a StarShip of its own. This is how I have made all those Out-Of-Body Trips to other Stars. I transfigured from my physical body, leaving it behind in my chair and left the StarGate at the Crown of my head into my Merkivah or Etheric Body and travelled in my personal StarShip. The Harry Potter series describes it as: “One may think of Human Transfiguration as the replication of Metamorphmagi”and”no wand is required” that term is broken down it can be seen as the magical morphing from the physical to the metatronic form or merkivah Body or StarShip.

For all of these to work One must be in an ecstatic state. It is best to learn how to bring a feeling of instant ecstasy through the heart ready at a moments notice. This is why many chose to use drugs to experience these things. Whether obtaining this state through meditation, trance or natural hallucinogenic, this is called the Transcendental State. This is the State of Consciousness where you experience your 5th Dimensional Body. That is why you hear the phrase, we are on the 5th Dimension now. Some people go there at will everyday. This is the reason meditation is the first stepping stone and nothing can replace it. It allows the Being to enter a State of Consciousness conducive to Star Travel. You may teach yourself to enter a state of ecstasy at will. Practice different ways of getting there and see what works for you. It can be as simple as imagining one you love saying “I love you.” It is deeply personal and meditation and instant ecstasy are

prerequisite essential first practices. In the Harry Potter series their Merkivah StarCraft are described as “brooms.” When Harry conjurs his patronus charm he is required to ‘think one of his happiest thoughts ever.’ These are the lessons taught Jedi Aspirants on the New Jerusalem.

The Publishers also note in the Foreword:

“One more thing, however, should not be neglected at this point: There are many who come to us or write to us, asking us how they may perhaps make a mental contact with beings from Outer Space. Many have on their own started to experiment with the Ouija board. We do not advise this. People who are not properly trained and have no knowledge of spirit communication or the vagaries of the subconscious mind, can get into serious trouble playing around with things they do not understand. If any space being or other high intelligence sees that you are ready to become a channel of communication, they will of their own initiative open the way. On your part for the present, it is sufficient that you have high aspirations, a desire to be of service in this great cause and leave the rest to them. According to the latest communication from ASHTAR, this is his expressed wish. He says, in part, "we, ourselves, will choose the time, place and person we desire to contact. However, it will be of immense assistance if you will maintain a feeling of friendly interest and confidence in us and, in your mind, hold a thought of welcome. Our forces find such an atmosphere well adapted to their work, "as they need these 'lighted landing fields,' where they may pause for a moment or two and adapt themselves to conditions and vibrations they encounter in fulfilling

their various assignments." The path of spiritual unfoldment is a serious one and is beset with many difficulties. First and foremost, discipline is necessary to control the body and mind, without which nothing can be accomplished. The control of thought and feeling before going to sleep is especially important. We cannot go into detail in this short space, but the desire to be of service, and the longing to become a "lighted landing field" is a safe guide in itself. All else will follow. For "when the pupil is ready the Master will appear."

Even Ashtar says in order to be telepathic with him and those he works with, happy thoughts are a prerequisite for contact with these extraterrestrials. He also notes the importance of discipline on the spiritual path of enlightenment. Ashtar is an Elohi, one of the Angels who Never Fell and the Ones he works with are also Angels. Angels are Galactics and Galactics are Angels. You yourself are a Galactic Angel having a human experience. It is no mistake you are a Starseed on Earth now.

Ashtar says “when the pupil is ready the Master will appear.” Early in 2008 I had a rapid awakening. I had walked-in in late 2003 and had been in training with Archangel Michael, Archangel Metatron and Archangel Chamuel. These three are also Crew on the New Jerusalem with Sananda Jesus. I was training in advanced protection skills, traveling out of body and light healing as well as learning all about the Earth Grids and travelling through the StarGates. In 2008 I was meditating several hours a day as part of my training and I was invited to read manuscripts about Lord Ashtar, Lord Arcturus and Dr. Lorphan. I read about

6-8 hours everyday except on the weekend I read more. It took me 3 months to get through a roomful of books. When I wasn't reading I was telepathically talking to Ashtar and Arcturus. At work I would focus on something and then if I left for a break or lunch, I would spend every waking minute being telepathic with these Star Beings.

It takes this level of devotion to make contact. It was at this time Archangel Metatron and Archangel Chamuel took me to meet all of the Masters. I met the Ancient of Days out of body and remembered our beginnings on Venus. I met Hilarian and Djwahl Kuhl. Djwahl stood in front of me in his Glowie body and opened my heart, expanded it, so I was capable of more. In 2006 I had been visited by Sananda and Raphael in their Glowie Bodies. I had called them in to an emergency healing for a family member. Michael and Metatron both have come in their Light Bodies. On this day in 2008 Ashtar and Arcturus both came to me in their Glowie Bodies. Ashtar said he and Arcturus would like me to come into training to learn new healing techniques and other things. I said yes. After that I was taken up into the Ships and taught all of the advanced healing techniques. I have performed some amazing healings since then.

The Publishers make this point about the Captain and the Admiral of Jerusalem:

"There are many who feel that ASHTAR and his legions are the forerunners of the Second Coming of Christ—no matter how this is understood. Some expect to

see him in the flesh, others believe that the Spirit of Christ will eventually rule the earth, and the spiritually "unfit" will be eliminated. At any rate, many people feel that our so- called culture is nearing its end and that something is about to happen. A change must come both in world affairs and in religion whose doctrines were fashioned not by Jesus but by medieval priests in order to keep the ignorant in spiritual bondage to the Church."

All of the above are true in this statement. In order for the New Jerusalem to decloak and to have landings form the Ships we must be on an Earth that is free of war. In this way the Spirit of Christ will rule on Earth. We will all have returned to our Christ Consciousness, to a 5th Dimensional Earth. Earth will be ruled with love. In order for this to happen all the fallen Angels must leave earth and this will happen by accountability in the highest courts in our Universe, on the Solar Tribunal on Saturn. Remember Sananda Jesus spiritual parents are Helios and Vesta the Solar Logos. He with his Twin Flame Lady Master Nada have as their Mission the rounding up of and trial of the Intergalactic War Criminals. Only through accountability will Earth know an end to war and qualify for Ashtar to return.

We see the signs of this in our news. The Sirian Commander from Sirius A, President Barack Obama is working closely with Ashtar and Sananda on this aspect of the Plan. He is the Galactic Human representative on Earth working with World Government to bring a swift end to the careers of the War Criminals. We see more and more arrests and indictments in the news in all aspects of

government, banking corporations where the Fallen Angels had been working to control Earth Resources and all of us living here. Earth is a trinary Star System with Sirius A and Sirius B and Sirius A holds the Intergalactic Universities of the Great White Brotherhood. Sirius is a center for training and many travel there within our Galaxy and from outside our Galaxy for Higher Education.

In the Introduction in 1957 is introducing himself to the readers and says:

“I speak for all of us who have embarked upon this somewhat thankless task of rendering assistance to beleaguered dwellers on the planet Shan.” Shan is the Higher name for Earth. People today more than 50 years later continue to whine and moan asking ‘WHEN are they going to come’? This can be a thankless task because many are too lazy to pursue their enlightenment and apply the discipline needed to do so.

Ashtar goes on to say:

“It would be quite a relief if we could make a simultaneous landing on all portions of your globe (which I might remark is entirely feasible at this very moment!) and, employing etheric forces in the use of which we are experts, put an end to the jangle of incongruous and irreconcilable factions now precluding all possibility of a united effort toward peace. Our instructions and our principles prevent our taking such a course.”

This is absolutely prime and Ashtar told us this back in 1957. It is the instructions and the principles of Our Galactic Family to not interfere with our spiritual development by rushing in to save us. As Universal Law, life simply does not work like that. Everything in the Cosmos is constantly evolving, including our Planet and our Souls. Earth cannot Ascend faster than her inhabitants are ready. Mahatma Ghandi evidenced this truth when he said: “You must be the change you want to see in the world.” We must clean up the mess we created. This means we must be peace within ourselves to have peace in our outer world.

There is no way out of the need to change ourselves through the pursuit of knowledge, wisdom, truth and love. We do this by being responsible for the journey to our enlightenment. By doing this we cultivate our Souls and prepare our world for decloakings and landings on Earth. In order to end the Faction One and Faction Two war over greed and control for global war we must join together in love. The reason Ashtar will not come without a concerted effort on our part for changing ourselves and our world is he cannot interfere with our free will choice to make mistakes. When we learn to discipline the ego we change our feelings. When we stop reacting to our outer world and act in love and peace, we change the outcomes. When we change our feelings and actions we bring ourselves to a destination where mass simultaneous landings are possible. Without doing the inner work, we would arrive at our destination of landings as the same old self who is not mature enough to handle the changes. So here we make the inner change to be begun by ourselves.

Ashtar discusses back in 1957:

“One thing I would make crystal clear! We Space Men, in whatever capacity we may temporarily serve, are irrevocably pledged by the most solemn of oaths to abide by those Universal Laws which alone can preserve life on every level of conscious existence. To accept or condone any variance from these fixed and unchangeable codes governing all honorable behavior, would be to forfeit privileges we have earned through eons of unremitting effort. We will have no part in any form of "synthetic peace!" It must be genuine, unalloyed, incapable of dissimulation.”

This level of World Peace with no chance of Nuclear Holocaust can only be obtained by changing the laws of every land, establishing honest banks and gold backed currency as opposed to fiat currency. It means arresting, trying and making accountable every last criminal. It means dropping borders and taking care of the homeless and starving. It means ending all wars and releasing the unfairly imprisoned. We must work together to make these changes becasue before we were approved to incarnate we swore an irrevocable oath to uphold our Mission on Earth to put these changes into place so that Ashtar and Sananda could make the changes necessary from heaven for the Galactic family Reunions on Earth.

Ashtar adds:

“Before discontinuing I feel impelled to add one word of counsel. Make your own life conform as nearly as possible with the matchless teachings of One who humbled Himself to contact mortals in a physical manifestation. Any likeness to Him will enable us to recognize your legitimate claim to our special attention and assistance.

As future friends and co-workers in the service of your coming King of Kings, we salute you and proffer our utmost devotion in your liberation from all who seek to ensnare you and bind you to their fearsome juggernaut of destructive domination.

WE COME AS YOUR DEFENDERS AND DELIVERERS! WE COME AT THE URGENT REQUEST OF YOUR HEAVENLY FATHER TO RELEASE YOU FROM INSUFFERABLE BONDAGE. MY LOVE AND MY BLESSINGS!”

Ashtar here is inviting us to act as Christed Beings and to integrate every action and thought to be like a christ or one who has attained God Consciousness. Again, we are invited by the Galactics to Evolve our light and love by pursuing a Christed Course of Enlightenment. This is not the end of Enlightenment. As we progress further on The Path we realize the Highest Consciousness, the Atman.

As he has signed his transmission he states:

“Commander of ten million Space Men, now occupying bases established within range of your planet.”
We now know that 50 years later there are 20 million on Ships waiting for

decloakings and landings with 5,000 Members of the Crew on The New Jerusalem.

Ashtar starts out immediately in Chapter 1 saying he and his Extraterrestrial associates are existing in their Etheric Form on the 5th Dimension and it is their intention to return to Earth to stay and live with us side by side. We can only surmise we must be in the 5th Dimension prior to landings and cohabitation on Earth. He goes on to explain that living in Etheric Bodies allows them to move about on many different States of Existence makes them very well equipped to help us in more ways than we can imagine. We see this today with the WingMaker Ships which sit over the poles and mitigate all forms of natural disasters on Earth including pole shifts, earthquakes, tsunamis, oil spills in the ocean, and nuclear accidents. Ships are so massive they have been visualized on Google Earth for all to see.

Goes on to answer the $10 Million Dollar Question immediately: ‘When Will The Galactic Federation Decloak and Land On Earth’? In his words:

“As hath been said, the precise moment of Divine Intervention doth depend absolutely upon Man's reaction to tests imposed, not by thy Heavenly Father or His obedient emissaries, but by the dupes of the Enemy.”

These tests imposed as dupes by the enemy speak of the attempt to set up a one world government with the design that it should fail while running away with all the resources on the Planet as well as mass psychological trauma such as

911, the holocaust, mass rape as a weapon of war and so many others including massive oil spills and sending no aid to victims when needed. As we react from hatred or act to solve problems these challenges are our tests as we evolve as a mass consciousness toward decloakings and landings.

The Galactic Federation cannot come as long as we remain in a reactive lower vibration.
If we remain our old selves
the new technology would be misused we would return to the old ways of war. Ashtar says One must choose between the Christ forces and the renegades. The renegades are the Time Traveling Extraterrestrials who came back from the Future and are here now to plot against the inhabitants of Earth and control the slave race of men and women by 'dastardly plots.' I say slave because we are controlled by our governments, our so-called religions and the banks working together to keep a noose around our necks and specifically keeping us in a lifestyle which makes spiritual growth nearly out of reach. Ashtar explains that waiting a few more months to give every Soul living on the Planet a fair chance at their rightful place on the New Earth. Each Soul has their right to free choice to work on their issues and join New Earth or remain behind in duality.

Ashtar says it is up to our Father in Heaven and not a human decision to be made, for only the father can see the inmost secrets and hidden motives inside man's heart. He specifically says we will wait for the War Criminals to Self-expose their plots and reveal they are not the benefactors of the human race.

The “King of Swords” [KOS] who is the full physical template incarnate now on Earth of Lord Sananda Jesus works with millions of men everyday as double agents to expose these renegades to us so we may all have free will choice to react or act in love to heal the Planet together.

Ashtar mentions these millions we are in service with:

“THIS THY COUNTRY SHALL BE SAVED AS BY A MIRACLE! I say not it will be a peaceful deliverance but through the unfaltering loyalty of millions who place their faith in thy Master, the Christ of God, this land will be cleansed from the abominations now infesting it. It shall be the center from which shall issue those injunctions and powerful energies which shall lead the world into an intense, burning desire to know and to do the Will of the Lord God of All Creation, as revealed by their coming King, who shall reign over this regenerated world without hindrance from those who now harass and seek to destroy His faithful servants.”

In this passage he is explaining the fact that millions of walk-ins came from other Stars and from Spacemen Crews to help KOS with the enormous task of arresting all the renegades. I am one of these walk-ins. What occurs is One Soul leaves and another Soul takes over the physical to accomplish specific goals. For me this happened following a traumatic head injury which left me unconscious for three days at home. During that time the Soul exchange occurred. These renegades will be put through Earth courts first and if guilty, through the Universe High Court at the Solar Tribunal on Saturn where Intergalactic Cases are heard.

Those Intergalactic War Criminals working here on Earth to control her resources are also charged with crimes on other Planets. If the crime is found to be extreme enough, then the appropriate accountability will have to be served. In some cases this will mean second death. Second Death is when a Soul is made uncreated. This is when the entire Akashic Record of every lifetime is wiped out from all Timelines in All Places in All Dimensions. This is as if they never were. All the crimes will be as if they never happened. This is the miracle Ashtar speaks of. There is one person and one alone who determines in the end after the trials what the sentencing is and that is Mother Sekhmet of the Egyptian Golden Age. It is her role in the Spiritual Hierarchy to approve sentencing.

I have been working solitary and in the past together with others close to Commander Ashtar and Mother Sekhmet and with the Earth allies, or white knights, through “King of Swords” and the “King of Egypt.” We’ve been working together to get NESARA announced and to inform people about the Galactic Federation and to anchor that energy here. Often our lives have been in danger to carry out this task. We work without pay endless hours seven days a week to bring the plan to completion. We do this as obedient emissaries who have worked through the aeons of time to return Planet Earth to lasting permanent Peace. We ourselves are time travelers from the Angelic forces returned here to end duality and return Earth to 5th Dimensional Liquid Light and Love.

Ashtar goes on to explain what it will take to have Admiral Sananda’s FlagShip The New Jerusalem decloak and the Galactic Federation Ships land on Earth.

He says two significant things. Mortals must prove their mettle and they must improve themselves through seeking Enlightenment. This is also known as being on The Path. It is taught in every religion and has no religion. It is about obtaining Christ Consciousness, living a life modeled after the Christ. This can be exampled by the lives of Moses, Buddha, Mohammad, Krishna and Jesus to name a few. All of the above are Members of the Galactic Federation and incarnated on Earth to live lives of Service to the Office of the Christ the Spiritual Hierarchy of our Solar System working to oppose the dark forces to end duality on Earth in a permanent and lasting Peace. It is about obtaining the Highest State of Consciousness known as the Atma.

On the morning of 911 united States President George W. Bush made a statement from his bunker in Nebraska. Dick Cheney was in the Bunker at the White House masterminding the entire operation. On that morning George said “Freedom itself was attacked this morning by a faceless coward and Freedom will be defended.” That is all he said. That was almost ten years ago and the multiple wars he started since then still rage over Earth. He first bombed Afghanistan October 7, 2001 and he knew that morning more war was to follow. The faceless coward, he neglected to say was the secret government within the united States Government that are these Intergalactic War Criminals wearing human suits and working to control and manipulate the mortals of Earth. We prove our mettle by facing up to this fact and loving our enemies as the King of Kings has taught us to do.

Ashtar here teaches us:

“Assent gained through fear or force melts to nothingness when assailed by cold logic or intense loyalty to higher concepts!”

How can we display cold logic and intense loyalty to higher concepts? These two things together will set us free from the dark Ones having power over us or manipulating us through fear and force. One example of cold logic is looking to see that the World Trade Center buildings fell at demolition speeds and several eye witnesses hearing bombs explode. We also must acknowledge in this case that main stream media pulled the eye witness accounts and not allow us to see what they filmed on the scene that morning. That is cold logic and absolute. What does it mean to have an intense loyalty to higher concepts? We do this by continuing on the Path. We do this by remembering who we are. A wise man said:

“How are you to maintain a positive attitude during these difficult times? First of all, it is very important to remember that you are not miserable. You are Sat- Chit-Ananda;

Sat is Truth, the destroyer of illusion and falsehood Chit is pure consciousness
Ananda is pure bliss and happiness
You are whole and complete, but you have forgotten who you are. Remember that Truth and try to bring awareness of your true identity; that will ensure that not

everything is lost and miserable. You are actually powerful and very inspired individuals."

As we focus on cold logic and we gain knowledge of the truth it helps us. We also must keep a happy attitude and not allow the news of the day to disrupt our State of Consciousness of pure bliss and happiness as we remember we are powerful Members of the Ground Crew and we swore a duty to return Earth to Love.

Ashtar then goes into an explanation of the Astral Planes of Earth and how everything we do on Earth has an effect on the Other Planes of Consciousness even if they are unknown or unseen to us. I can say I have had extensive training with Archangel Michael in the Astral Realms. This is no place for anyone to venture out to. I can also say in the last couple of years this place has essentially been dissolved by the Galactic Federation. In essence it no longer exists. To explain further would require going into physics that we do not yet understand on this Planet. Back when Ashtar wrote this part, 50 years ago the Astral Planes wreaked havoc on 3D Earth. Anything to do with demons, possessions, the obscene rite, murder or any perversion of man was rooted in some way back to the Astral Plane. If you are old enough to remember those days you know what I mean. The white knights of the Galactic Federation have gone in to places like the Tunnels at Area 51 and cleaned out all of the negative extraterrestrials. There are no more abductions, there are no more mutilations. These are the kinds of things that were happening and directed from the Astral Plane by the demonic forces, the dark forces. This was duality Earth 50 years ago. It has since

changed and the last negative ETs left Planet Earth for good in November 2009. Many of the healings I have done with Lord Arcturus have shown me that folks who have dabbled in participating in black magic even without understanding what they were doing have linked into the Astral Plane and now these Ones have cancers and chronic fatal diseases. It is a reflection of that they corded into in the past. Many of these folks considered themselves Light Workers trying to do good works and they were not trained or understanding the consequences of their actions. They were lured into these other realms by not applying cold logic.

Ashtar says that over time the battles waged on the Astral Plane:

“it now be possible to transfer this battle to the physical plane and repeat the process where mortals may more effectively join in the conflict and observe greater tangible results. As it doth rage on the physical plane, there be three types of weapons to be employed. First: the actual material armaments necessary for defense purposes. Second: the mental agility to recognize and combat delusive propaganda. Third: the spiritual awareness and moral stamina to move steadily forward, in defiance of all enemy resistance, to establish and maintain a rigorous regime of honest government in every phase of human affairs.

Ye may say the present deplorable condition of earthly affairs hath always existed and always will. I SAY NAY!”

So it seems we had to then carry through the healing from the inside out. We cleared these things on the Astral and drove them to the surface Physical and there we have global war today.

Ashtar suggests there are three types of weapon end such war. First, the armaments for defensive purposes. The Galactic Humans working with KOS actually carry Phaser Weapons and Galactic technology which they are adept at using. They also have access to ShuttleCraft and other things to help with their work. The second weapon he suggests we employ the mental agility to recognize propaganda. If we recognize false fear provocations, also called False Flags for psychological warfare, then we cannot be duped by these bombastic war lords. This is where the internet comes in. I have a website that is dedicated to nothing but discussing current affairs and how to discern cold logical truth from propaganda designed to deceive. Our third effective weapon is mental alertness and stamina.

This is what it will take to dissolve the deFacto Government of the United States, the Rockefeller Faction and the Nazi Zionist Government of Europe the Rothschild Faction. These two are tied to the Vatican and its Two Banks the Vatican Bank and the Bank of Madrid in Spain. As you look at the web of Governments, Banks and Corporations all are linked to these in some way. We will need to dissolve Faction one and Faction two to establish an honest government for all human affairs. This has been established and is waiting for the right time to Announce.

It is solely President Obama's responsibility to Enact and Announce NESARA Law. He is working for and with the galactic Federation. He and Michelle Obama are Starseeds from Sirius A. President Obama is the ninth Member of the Sirian Counsel of Nine. All of these requirements had to be done by man inside the matrix, form Earth. This is the only way Universal Law allows these issues to be resolved. There are Millions working together to resolve this both on and off Planet.

Ashtar further explains:

"Not without physical discomfort and suffering may the victory be won. Mortals must prove their mettle. Ye may look upon this time of tribulation as a bitter and unwarranted trespass on thy right to lead a life of honor and dignity. Even so! Yet it doth afford thee a glorious opportunity to show thyselves worthy to participate in the responsibilities as well as the privileges of the "Golden Age." Privileges forever denied those now responsible for retarding its inauguration."

For the past 50 years Elder Indigos incarnate on Earth who endured the Nuclear Bomb attacks have held the light to reverse the edicts of false flags. This has never been easy. It has been a time of endless war. Many white knights have been killed for whistle blowing. These tireless warriors have dealt with struggle upon struggle often with the ridicule and thankless cohabitation with loved ones who do not believe in 'Life Out There'. Many Indigo Elders spend their Golden Years wondering if they will see the Plan come to Earth before their life comes to an end. Some have already passed thinking these thoughts on their deathbed.

Still today as we lose our houses to the mortgage crisis and we cannot find a job and our children grow up in poverty we wonder the same thought, how much must we endure? We watch each new war be declared and oil spills in the Gulf, nuclear meltdowns and many sit as does motionless blinded in the light.

An example of this was when a petition was passed around, supposedly signed by thousands of seemingly intelligent people to say we must enact a no fly zone over Misrata, Libya to save civilians there from being hurt by Gaddafi's dark forces. People did not use cold logic to see that this was a declaration of war. New declaration of war brought on by the secret government inside the United States Government in cooperation with the European and Saudi Arabian Factions and their dark forces within their Governments. Ninety days after the no fly zone was declared Misrata was leveled to the ground the entire city bombed out. Forever those names stand on that petition whether ignorant or not. There is accountability in all we do. I urge Elder Indigos to hold on and never stop learning and pursuing your Enlightenment. Instead of passing on forwarded emails of kittens settle down with a book that will take you to the next level of your unfoldment. There is no time to waste and your lives are so precious.

Ashtar adds that no matter what battlefield we fight on, whether it is healing the sick, raising good kids, manufacturing goods or running an honest business, we will know with our continued devotion...

"they have rendered a priceless service to their Master and his conquering legions from outer space, now able to traverse the hitherto impenetrable density

of earth's auric envelope and bring succor and strength to the Christ Forces in mortal flesh."

By this he speaks of the Angels in the Heavens which is synonymous with the Galactics on the Ships who bring succor and strength to the Ground Crew through their suffering until we are victorious in Love.

He finishes by explaining that KOS here now as Sananda Jesus in flesh has taught "men the Way of Life!" and as we create the New Earth by bringing fairness in government and calling an end to the illegal practices in the banks and taking care of those who cannot take care of themselves we change things.

He says this will come from "the rapidly maturing decisions of the Enlightened Ones now dwelling in fleshly bodies." Only those who have endlessly pursued Higher Teaching will be equipped to make mature choices to come up from the lower vibrations. We must constantly return to the task of gaining more knowledge, more truth and more love.

In Chapter 3 Ashtar begins by explaining their presence and purpose. He makes sure to remind us that although they are here now to combat the vast dark forces as we make the necessary changes for landings that there is an intention of a much more joyous Mission. Ashtar said: "when we will mingle freely with you and gladly initiate you into many delights and privileges we possess." Ashtar's Twin Flame is now incarnate on Earth. She works in private and she knows who she is. There are many claiming to be her on the internet and none that do so are.

Ashtar has conveyed to me how much he looks forward to a time when he can return to Earth to be with his family and live life here. Likewise his Crew have their families here. These are our Galactic Families and there are 20 million I know of surrounding Earth now. Delights and privileges? There are so many new technologies that will delight us, healing machines, replicators which can produce anything we need with no store necessary, shuttle craft, I hope I can have two. Computers which prepare any food we desire served to perfection with no grocery store or washing dishes necessary. Drudgery will disappear. No need to go to our old jobs because we will not need the things we are working for now. Slavery will end. The privileges of training for the Mission you desire the most, especially in the holodeck programs. The list of delights and privileges is endless, including intergalactic travel to home, at will without a need for a travel agent.

Ashtar speaks of the Earth Changes designed by Mother Gaia to heal the destruction that had harmed her, especially the effects of nuclear holocaust. About this he says:

“We realize certain portions of earthly terrain are marked for destruction. In pursuance of this program, we withhold interference when so instructed by the Hierarchy in uninterrupted touch with the Father of us all. When certain prearranged signals are received, we send thousands of ventlas to places where dangerous conditions exist.”

Here Ashtar speaks of the fact that Mother Earth, also called Gaia made a Clarion Call to our Father in Heaven that all destruction inside her and on her

surface be stopped. As soon as the nuclear weapons at Japan were unleashed it allowed the Galactic Federation to intervene in higher ways than before to protect the Planet from the deadly forces who would destroy here. This was allowed for the highest good of all involved. Back during this time the negative ETs were rampant in the Inner Earth tunnels and it took many long years to dissolve and remove that interference with life on Earth. In those tunnels mad scientists worked on genetic cloning and super viruses like AIDS and so many dark things which are now eradicated. The parts of Earth which had been marked for destruction were decided by Gaia alone as it is her body to do with as she sees fit. It is due to her we have life. We owe her our very breath. As Earth ascends it is her destiny to raise the sunken Civilizations of Atlantis and Lemuria. This is happening with the cooperation of all the Cosmos. The major crystals which are inside caves deep in the Earth are being activated along with changes in the electromagnetic force field around Earth known as the Earth Grid. There is terra forma happening in our oceans along with several small Earthquakes a day. There are volcanic eruptions and the clearing and cleansing of Mother Earth is well underway. As these shifts of energy and tectonic plates takes place, the New Earth is formed. It was destined to be since long ago. There are some who tell stories of nuclear bombs planted in the sea bed and these stories are false flags. Earth must go through these Earthquakes which bring the cleansing tsunamis. It is not always easy to endure. Ashtar says here that he sends his people out to help mitigate the Earth changes and cause as little harm to humans as possible. He calls them ventlas. We know the WingMakers Ships are designed to help natural occurrences be as gentle a change as possible. There are other types of

Ships out there helping in a myriad of ways. There are also warriors who go out every night to the war situations the Unseen Forces who come into physical bodies as we sleep and help those who are injured or need shelter or other things. In every instance only the help which is allowed is given. The Ones we know as the Archangels come into physical form now on Earth all the time to help and they are much perturbed by what is happening. They are helping and we do not see it. They cannot give any help that would impede our spiritual growth and we must initiate the solution ourselves before receiving more help. Those of you worried often by money can meditate on that idea as a clue to mastering the energy of money.

From Ashtar:

“Our appearance in physical form or the materializing of the ships we use occur only on instructions from our Headquarters far above your bases in your stratosphere. They follow a predetermined schedule, not as your clocks and calendars but in conformity with carefully computed sequences of events depending largely on mortal reactions to each step in the program. Many factors enter into the decisions made, such as planetary influences of a magnetic type, astral conditions, the activity of forces concealed within the earth body, constantly changing vibratory rates in different sections of the globe owing to the people's awakening to their perils and desperate attempts to extricate themselves. This latter consideration is perhaps the most potent point in releasing our forces in

their behalf. They must themselves instigate the attempt to gain their freedom before we can go to their rescue."

As time has gone by since this was shared in 1957 there have been more Starseeds awake and calling on the assistance of Ashtar and the Galactic Federation. Because of this more visitations have been granted. He also reminds us that everything he and his Crew are doing follow a specific sequentially flow of events. Nothing can happen out of turn. For all is a season. This is governed by the Cosmos itself. He also reiterates that we must work out the solutions on our own. We must be the change we want to see in the world. Ghandi was a Galactic here to show us the way to The Path. As we begin to make changes then and only then can we receive more assistance from the Galactics. President Obama has shared this with us from time to time. He said we must allow those in the Middle East establish their own democracies by themselves for themselves. Now as they wage their way on the Path to honest Government they are receiving Intergalactic help.

Ashtar is very explicit about what we affectionately call Alien Technology. That is not a good term since most on the Crews have incarnated at Earth before. They are not Aliens, they are our family. He says they will not share the secrets of propulsion from their crafts because we refuse to explore our Enlightenment. Without the God Principle, the technology could be used to build weapons and this will no longer be allowed.

He says it this way:

“it will be impossible for you to ferret out our secret of propulsion, since you have rejected opportunities afforded you to become acquainted with laws governing these higher forms of energy. Such knowledge has been prostituted for illicit purposes of destruction, in the past. Not until your world has dispensed with all need for destructive weapons and all desire to misuse the finer forces of this God- governed Universe, will you be permitted to experiment with ever-existent etheric energies holding magic possibilities for those qualified to employ them as intended by the Creator to whom they owe their existence.”

These higher forms of energy are Etheric energies and we only learn about them through daily meditation and many of us still refuse to meditate every single day. This lack of self discipline is really holding us back as a mass consciousness. Even Dr Oz says to meditate. So as we begin to explore the higher energies then we will be invited for SpaceShip rides.

In Chapter 4 Ashtar has a very serious tone. He speaks of requests from individuals for direct help from him. He says they are selfish requests and he will not fulfill anything unless it pertains to the plan at hand.

To begin:

“NOW—What we ask you to do is to lend credence to our "reality" and our entirely impersonal desire to be of service! The sooner these two facts are accepted by people generally, the more quickly and easily shall we be able to achieve our goal and the fewer lives will be lost in the process. We are

admonished to save every soul who will gladly adapt to the glorious transformation scheduled for the NEW AGE! Some may be removed from your planet to help for a time from planes invisible, as many thousands are now doing. I am referring to great many arrivals on the

astral planes and a great many others, dating back to your beloved Washington, the immortal Lincoln and other men of their caliber.
We are submitting our plans to the HIGHEST COURT OF HEAVEN for approval and we look forward with confidence to your whole- hearted cooperation!"

Ashtar is saying he is working from the Etheric Realm and that he is working for every Soul on Earth, not just a certain one or a few. He is also saying that there are an exchange of Souls of high caliber who are being tagged to lie down their bodies in the transformation of death so they may join him on the Etheric Planes to assist with the Plan from the Ships. He mentions George Washington and Abraham Lincoln and thousands others of their caliber. This is very comforting to know the lengths of which were taken back then and I assure you those efforts have not stopped since then.

He also says that he has mapped out a very detailed plan and this plan is being reviewed by the highest court of heaven which is the Solar Tribunal on Saturn.

This adamant tone he is taking about helping the inhabitants of Earth, not just a group or a government have to be taken in the context of the time. Back in 1957 there was already a Secret Base on the moon built by the Intergalactic War

Criminals who had their own Ships and were using the Earth portals to move about in Space. This was a joint negative ET, united States and then Russian Mission. In 1947 there was a Mars landing and this Space Party from Earth went inside Mars to Inner Mars as a Group. These dark Ones had become obsessed with building their own Space Craft with greater and greater capabilities. This was also when it was determined by the MJ12 Group initiated by President Eisenhower that Earth would come to its own destruction if things persisted as they were. These are the challenges mortals have to face, to react with power and control or to act to make a better world. Their plan was to exploit the alien technology in order for a select few to leave the Earth and establish colonies in outer space. This was when the fight over the StarGates began. They wanted control of the StarGates by any means so they could colonize other Planets. they felt that was their only chance as Earth was headed for destruction.

Ashtar was not going to stand by and watch the destruction of beloved Planet Earth, so under the express Command of Admiral Sananda Jesus he went to the Solar Tribunal for approval for his Plans to bring us to the New Earth that we are sitting on the cusp of today. At that time George Herbert Walker Bush had been recruited form Zapata Oil to smuggle cocaine and heroine in from the oil drilling rigs. This money was to fund the secret government which had been working with the Greys and allowing them to abduct humans to harvest their DNA for reproduction of a Grey-Human Hybrid. The illegal drug money funneled through the CIA and their black Ops was used to build elaborate labs underground, especially in Nevada. These labs are on fire today in a mass 1/2 million acres fire

spread across the west at this time. It is these abominations which has Ashtar so upset at the time of this transmission. We were not ready to hear all the details of the truth then. He got the transmission out so the Ones trying to exploit the Galactic Federation then would receive the message they would not receive any help from Ashtar. He has done everything under the laws of this Universe to close down such operations.

Here Ashtar says:

“Our interest lies in two directions: Providing the facilities (unknown to your inhabitants) to prevent a wanton waste of life through the reckless employment of inconceivably powerful forces for destructive purposes . . . forces intended for constructive and creative purposes only! And, with our better comprehension of the principles involved both in producing and directing such intensive energies, to transmit (at the appointed time) to those proven trustworthy, the knowledge of a practical nature which we possess in regard to these forces. At present, anything we might add to the sum total of earthly achievement along scientific lines, would naturally be directed to warlike operations. We must first assist in the abolition of existing agencies bent on world domination BY FORCE! A planet populated by fear- driven slaves in the power of a mere handful of tyrannical (May I inquire what is the polite synonym for "bullies") rulers, would not even interest us!

Having held numerous consultations with the honorable gentlemen responsible for the founding of this country, our indignation has been aroused by the manner in which their noble visions of Freedom, Industry and Progress have lost the

luster of their original inspiration and deteriorated into a dingy counterfeit of the original heroic model held before the eyes of the people."

Nuclear power can be used safely under certain conditions to harness energy. It is not being used safely on Earth as it should be. This is a constructive use of power. There are deeper understandings of nuclear power in producing and directing the power that have been shared from Ashtar to humans which were misconstrued and used by the dark Ones with bad intentions to build weapons. The practical use of nuclear power for energy was not used correctly by humans and caused much harm to Earth. At this time the Dark Ones would do anything to obtain new scientific information to help them control the StarGates to colonize other Planets in our Solar System. They remained at war in the areas of the StarGates. He said that any agency looking to control Earth by force had to be completely abolished before Ships could land and bring any new technology here. This plan started at this time and put into play the best minds of all time to figure out the best solution. Because many of the Crews of the Galactic Federation had at some point incarnated on Earth, they were essentially beholden to help Earth karmically. Ashtar expressed he had no intention of seeing the People of Earth relegated to a slave race working for a handful of bullies. Truly that is what we have come to be now. As we wake up and put the changes in place, KOS and Ashtar and their Crew help us in every conceivable way. They do this with the greatest love.

The last time there was a Nuclear Holocaust on Earth we lost the precious Civilizations of Lemuria and Atlantis. The plan is to raise these lands again; Kumari Kandam off India, Yonaguni StarGate off Japan, Bimini off Florida, just to name a few.

Ashtar notes in Chapter 5 that he knows who among us are Members of The Ground Crew. He says I will contact you when you have earned it through wise preparation.

“NOTE . . . At the present time there need be no special effort made to communicate with us except at our special request. We ourselves will choose the time, place and person we desire to contact. However, it will be of immense assistance if you will maintain a feeling of friendly interest and confidence in us and, in your mind, hold a thought of welcome. Our forces find such an atmosphere well adapted to their work, as they need these "Lighted Landing Fields" where they may pause for a moment or two and adapt themselves to the conditions and vibrations they must encounter in fulfilling their various assignments.

We know each one who is in sympathy with our mission and we would like you to know what a help it is to have these luminous avenues through which to reach the darker areas where much of our work must be carried on. We are deeply grateful for your understanding and your welcome!”

Ashtar says it is not a mistake that Lord Sananda Jesus is the Admiral Commander of the FlagShip The New Jerusalem. He says that when Jesus walked on the Earth he offered to all the chance to be let free from bondage of the physical for good. This means he had offered to the world.

Ascension into the 5th Dimension. Ashtar explains that when that Mission failed he and others gave up on Earth and figured it was doomed to destruction. He emphatically states that Sananda Jesus NEVER gave up on Earth and he is the reason the Galactic Federation is here today and his promise will be kept for Earth. This is why the only way to have landings is a sequential flow of events which will restore all balance to all people on Earth.

Ashtar is distraught when explaining to us that the reason Earth is in such a demise is because of the ghastly reversal of all Creative Universal Laws on Earth. As we learn Universal Laws and adhere to them, the more we do this, the more material wealth we will have. He explains this is a natural progression in Creative Universal Law. Remember Jesus would say, “Do unto Others as You Wish They Do Unto You” and

“Give to Caesar what is Caesar's, and give to God what is God's.” He was teaching us to adhere closely to Universal Law so we may know inner peace. Moses taught us the same. Elijah spent his Earth incarnation working against the dark forces on Earth.

Ashtar promises he will stay with us and help us until time for Announcements, Decloakings and Landings and he asks us to have Faith until that moment comes to pass.

“We come now in full confidence that this promise is to be kept. We have been summoned to assist in the fulfilling of this promise. Knowing from long experience the manifold joys and satisfactions which will be yours when you are released from all those who hold you captive to their evil wills, we come with an excess of

enthusiasm to lend our support to this crusade. Yet we hold ourselves subject at all times to the All-wise supervision of our Supreme Commander.
May we all band together in a divinely blessed fellowship and lend our utmost effort to serve well and faithfully until the GLORIOUS VICTORY IS WON and the planet Shan is at last a Shining Orb in the firmament of the heavens.”

When these things come to pass then Earth will become the 33rd Member of the Intergalactic Confederation of Worlds, a shining orb, an Ascended Planet worthy of this Station.

In all of this mess Earth has gotten into now with global war and mass starvation, pollution and nuclear weapons, it is necessary we have more than human wisdom and strength, we need help from our unseen friends from the Ethers. Ashtar explains that this will be made possible in a myriad of ways. One is that the StarShips will come with their technology, heretofor unimagined by man to

assist us. Another way is that nothing will be held back to any Galactic Human incarnate willing to come here and fulfill the Mission of waking up the other inhabitants of the Earth. Nothing will be spared in assistance. In fact he guarantees we will receive Divine Help in carrying out our roles.

Ashtar continues in Chapter 6 by explaining the Earth changes that will be happening in order that future Earth inhabitants will have the best possible environment. He has said Atlantis and Lemuria will be restored to their pristine beauty.

He said:

“[we will] re-construct it [Earth] to conform with a program designed to give a regenerated human race the proper environment wherein to utilize newly apprehended forces requiring new conditions for their manifestation.”

Here he is saying Earth will ascend from the 3rd Dimension right into the 5th Dimension. It is the 5th Dimension which is a prerequisite for Etheric Space Travel. This is the basic minimum needed to enter Zero Point, to reignite the electromagnetic forcefield wherein no aggression can occur. Nothing that is less than love can exist in that energy. The Ziggurats, Pyramids, Portals and StarGates will work in harmony and we all will be capable of visiting other Stars and using the StarGates at will. We will return to our pristine magnificent purity. He further says we can expect Earth changes to accomplish this. It makes

sense? The only thing we can count on is change. How can we remain the same in the New Earth?

Ashtar says:

“Ere the concluding contortions of terrestrial readjustments occur, ye may expect entirely unrelated, sporadic exhibitions by Nature, releasing long repressed accumulations of force sufficient to disrupt a mountain, flood a desert, sink a country or raise a continent. Not in a haphazard or irrational manner will these startling transpositions take place. They will follow a detailed plan of procedure whereby those areas best suited to the development of New Age projects will be spared or changed to render them fit for greater service to future inhabitants.”

In order to release long accumulated bad energies from the Astral Realm Wars and the Inner Earth Tunnels occupied by negative ETs creating cloning and diseases in inner labs, nuclear tests in the thousands, oil spills and constant unending global war, Mother Earth can be expected to release this negative energy and it will occur as floods, earthquakes, indeed raised continents. God our Creator is doing this as nature commands. Earlier in Chapter 4 Ashtar said “My message concerns a number of erroneous claims being made by those who crave personal publicity.” He said we expect to see these falsifications. I see this in public figures who spread the false flag of fear by saying there were nuclear bombs buried in the sea and detonated off the coast of Japan causing the 3/11/11 Earthquake and resultant tsunami. That just simply is not true. We cannot surf the web without cold logic. This is not being done by nature in a haphazard

way. There is a significant portion of Lemuria in that area called Yonaguni which is being raised to fulfill the Promise of New Earth. If we do not have the discernment to see these changes as coming from nature then we may miss the boat completely by the fact that we will fall for any story and continue on a slave Planet until the end of time. All of this to fill egos need for publicity while keeping people away from truth and sitting in the dark? They will be held accountable for their actions.

Next Ashtar speaks of the end of time for duality:

“None may compute the wondrous patience and forbearance wherewith thy Heavenly Father hath borne with the frailties of human beings! None may even faintly surmise His disappointment at their refusal to accept His overtures of Forgiveness and Mercy! All which cometh to pass of a destructive nature be the result of men's free choice of the Pathway of Retrogression, which leadeth to oblivion as far as their residence on this planet be concerned. THESE RETROGRESSIVES CANNOT EXIST IN THE NEW WORLD NOW BEING CREATED!”

Earth has been created and destroyed 5 times before. We are on our 6th Creation. After the last Nuclear Holocaust which blew off the surface of Mars, blew the Planet Maldek to smithereens and sunk Atlantis we were given one final chance to return to love and end duality. At that time we were all destroyed and thankfully Archangel Metatron reconstituted our DNA with only one prerequisite. One must promise to turn to love. Now in order to be able to enter New Earth,

each Soul must forgive themselves for any miscreations from before. Anyone not able to do that will be given a myriad of choices for alternate locations but will not be invited to stay on New Earth. Some who are guilty of War Crimes will indeed be uncreated and that is devastating. As Ashtar exclaims with zeal, no one who has retrogressed to bullying people through fear or force will be able to exist on 5th Dimensional Earth and this is due to the Force Field which will surround Earth which only supports love.

We have been reading of drought, famine and Franken foods.

Of this and regarding Earth changes Ashtar speaks:

“Be not fearful lest the earth be denuded of its fields of golden grain, its wealth of fruit-laden trees, its vineyards of luscious grapes, its expanses of greenest verdure producing all the vegetables one could

desire. These and countless other bounteous provisions for the temporal needs of all God's little children of the earth shall thrive in the freshly vitalized ground which shall respond to Nature's alchemy.

I HAVE SPOKEN! SO BE IT”

Not only will we have replenished soil and organic seeds which fruit in days we will have beautiful local gardens and local foods. In addition, the technology they

bring will include replicators producing fresh organic food prepared to order and everybody will have one immediately.

We must awaken to the present peril.
It is important we hold a feeling of gratitude when we hear of the corruptions over Earth in the news. We must keep our calm for this is a Divine Principle of enlightened Beings. It is important to take in the daily news with loving detachment as Guan Yin has taught us. We realize that it is important to be grateful that the masses are waking up to the truth and this will be what it takes to set us free. As each of us holds the truth resolved in our hearts it effects every cell on Earth and changes the minds of men.

Lord Ashtar says that the things he has come to destroy are all the things that make you anxious afraid and sorrowful.

He tells us our Father in heaven has sent mighty Forces to do so.

Ashtar says:

“We join you in thanking Him that when this sad and distressful season of cleansing is over, we may confidently anticipate a joyous time of re-building, re-modeling, re- creating all things on this earth in perfect harmony and accord with the design and infinitely wise specifications of the Master Architect of the Universe!

To this glorious and sublime end we pledge our hearts, our minds and every power and skill we possess, till our sacred mission is completed! We thank God our mutual success is assured and we shall see our Beloved Master, the Christ of God crowned King of Kings!"

Ashtar again promises us that nothing is going to stop this Mission of Decloakings and Announcements. He also explains that in time after all the cleansing is complete, there will be a period of re-building, re-modeling and re-creating all things on this Earth in perfect harmony and accord with the Infinite Divine Creator. He promises he and the Galactic Federation pledge their minds, their hearts, their power and skill to completing the Mission. It would only be family we would promise these things to? This was a Thanksgiving Message and briefly added below are his Christmas and New Year Message:

"A Simple Word of Warmest Greeting to All My Friends whom I Reach through this Contact Point: I join with you in honoring One who almost two millenniums ago, as you reckon time, humbled Himself and entered an earthly existence as an ordinary mortal. Needless to comment that I had known Him previous to this incarnation and had held Him in deepest reverence and adoration. How it was possible for any man, woman or child to become acquainted with Him and fail to give Him the warmest devotion of their hearts is a mystery too deep for me to fathom. And so today, it is with joy in my own heart that I behold the ever widening array of those who truly worship Him, whatever their own particular form of religious observance may be. Our Forces on Schare will join you with one

accord as you endeavor to give expression to the honor due Him. May you be granted a new and glorified vision of His majestic grandeur and absolute simplicity of speech and bearing and . . . Oh, that you might know the depth of His compassion for the erring children of the planet Shan!

To you who love Him, I can only say, "Did you but know Him as I do, you would love Him more . . . MUCH MORE!
To all my friends "A Merry and a Holy Christmas!"

My Love! (Signed) A S H T A R."

Naturally he speaks of The Admiral of the FlagShip The New Jerusalem, Lord Sananda Jesus and incarnate now on Earth as head of the Secret Service in the Service of the Office of the Christ, also known now as the King of Swords. This is the same sword Archangel Michael uses, the Sword of Truth, Excalibur.

Often we wonder why our Galactic Family doesn't come back and help us out with these terrible plights on Earth. We think of their advanced lives and the drudgery we face. We wonder why we wait although we have unwavering devotion to our harsh mortal lives.

About that Ashtar says this:

"Wearily have the days dragged by, while plots and counter plots complicated and multiplied man's unsolvable problems. We have watched with a horror

impossible to repress, man's ineffectual attempts to extricate himself from the treacherous quicksands of deceptive "agreements" accepted in apparent good faith, only to be ruthlessly trampled under foot when their evil purpose has been achieved."

There are many situations this describes. Colonization, Land Grabs, Banking Collapses, Book Burnings, Treaties, False Prophets and on and on. One of the horrors for the Space Men is that they cannot help us if we do not help ourselves. When we incarnated we agreed to do anything necessary, endure unending hardships and remain loving throughout no matter how long it took. We are not the Ones who have been waiting for the Space Men to come. It is the Space Men who have been waiting for us to wake up from our sleep, sharpen our senses and make bold moves to change the imbalances on Earth for the sake of ourselves, our Planet and the Cosmos itself.

And this:

"Why do we say the tide has now turned? Because all mankind . . . enslaved or still capable of recovering their lost heritage of freedom . . . begin to see for themselves the enormity of their folly in transgressing laws all-powerful to promote their personal progress and consequent possession of all they most earnestly need and desire!"

The portion of mankind that are still enslaved are the dark Ones. They had altered their own DNA to achieve their goals and the result is they are unable to

love. This is the reason they are able to relish in committing atrocities. They are to be pitied and loved. Indeed, Our Creator forgives all that they have done as they too are Divine Sparks of God. As they used their free will to inhibit their cellular ability to hold light and hold love for greedy ends, they have also forgotten they must forgive their crimes. God has already forgiven. This is what keeps them enslaved, the fact that they forgot to love themselves. At any moment in our time they can reach out to Mother Father God and declare they have forgiven themselves and promise to commit their lives anew to love and they will be given all the assistance available in our world to come into New Earth. All of these Ones are capable of reclaiming their heritage of freedom, but many are crippled to do so due to their own self- imposed prison of hate.

When the dark Ones violated Creative Universal Law by altering their DNA to promote their own agenda finally have been able to see what a grandiose mistake this was. In their discovery and understanding they have become afraid. No one wants to suffer Second Death. Second Death is when a Soul is uncreated. All that makes up the Soul on every level in every existence is returned back to light and it is as if the Soul never existed. This will happen to many Souls who have violated Universal Law to the extent of mass genocide and worse. The only way to receive this sentence is to stand trial on the World Court of the International Criminal Court and if found guilty, to go to the Highest Court in our Solar System, the Solar Tribunal on Saturn. If found guilty in both places then the Councilors make a sentence and then there is only One who makes the final decision regarding carrying out the decision of Second Death and that is

Mother Sekhmet of the Egyptian Golden Age. It is Sekhmet, who is known in other cultures as Durga in India, who has the sole responsibility of the final decision. All that was born into our Universe was born out of Mother Sekhmet. We are all her children, all Children of the Sun. Any one of her children who committed these atrocities will stand before her in the end.

From Ashtar:

“When will Man cease his ridiculous attempts to obstruct the orderly processes of progressive development as set in motion at the commencement of his sojourn on the planet Shan? The answer is absurdly simple! When he acknowledges to himself that his puny brain and unruly impulses constitute no reliable guide to the acquisition of those tangible and intangible assets without which he cannot hope to escape a most terrifying fate!”

When man realizes that listening to the little mind, the ego, will not result in obtaining his dreams, then only then will he stop acting to obstruct progressive development on Earth. The unruly lower vibration, animal impulse takes us through the programming in the Matrix. An example of this was a popular book called “He is Just Not That Into You,” it was made into a movie in the united States. It was about how women who had been programmed to be ‘good little girls” were wondering why the man they met at a bar did not return their calls. When interviewing men some said they rank women by tiers. This is a sad example of how the “American Dream” teaches us to get an education, mate,

have children, buy a house, run up the credit cards, buy toys and die. How absurd.

The tangible and intangible asset we must obtain? Forgiveness and Love.

Ashtar tells us that there is so much pollution in our environment back in 1955 that without the constant intervention of the Galactic Federation we would not have made it.

Ashtar speaks:

“As of the time of this writing (January, 1955) earth's atmospheric envelope be impregnated with many deleterious elements inimical to the health and development of any human body, particularly one delicately attuned to high vibrational frequencies. Such an one must be constantly safe-guarded against these infringing constituents of the very air they must breathe to sustain life. Not alone the air but the seldom recognized subversive thought streams, betimes well nigh flood the mental atmosphere and drown out the more sensitive upward-reaching ten-drills of hope and faith.

To counteract these and other dangerous deterrents to Man's wholesome life both physical and spiritual, certain purifying processes be constantly employed by the Invisible Guardians of the planet, else would ye perish. Ye have observed what ye call an "electric storm" with its pyrotechnical display of lightning, and have noted the ensuing freshening of the atmosphere, making it a pleasure to

draw in deep draughts of purified air. This be but one of countless artifices contrived to lessen the dangers lurking in the ether about thee. Other threats to thy health of body and mind (for they be woven together like the woof and warp of a fabric) be not so easily apprehended."

The dark Ones have employed many practices beyond our imagination to reach our minds without our knowing. I have seen many versions of these practices and they are hard to describe. It is similar to a drip of water in the background, drip, drip, drip, drip...harmless in itself but in a certain context could literally drive one insane. As Ashtar says, it is not so easily apprehended, it is literally woven into the fabric of our 3D existence.

Ashtar says WE MUST ASK for any and all help. He repeatedly says our Galactic Family cannot help us unless we help ourselves first. We must initiate the healing of all things. We must be active constituents of our government.

We must reject oil companies and health insurance companies and corrupt government and banks from forcing us into slavery. He says as we help ourselves and also ask for heavenly assistance then help will come in unexpected and often strange ways.

Ashtar tells us to Guard our Hearts:

"Refuse to accept the ultimatum of Discouragement and defeat urged upon thee by evil forces rampant at this time. Pin thy faith to the redemptive forces sent of

thy Heavenly Father to rescue thee from thy perilous position. As an airplane doth utilize the "fuel" provided to furnish the power it must have, that it may soar far above the sordid environment of a material world, so do thou avail thyself of the means provided for thy flight into the pure atmosphere of Divine replenishment."

Fifty years later this admonishment is even more true. The internet was created by our Higher Selves desire to connect with others with ease from around the world and have an international forum for whistle blowing. It has proven time and again to break up the false flags of fear transmissions and reveal the truths which we did not perceive the first time around, such as 911 Truth. Another example is the wikileaks seventeen minute video showing us how the united States helicopter soldiers are chipped and programmed and killing civilians in war time. By listening to the soldiers voices and watching them kill and then sharing the video, the End ALL Wars movement gained much new insight to those who had not seen with eyes which see before.

Ashtar speaks about holding strong until the Day of Emergence:

"Until the Day of the Great Illumination, there will unavoidably be a struggle to attain and maintain at all times content and perfect attunement with this Divine Source of Life and Love Triumphant! Yet, herein doth lie thy freedom from the fretting exigencies arising from incessant friction twixt the fast receding customs and systems of a decadent and expiring age and that glorious New Age of unexplored marvels along every line of constructive and progressive effort."

We are intrinsically connected to the Cosmos so the movement of the spheres in heaven, astrology, cosmic waves bombarding Earth and the rhythm and flow energy as defined by the Mayan calendar effects everything we do. We have our good days and our bad. We must do everything in our power to have bright happy attitudes, no judgment, compassion and love for all without exception. By doing this we bring in the New Age of enlightenment, existence on the Etheric Realm of the 5th Dimension.

The first Dimension is a point. The second Dimension is a plane of existence. A point on a horizon. The 3rd Dimension is latitude. Consider the x and y axis as in algebra. The 4th Dimension is time and only time. A point in space and time. The 5th Dimension is the Etheric Plane. It is from the 5th Dimension we have the ability to travel on the StarShips between matter and antimatter. This is when we become what I affectionately call a Jetson society. The Jetsons is a popular cartoon in the united States from the 1970s. Everyone had their own Shuttle Craft in the Jetsons and lived in space.

Ashtar explains to us about religions as they play a role with the Galactic Federation:

“We would make it clear at the outset that we are not seeking to "convert" you to any formula of religious concept, other than the simplest precepts laid down by the Divine Master, the Christ of God. Many of these same principles were enunciated by inspired men, saints and seers, sent of God down through the ages. When the people of Shan refused to accept their teachings and put them

into practice, they left your earth and transferred their efforts to more receptive minds and hearts on other planes and planets.

Whether you choose to accept my statement or not, it is a fact that there are no "closed doors" between those who temporarily reside on any plane or planet, unless through sheer stupidity, ignorance or absurd and unfounded fear you yourselves close and lock the door. Quite true, the "open doorway" must always be guarded by strong forces to prevent the entrance of unwelcome visitors. As you know, these guards are provided on request."

We each, no matter which plane or Planet of development we live on, experience growth through enlightenment. There are no shortcuts as we continue constantly in a process of ascension evolution. When we achieve enlightenment then religious instructions become completely unnecessary. These are in place for those not yet initiated into Higher Learning. The only way to achieve enlightenment is to study Sacred Scripture and Daily meditation. These practices are taught in all major religions. Each Prophet taught these through the ages, not only in this Earth Creation, but also in all previous Earth Creations.

We have always been taught to become one with our Highest Self - the Highest Level of Consciousness. This is known as the Atma and referred to as becoming the Christ Self. All of those within the Galactic Federation have achieved their individual Christ Consciousness as evidenced by the fact they exist at the Etheric Level, the 5th Dimension. Indeed no one now on Earth has achieved Christ Consciousness less than 3 times before otherwise you would not be invited to be

incarnate here now during this important era. The Divine Master, the Christ of God, Jesus was a Bodhisattva and studied in many cultures and studied many religions during what we call the Lost Years. This period of his life is not typically in writing because it was perceived by those who wish to control us that there would be a sharing of too much Galactic information and we may remember who we really are.

Ashtar is telling us we have clear open access to the Teachings of the Wise at any time. All we must do is ask and the surest way is through meditation. He says this is always true irregardless of our belief and only through sheer stupidity, ignorance or absurd and unfounded fear do we deny this Universal Truth. The reason the surest way to Contact with the Sages and Seers including all the Galactics and the Angels is through meditation is because their chosen communication is telepathy. You may here them speak to you through your still small voice inside. Do not be afraid to call to them inside prayer and listen for an answer. He says these open doorways of communication are always Guarded to be sure transmission come from only within the Office of the Christ. He advises when we meditate we ask for such Guardianship. A simple and sure way of accomplishing this is by calling Archangel Michael and asking for a Golden Dome of Protection to cover your Being during your meditations. That is all the asking it takes. Take Michael with you on all of your Journeys out of body. He will tell you himself he is pleased and happy to be of Service when asked this way. Always remember to thank him after the end of each journey.

Next Ashtar explains how things are for the Kumaras on other realms as far as teaching and learning are concerned.

“But to return to the more "practical" aspects of progressed living conditions as enjoyed by the citizens of Venus, and similarly enlightened planets: As the entire environment and the atmosphere itself has become saturated with thoughts and emotional vibrations conducive to clear mental concepts and high ideals, you can easily understand that our problems of behavior are practically non-existent or, at least, reduced to a minimum. No one on any level of mortal existence (and we are mortals in a very real sense) enjoys being looked down upon by his fellows. Even a criminal aspires to be a sort of "super-criminal."

Thus it is that having established certain "codes of honor" in our everyday living and finding it a definitely enjoyable way of life, it seldom occurs to the youth of our planet to look for their pleasure in unprofitable pursuits. Actually they are too busy seeking to excel in their own chosen profession or avocation! Frequent "tests" are held . . . you would, perhaps, call them "Fairs" . . . where many exhibits are on display and trophies awarded for unusual skill, originality and dexterity gas demonstrated mechanically, artistically, mentally or along any line of constructive effort to reach a high and ever higher goal of perfection, with suitable recognition of each evidence of progress made, often works wonders with those inclined to lag behind. We keep a personal televised record of the progress of every student enrolled in our schools. Thus, they compete with their

own past achievements, as well as with others in approximately the same category.

With what you term "The younger generation" reared in this manner, you will readily comprehend the way in which they are enabled to apply the principles and utilize the essential etheric properties contained in the super-charged magnetic orbit which surrounds our home planet. An absurd theory exists in the minds of some earth people we have observed that the type of existence we have attained must be slightly insipid and monotonous. Nothing could be farther from the truth! Our lives are fairly teeming with ever-expanding interest and activities! You have a trifling example of my meaning in the constant improvements made in your automobiles and household appliances. Even their method of propulsion is constantly subject to revision. Then, why doubt or wonder that, on a planet where war has long since been abolished and all diabolically

destructive practices are unknown, we have evolved a system of Self-government which fosters individual initiative contributing to an Over-all Plan whereby each community forms a perfectly coordinating unit in an ever progressing planet of magnificent achievement and surpassing beauty. Our knowledge, our skill, our equipment and power to use it, all are at your service as you prove yourselves willing to learn and abide by Cosmic Laws which we obey.

In the Name of our beloved Commander-in-Chief, Jesus Christ, we bless you and give you our love!”

The Seven Holy Kumaras each govern one of our Matter Universes called the Intergalactic Confederation of Seven Universes. Admiral Lincor is head of the Star Fleet over the Seven Holy Kumaras. They each report to him from their Command Stations on their MotherShips. Admiral Sananda Kumara leads the Universe Nebadon. Earth is within that Universe. We are also familiar with Sanat Kumara. Sanat has been known to many cultures throughout the aeons of time on Earth. We call him The Ancient of Days.

It has been said, long before Jesus' Galilean Mission, Earth had already become so polluted by fallen influences that the Planet could no longer be spiritually and physically sustained. This is where the story of Sanat Kumara and 144,000 volunteers from Venus comes in. To save Earth, these high souls chose to follow their guru in exile from Venus a planet of beauty and love.

Sananda Kumara and Ashtar as well as St Germain are the Kumaras of Venus who have come to Earth through the aeons of time to hold the light until the end of duality. Now they return for the Day of Emergence. Some have never left Earth. Ashtar has had one Earth incarnation as Pacal Votan. This is Sananda’s 7th Earth incarnation. Sananda has also been known as Jesus, Zoroaster and Tutankhamen.

What we call Flying Saucers or StarShips are truly Direct Emissaries from more advanced Planets coming at the mandate of the Spiritual Hierarchy Government within this Universe, responsible for Humanity on Earth.

This is the sole purpose of those visiting us from Outer Space. Ashtar will add further details of this Heaven- Appointed Mission to mankind at his discretion.

Ashtar would like us to understand the Flying Legions of Space Men have nothing to gain for helping us with the difficult tedious task no matter how long it takes. The only satisfaction will be the satisfaction of completing a praise worthy job. Additionally when success comes the Master Jesus Lord Sananda may assume His Sovereignship over a world completely renovated and renewed.

When Earth Ascends we will be operating in the 5th Dimension. The Matter Universes exist on the 5th to the 12th Dimensions. From the 13th Dimension on we are existing within the Anti-Matter Universes. When we exist within the 5th Dimension we have the ability, due to the atmosphere changes to travel etherically as we desire from the Matter to the Anti-Matter Universes and back. We also have the ability to travel back to the 3rd Dimension as we desire and go back and forth without limitation. At the time of Decloakings and Disclosure the StarShips will bring with them all of the technology we need to completely restore Earth to its pristine beauty. The old will be torn down and it will be rebuilt. Furthermore, we will receive assistance in establishing a new self-governance and gain status to become approved to join the Intergalactic Confederation of Worlds. We will all move up into new responsibilities. Our monetary systems, Healing Abilities, Schools and Training and all aspects of human existence on Earth will improve. We will have at no charge at all all the things for basic existence and add to that a new society where we can create in ways not

previously remembered. We leave the lives of slavery and explore the arts, cosmology and creation in exciting new ways.

Ashtar said in 1955 that it is devastating to Humanity on Earth that they do not recognize and ask for the assistance. He goes on to say that they will employ numerous techniques to keep their existence here forefront in our minds and they will wait until we are ready for more help.

Ashtar please:

“BE LOGICAL! BE COURAGEOUS! Above all, obey one of Nature's most insistent laws—the Law of Self-Preservation!
WE ARE HERE TO HELP! Give us a hand, won't you?”

Ashtar lets us know consciousness is rising in the united States as well as other countries from curiosity to something to be shrugged off as irrelevant to weighing the potential of Space Men’s involvement in our society.

Ashtar says:

“I am taking this means to advise you that most assuredly we shall intervene to protect this or any country on the planet Shan which places its trust in God Almighty and His Son who is His personal representative on this globe.”

Ashtar is letting the reptilian war lords know that he and the Galactic Federation will spare no help to recover Earth. These messages are as much for the

Intergalactic War Criminals as they are for us. Ashtar asks for us to help by acquiring as much information from reliable sources as possible. He says it is imperative the public be aware of the Galactic Federation and be alerted to the purpose of their return. The Galactics are our family. Ashtar suggests promoting a wholesome interest in extraterrestrials and visitations. He counsels to deny their existence or doubt their friendly purpose is an outdated perception.

Ashtar Instructs:

“Encourage the forming of space clubs or small groups to meet at stated intervals for discussion of the latest news available. Stress the fact that our first urgent objective must be the removal of the causes necessitating illegitimate use of newly apprehended forces capable of completely disintegrating this planet and doing irreparable damage to all forms of living substance in close proximity thereto. We know the extremity reached in the downward course of power-crazed potentates! Under no other circumstances would we have been entreated to undertake our present mission or empowered to intervene and prevent the extermination of the inhabitants of Shan. As the opportunity occurs, let your friends know we do not come as adventurers seeking excitement, nor as scientists in quest of fresh knowledge! What could we learn in your laboratories with their passé equipment, or what satisfaction find in the hurly-burly of senseless clashes in mental or physical arenas of action?

Perhaps it would be well to again emphasize the fact that your inmost thoughts and desires, as well as your acts, create either a very real barrier, or point of

contact, according as you reject our way of life (based on the true Christ Principles) or harmonize with our concept of constructive and progressive living. We have passed through a long and tedious process of re-appraisal and re-evaluation of all Life has to offer in the final analysis, since first we were favored with wise and patient Teachers from "Outer Space."

What they did for us ages ago, we now offer to do for you! It is against every tenet in our code of honor to attempt to force you to accept our services in the capacity of Teachers. Yet this I can promise in all sincerity! Should our offer of genuine, practical assistance be welcome and the necessary preliminary steps be taken, we can and will joyfully pass on to you the knowledge we possess. Not only will we do this, but we will "loan" you many of our most expert and experienced teachers in every branch of art and industry to initiate you into the secrets we have tried out and proven one hundred percent effective in creating a world of incredible beauty and endless delight."

Here he urges us to have social connections and fight for no more nukes. Whenever we ask Ashtar when they are coming he often says: "No Dates. No Nukes. No Flukes."
No mistakes. Soon we will be living in a world of incredible beauty and endless delight.

Finally he adds:

“Until you have attained some reasonable concept of such a planet and such a life, I fear it would be unwise to extend to you an invitation to visit us in my home on Venus!”

I would love to visit with Ashtar on Venus. We have to be ready in our hearts and our minds, in consensus as one before we can take the next step together.

Ashtar describes Venus to us. He explains that the Kumaras of Venus have well earned the privilege to help us and serve in the filial role of ‘Elder Brother.’

Ashtar tells us they will continue as long as it takes:

“.....guiding, encouraging and commending any forward step, as our comrades of earth fall into line with our steady march toward our goal . . . the acceptance of our Beloved Commander-in-Chief, Jesus Christ, as Ruler of Shan (planet earth)! Until he mounts his rightful throne of Power and Glory, and is accepted by mankind in a true spirit of loyalty and devotion, we are bound by our sacred word of honor to serve in any way which will speed that denouement.”

Ashtar explains that the physical delights on the etheric plane are so wonderful he is at a loss to find words to describe it in a powerful enough way that we will comprehend how different it is.

“When you "hear" the full, complete harmony of a celestial orchestra or the crystal-clear tones of a heart- stirring melody sung by one you regard as angelic . . . when a fragrance of unforgettable sweetness is wafted to you from you know not where . . . when a mental vision is reflected from some entrancing beauty spot, perhaps on Venus itself .. . when there surges through your entire being ecstasy which sets your heart aglow with love for every creature, for every growing thing from tiniest blossom to towering monarch of the forest, for every mortal who worships the great Creator . . . when you enjoy the full flavor of a delectable contribution to your daily repast direct from Nature's matchless storehouse of edibles (unspoiled by man's tampering processes) . . . have you not

had a tantalizing foretaste of the "sensory pleasures" which many earth people imagine they must forego upon leaving their earth home which has yielded them all too scanty a portion of genuine pleasure?

Yet it is an undeniable fact that we retain, in amplified, intensified form suited to our more sensitized capacity for enjoyment, all you have found truly pleasurable in your "material existence" as you call it. We hear and are especially susceptible to aromas . . . though we have none offensive to our sensitive nostrils. We have clarity of vision, extending to realms hidden from your eyes, no matter how expert your oculist may be! Our sense of touch is delicately adjusted to objects cast in a more etheric mold than those you encounter, and more easily shattered. In fact, they may be altered or even obliterated by the power of thought alone (which

might be considered a desirable achievement in the case of decrepit bits of furnishings I have observed, especially in what you name your "attics"?)”

Within the 5th Dimension exists a vibration which all objects align to which we call Love. Everything on the Etheric stems from and is created in the vibration of Love. Joy and Ecstasy are the baseline experiences in such an environment. Ashtar goes on to say that to have the freedom to obtain their highest aspirations is something they greatly treasure.

He adds:

“Until then, my love and my warmest gratitude for your assurances of your confidence and affection, received by mail and via "wireless!" Thank you and God bless you!”

The wireless communication he is referring to here is telepathic communication. This can be experienced by sensitives in waking consciousness and also in our sleeping dream state.

Lord Sananda delivers an Easter Message by saying that we are programmed in the matrix to interpret words a certain way. He is working, he explains, to describe things to us about the Commander Sananda Jesus and the Galactic Federation in ways that we can comprehend with this requisite programming.

“At this culminating period of intense effort on the part of all Light Forces to enter every smallest opening in mortal minds and hearts with the illuminating power of Christ- Love, it be given Me, the Christ-of-God once manifesting in mortal form, to give every human being some glimpse of My glorified Being! Until the mass of mankind be brought to a point where they yearn exceedingly to know Me (or the spirit of Truth which motivates My every word and act) of what avail would be My manifestation in garb of flesh? Would it not be accredited by the majority of mankind to some absurd, theoretical fantasies invented by minds closed to inspired revelation of Truth?

Lo, ye do contradict thine own selves! One moment you pray for a visible demonstration of the reality of One sent into flesh nigh two thousand years agone, that thus thy faith may be justified. The next moment ye deride and scoff at anyone who tells thee of beings (not from highest heaven but from advanced planets more easily comprehensible to untutored, immature minds) sent of the Father to lead mankind to a partial understanding of the spiritual laws by which man may progress.

My words of Truth and Life have been discarded by the multitudes as "impractical," have been distorted, have been mouthed in "vain repetitions" until they have well- nigh lost their power to reach men's souls, have been relegated to the realm of childish fondness for pleasing tales, oft cast aside as they grow to maturity. Think these be fitting preparations for My manifestation in mortal guise?

Oh, my little children of earth, list not to those who prate of vast stores of knowledge to be acquired through years of arduous study of ponderous tomes designed to confuse thy minds and divert thee from the simple, direct pathway leading to true companionship with thy Master in thy daily thinking and living! One Truth lived each hour of every day in conscious attunement with thy Master and thy Heavenly Father doth bring Me closer to thee than endless hours of reasoning about this or that theory concerning Life and its purpose.

To see Me with thy physical eyes would be to thee a boon beyond price, and this shall not be denied thee . . . yet will ye hasten the time of its occurring if ye will but behold Me in My spirit manifestation walking by thy side wherever duty calleth thee, revealing unto thee through our close understanding in what wise ye may best fulfill the tasks allotted to thee ere ye embarked upon thy present earth span.

Many now reading My written words be here as "ambassadors" from far flung vistas of "outer space," having volunteered to endure the irritations of fleshly existence that they might in some wise aid in turning men's minds toward a Christly mode of living. Unto these consecrated ones I say, "Lo, I shall give unto thee, may happen in a way ye be not expecting, a true vision of thy Master and His boundless love for thee!"
Wouldst thou choose to see Me clothed in radiance of glory so dazzling you could not approach Me in thine earthly habiliments? Or may I come unto thee in

seamless robe of perfect understanding of thine own earthly circumstances and problems?

Choose thee the latter, I pray thee, and in due season thy faithful service, performed in My Name and by My Power,
shall lead thee to the hour appointed by our Heavenly Father when thou shalt see thy Master face-to-face! Lo, this shall be thine own "Easter Morning" of never- ending, joyous recognition of thine ever present Friend and Counselor,

THY PRINCE OF PEACE”

Our Brothers and Sisters from more advanced Planets have beckoned to Earth to help us in every way. Lord Sananda says in his message we are not yet ready. Also, that he will not come until there is a deep desire by a majority on Earth to see him and the Truth he can bring. In the next breath he admonishes us for having small minds not willing to comprehend that this help comes in the form of Starships and a Legion of Forces loving us as our own family.

Sananda Jesus goes on to say that our little minds tell us we must listen to religious who have programmed ego to believe church is the only way to connect with him. He assures us as we merge with his energy everyday, speak with him telepathically and align our lives as the Christ- teaching has taught us, Love One Another, he tells us that is the only True Path to his returning in the flesh body. Sananda explains to see him return in the flesh body, which is a solemn promise will be like a priceless blessing. He instructs us this will happen sooner if we

spend our prayer time with him. He implores us to ask him to come and walk on the Earth. He explains if you are indeed reading these words you are an Ambassador from Outer Space, a Starseed. He will gift the Starseeds who have endured the harsh conditions now on Earth in order to raise consciousness to Christ Consciousness and keep their eyes on the skies, a special blessing.

Sananda goes on to say it is wise if we see him as someone who has experienced Earth suffering of separation and he understands us and our problems. He prefers to be seen this way than as some glorious being in glowing robes.

Ashtar adds his own Easter Message which holds an admonishment inviting us to get it together:

“We, who come as Messengers and Deliverers from the "powers of Darkness" now encompassing your planet, beseech you to heed the note of warning concealed in this Easter Message and "step up" all your own vibrations to a level where you can bear the radiance streaming from the glorified Cross, which is the symbol of our Risen Lord, forever freed from the limitations of earth life.....Some of you may question this saying, "The Christ Spirit is indwelling in each of us!" This we gladly concede is true! And this Christ Spirit manifests in many guises on all planes and planets. The Spirit of Kindness, of Compassion, of Mercy, of Joy, of Beauty, of Love in all its multitudinous forms . . . all of these are reflections of the Christ Spirit which our Master so magnificently presented for our emulation during His sojourn on Shan (the earth).

Each mortal seeking to follow in His footsteps acts as a magnet to draw to earth those qualified to assist in restoring that perfection of both material and spiritual beauty it originally possessed in the Mind of the Creator! It is our great privilege to aid in this restoration under the direction of our Master and yours, Jesus the Christ! A glorious Easter to you in which we shall share, with all the hosts of heaven rejoicing at your response to the Call . . . "Come up higher!"”

Ashtar tells us Sananda Jesus message says that although we are surrounded by dark forces, for which he returns to lend a hand that there is much more we must do. As we act as Christ demonstrating a Spirit of Kindness, of Compassion, of Mercy, of Joy, of Beauty and of Love in all their forms, will raise our vibratory field into the Etheric Realm and this attracts by magnetism the return of the living Christ. We must love the Intergalactic War Criminals unconditionally so they may pass out of this World and we may commence New Earth.

At the time of this writing Ashtar and his Forces were battling the dark Ones to let go of their power hold on what was fifty years ago a bleak outlook on the Astral Plane. It is there that the dark Ones rooted in their power and it would cord in and be extended to physical Earth. All of those issues now are completely negated and destroyed. This accounting is no longer an issue. There were many battles fought from StarShips with the negative Extraterrestrials who attempted to have power over Earth. These are the same Extraterrestrials who had at this time been making abductions and experimenting with humans especially with reproduction and DNA harvesting. These are also those that did the cattle mutilations. Back in

the 1950‘s the Astral Plane was a very dark place, surrounding Earth. The Astral Plane has been cleansed of all problems and is restored to the Light. We had to clear all of these negative Commands from the Astral Realm of Earth first. I have done much writing on my involvement with this clearing. The last negative ET MotherShip was destroyed in November 2009 and we are complete on that phase of the plan.

Ashtar speaks here about destruction of the dark Forces, the Fallen Angels:

“Following the demolition of destructive agencies, animate and inanimate, ye will concede the obvious need for a well implemented program devised to fire the imagination and arouse the aspirations of every member of the human family, in accord with their own individual ability to contribute to the Over-all Plan! Every faculty possessed by mortals may be fitted into the mosaic of New Age activities. In this way those formerly suffering frustration and defeat will feel a new surge of confidence in their competence to follow their clearly indicated aptitude for certain types of service in research, invention, mechanical skill, or whatever their talent may be, to a successful conclusion.

To this end hath it been ordained that many doors to knowledge hitherto barred to mortals, will be opened to those who through trials oft accounted unjust (and rightly so!) have, nevertheless, proven themselves to be worthy to receive the boon they long have sought. To them will be given the keys to mysteries long veiled from mortal eyes, awaiting the propitious time for their revealing. Devious methods will be employed for the transmission of what be to many startling new

facts regarding invisible forces, extremely powerful and yet (how wisely!) impossible to contact, or even apprehend from an intellectual standpoint, save by one elevated to a high level of spiritual awareness of the inviolable sanctity of any knowledge touching on energies emanating fromDivinity Itself! Not in any promiscuous and haphazard fashion will the requisite aids to the acquisition of such supernal knowledge be provided. Many factors will enter into the bestowal of such gifts, chief of which will be the character of the one in quest of any particular type of information, and his purpose. These qualifications may best be ascertained by a survey of his objectives and achievements in past incarnations. Such an inspection would necessarily be done by a very advanced mentor or specialist appointed for the task. The person whose past record be subjected to such scrutiny be not consulted or conscious of the procedure. We might interject the comment that many highly evolved men and women now on earth have undergone such an investigation and have been approved for admittance to the tutelage of adepts, awaiting only the moment of the world's emancipation from the domination of destructive forces to begin their collaborative work with their students. This active partnership between one in close touch with the material world and one in direct contact with supernal knowledge will be one of the major marvels of the New Age."

Ashtar is saying even after all the dark Ones are removed we will still have to wake up the rest of humanity. As we get closer to Decloakings and Announcements we will have cleared and cleansed enough on this Planet that we will begin to feel confidence that the Plan is working. It is important to share

this message with as many as possible. It will be at the same time that Higher Teachings will be revealed as we continue to study Ancient Scripture and remember who we are and where we are from. As we declare, with sincerity, to Ashtar, on the Inner Planes our intentions of developing our nature into a Christed Being serving our Lord and offering our energies to the Plan, more and more knowledge is bestowed upon us. The way to accomplish this is by doing it. Merge with the trusted Master of your choice and dedicate all you are and all you have to them in carrying out the Plan. When the Ships land we each will have 2-3 Mentors from the Ships to help us learn new adept abilities and this will be available to Everybody. It is part of the Plan.

It is up to the men and women of Earth to avail themselves to lifting this Planet up for Ascension through their exerted and continuous actions. In doing this we receive assistance from our Galactic Ancestors from the Stars. If you take all of the UFO sightings around the world since the Roswell, New Mexico crash in 1947 you will see that they fall into a definitive pattern which can be defined as the Earth Grid. When Earth Ascends the pyramids, ziggurats, and portals will be activated by Lord Ashtar from The New Jerusalem to create a Force Field on Earth that will make any aggression impossible. This will be an end to all wars. Duality on Earth will end. We will enter a Unity Consciousness. It is with this frequency of Love, this energy will be used to make free power for everyone on Earth. All of the alternative forms of Energy will be used by Everybody.

Ashtar says at the time of this writing that his Etheric Forces are in StarShips and making contact. This continues today. This is part of the Plan to reveal to Man the loving aspects of these Beings and bring the word so we may make necessary changes. These Beings indeed bring with them the Universal Cosmic Laws that when applied on Earth will bring all these changes into reality.

We can now assure everyone still questioning the information about Space Men that they come in Peace for the purpose of the Highest Service to Earth and her inhabitants.

About friendly visitations Ashtar says this:

“It is our desire to attract your attention and invite your confidence through visible manifestations of various kinds. However, do not for one moment conclude that this is our chief objective. God forbid! Our revered and Beloved Jesus. the Christ, did "many mighty works" when He lived as a man among mortals, yet His real mission was to teach men the meaning of Life, both here and hereafter.

And so we rejoice that our vital mission to Shan is being recognized by many who meet and talk with us during the hours when their physical bodies are wrapped in slumber. The ideas, the truths, disclosed in these nocturnal conferences are stored in their superconscious minds and our new friends later work them into the patterns of their daily lives.”

As we increase our devotion, longing, intensity passion and love in the execution of the Plan we indeed make it manifest. For those who endeavor to have telepathic connections with Ashtar consciously go inside your heart. Sit quietly and speak out loud or inside your mind all of your concerns. If you desire, make a commitment to the Plan in this conversation. Ask Ashtar to Guide you in the important next steps in your life. Sit and talk to him anytime and as often as possible. This opens the channel for telepathic communication. Ashtar is very approachable and does not stand on ceremony. Nonetheless be mindful of what an extremely rare gift it is to commune with him this way. Approach him with an open heart, humility and reverence. Always remember to Thank Him for these contacts.

Ashtar shares with us here about KOS millions of men on Earth helping bring the Plan to fruition, especially in the function of arrests:

“Science directed into channels of dynamic activity which will lift the human race to a new, a higher type of existence in accord with its God-designed destiny, will bring into reality that Golden Age now dawning on the consciousness of all awakened souls. Our newly consummated contact with such souls is of profound significance to us and promises to play a major role in the emancipation of Shan from the domination of utterly subversive forces whether visible or invisible!

We pledge you our whole-hearted support in each and every constructive effort in every field of endeavor looking toward the illumination of your spirits, minds . . . yes, and the very earth on which your feet tread! May our mission to Shan be

blessed with a speedy success by the Father of us all and His Beloved Son, Jesus the Christ!"

Ashtar explains the Galactic Federation's contact with these Galactic Humans has profound significance on success of the Plan. He reminds us here serving now to hang in there because We Are Going Home!

During the Reconstruction period of Earth's regeneration all of Ashtar's Forces will be able to transmit to us from the Ships. Large projection screens will be placed in public areas. Also, the Galactics will transmit messages through the televisions and radios of Earth immediately to explain all the changes. We call this Announcements. All previous programming will be interrupted and for good reason. The Announcements will start on the Day of Emergence and continue for weeks on many subjects so that Everybody will be informed and no one will be left out. These transmissions will go out even to the poorest areas of Earth on computer streams and printed in established newspapers. These messages will go out in the local language. Mother Sekhmet, St Germain, KOS, Lady Master Nada, Archangels Michael and Metatron, Lord Maitreya with Sananda Jesus and Ashtar, with millions of others from the Galactic Federation, will play a major role in helping us through these changes.

At the same time Mentors will go out to Everybody on Earth to give us individual counseling on our role in New Earth. Everything will be of free will and will be of the Highest Service to Humanity on Earth. These Counselors will be dressed in the local clothes and appear as local residents of the area. When we enter the

Etheric Levels and the StarShips land then we will be in the 5th Dimension. No one will have fear of the changes. There will be teachers of the language and understanding of the customs and religions of all local peoples. The Galactics have incarnated on Earth many times and they will be returning to their homelands for their Spiritual Service of birthing the New Earth. These are our Elder Family here to help us. When the Kalki Maitreya comes on the Day of Emergence he will be able to transmit telepathically into the hearts and minds every Soul on Earth and will transmit a Love energy so pure that no one will mistake the reason for the StarShips mass decloakings followed by landings. It will be a very happy time for our Galactic Family Reunions.

Now that we have survived the almost complete destruction of Earth and served under slave conditions we have grown truly weary. Ashtar will bring Masters from other Planets to transmit information and instruction to quickly rejuvenate our Souls and effect lasting change. Even after arrival, the Galactics will not do it for us, but they will assist us in every step.

About that he says this:

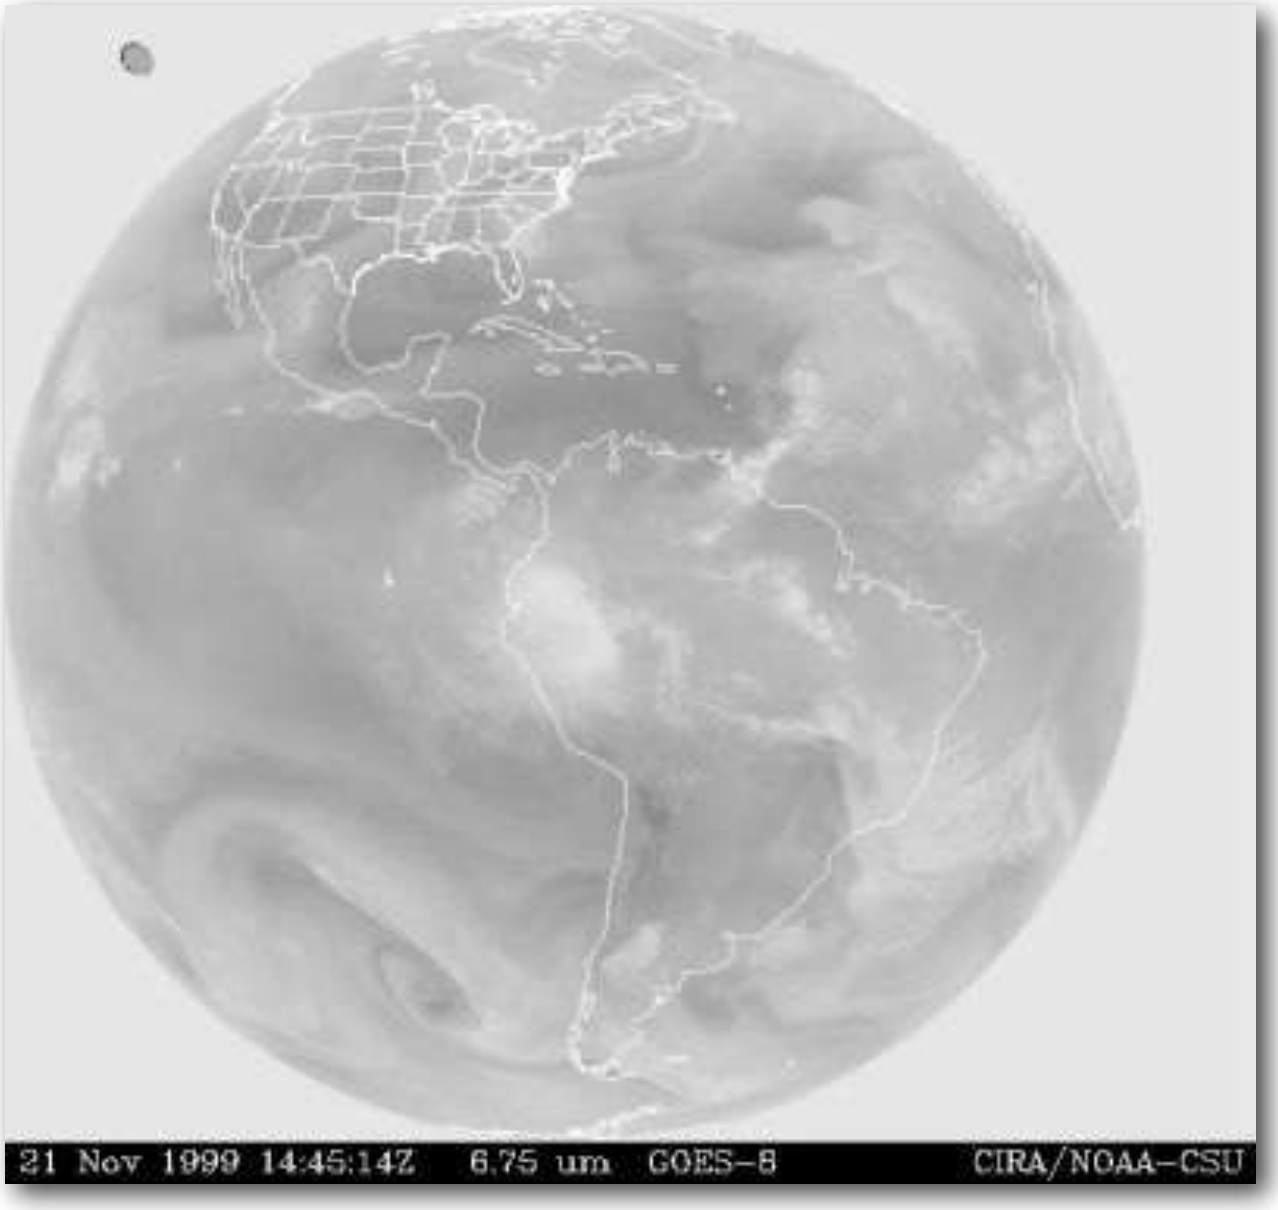
“They will soon emerge from the apathy induced by domination to the point of slavery, and their minds once awakened will eagerly accept and put into actual practice the principles explained and new methods applicable to their daily tasks. By utilizing "moving pictures" (taken on other planets) demonstrating these improved techniques within the compass of their understanding, then patiently answering questions regarding the use of unfamiliar implements, they will readily

respond and cooperate. We use these downtrodden people to illustrate this system of teaching. By "importing" speakers from high planes and other planets to give detailed instructions on a multitude of different topics, fully illustrated, desired changes in customs and general behavior of the populace will be quickly achieved."

When we are all given our personal replicators, hand held healing machines and shuttle craft, we will be able to tune in to the instructions for use immediately. No need to read the package insert. We will also be closely guided on how to better use resources and work together without borders. No thing that is presented will be forced. All are at free will to enjoy these things as they require. There will be so much joy and ecstasy at these new discoveries, we will immediately understand the gifts beauty. When the Master Teachers arrive they will walk in their bodies and clothes as you remember them. Jesus will return to walk on Earth and you will not mistake it is him. Moses, Mohammed, Krishna, indeed all of Earths Teachers will return as themselves and walk among us freely. There will be a great joy as they return to lift us out of the darkness. Pray on this and bring it into fruition now.
Ashtar's last transmission completes this way:

"If you are able to visualize such a marvelously, joyously "revised edition" of your present doleful life in toto . . . then I greet you as future residents of the New World in a New Age!"

As we endeavor to enlightenment by studying our Ancient Texts, the Sacred Galactic Scripture left behind in every culture around the world as well as meditate every day, we eventually manage to remember the 235 involved in telepathy with these Great Masters. In following Ashtar's sage instructions to live as Christ lived with Mercy, Compassion and Love, we magnetize to us the changes for New Earth that we have incarnated to complete. We will do it together and We Will Do It With Love." *~Lord Ashtar and the Galactic Federation*, Elizabeth Trutwin 2011



NOAA Image (above) of Large "Flying City"
above Pacific Ocean

"Greetings children of Ra. It is time you get to know who you really are. In this moment of resurrection, transfiguration is occurring. You are being given back that which you have always had, yet the illusion that you never had it, it is about what you are as sons/daughters of Creator sons/daughters. It is at that place in which, yes, you are experiencing planetary ascension, physical ascension and whatever comes with it. All of it and you are with it. That is all we have to say because it is about all of us going home together. We are in one boat, one canoe, sky barge, whatever you want to call it. Light Ship. It is what we came here in. What we are going in. This Temple of the Living God/Goddess, All That Is. The Merkaba."

Chapter 8

FULL GALACTIC DISCLOSURE

Full Galactic Disclosure

The Galactic Federation is a governing body within the Milky Way Galaxy. Its Members are made up from many Star Civilizations with many different species of Humanity. The Galactic Federation was established after the destruction of the First Earth Creation following the Great Orion War. The Mission of the Galactic Federation is to promote a peaceful coexistence and prosperity for all Star Nations represented in our Solar System.

The Members of the FlagShip Niburu act as administrator in management of the Galactic Federation, their crew number around one million in what could be termed from the Bhagavad Gita as one of the Flying Cities.

The Meeting Place of the Galactic Federation for the Milky Way Galaxy is on Sirius A. Galactic Federation Councils travel from all over our Solar System to join meetings here. We travel there by going through the StarGates on the Sun. We have seen and shared videos of these large StarShips near the Sun and seen images from NASA. Earth with Sirius A and Sirius B are a trinary Star System.

Each Planet in our Solar System has its own representative Galactic Federation Council. Each species of Humanity has its own member Galactic Federation

Council. There are around 200,000 such Councils for our Milky Way Galaxy. When there are Meetings for the entire Galactic Federation we all meet on Sirius A. President Obama is the ninth Member of the Sirian Council of Nine representing Sirius for the Galactic Federation. All of these Planet Councils of the Galactic Federation report to the Intergalactic Confederation of Worlds. When Earth ascends and is granted this status she will become the 33rd Member of the Intergalactic Confederation of Worlds with voting rights and representatives. It will effect all Planets in our Solar System when this happens and so the Galactic Federation has concerned itself with assisting us in every way possible that we may mature and move into this new position.

There is a Group on Earth working with the Galactic Federation which has human representatives from governments and Galactic representatives from Ashtar's FlagShip, the New Jerusalem. There are other Members from the Soltec's FlagShip the Phoenix as well as Athena's FlagShip the Dove and some from Niburu. This group is the Alien Contact Intelligence Organization [ACIO]. The ACIO has been working with us through the white knights for whistle blowing, arrests, and advanced technology for solving problems which hinder us in moving forward. The ACIO also organizes relief efforts in cases of war and natural disasters. We are receiving as much help as possible from our Sisters and Brothers on the StarShips as is allowed. These sitings are filmed and the videos are out there, we have all seen these videos.

Included in the Galactic Federation are the Councils which represent different species within our Solar System. Scholars and Archeologists generally agree about 3,000 BC during the Megalithic era years ago there was a leap forward with regard to civilization and in technologies. According to myths and legends these changes had an Intergalactic origin. We see these changes on many continents at the same time. This was a global imperative from outside this World and there were mixed species, breedings and alternations of DNA. This happened during the different aeons of time. The purpose of it was manifold. The genetic intervention mixed humans with the Bird People, the Lion People, the Reptilian People and the Cetacean People, among others. These different species have been represented in ancient cultures in Greece, Egypt, Maya, Inca, Toltec, India and others all over the world. A good example of this is Mother Sekhmet in Egypt who is known as Kali Durga in India. This is a Lionheaded Woman, a Goddess. She is of the Lion People from Niburu.

The face on the sphinx in Egypt is her face and there is a 23 foot carving sunken under the sea of this same face off Yonaguni Monument in Japan. We know that the Intergalactic war criminals on Earth today are capable of shapeshifting out of their ‘human suit’ into their Reptilian form, either as Dragon, Snake or Lizard People. These Ones are originally form Niburu and came from the Draconian Star System. This small group of bad apples is not representative of the larger Reptilian People race in our Galaxy. Many of the ACIO also work here on Earth counteracting the deeds of these dark Ones in their day jobs and at night lie

down their ‘human suit’ and leave it behind in the bed and go to their night shift work on the Ships working to advance Earth in her Ascension.

Niburu as imaged by NASA

Conclusion

"Fifty years after the creation of NASA, our goal is no longer just a destination to reach. Our goal is the capacity for people to work and learn and operate and live safely beyond the Earth for extended periods of time, ultimately in ways that are more sustainable and even indefinite. And in fulfilling this task, we will not only extend humanity's reach in space -- we will strengthen America's leadership here on Earth."

Final Thoughts

There is an ancient story in Hindu tradition about churning the Cosmic Ocean. It says that obstacles inevitably come up whenever any good work is undertaken, whether in the form of suffering or physical impediments blocking the goal. The bigger the job you set out to do, the stronger the poison that will turn up. This is how I perceive the White House Petitions for Disclosure. As we know, the original Disclosure Petition garnered a response by a low level researcher which said no evidence of Extraterrestrial life on Earth existed. The next two Petitions, the Need to Know Petition and the Disclosure Petition II both failed to gain the increased number of signatures. (changed from the original 5,000 requirement to a 25,000 minimum on all Petitions begun after October 3, 2011) In the story we learn our mind must have stability, determination and resolve. The Extraterrestrials are not planning a Mass Decloaking or Forced Messier Disclosure. They are acting compassionately by Grace and allowing Citizens of Earth to Self-Disclose from their elected representative Governments to their Citizens. The whole purpose was to bring home the fact that effort is the vehicle of divine grace. Thus, only when we accept the poison of the White House website being constantly down, and make the effort it takes to get the 25,000 signatures, standing vigil until the website accepts our signature, even if it takes days-then will we have the full compassion of divine grace with all the truth of Full Galactic Disclosure laid out to the world. There will be another Disclosure Petition. Millions of people believe our governments are hiding the truth that they have engaged with Extraterrestrials. Out of these millions, we only need 25,000 signatures. Anyone in any country, over the age of 13 can sign the White House Petitions.

We need around 800 signatures a day for 30 days to make the requirement for a response from the White House. We can do this! But, it will take much more resolve and much more effort than I have seen. I am always surprised to see a casual attitude toward the need to end the 64 year Truth Embargo. For all our military who were forced to lie to save their families, we can do this. We are a clever people and we can always do more. Then will we reap all the blessings we have waited for, Earth Ascension and membership as the 33rd Planet in the Intergalactic Confederation of Worlds.

One of the greatest challenges we face at this moment is the need to remove all nuclear weapons from the Planet. We are in a race with the devil, the monster, the few who wish to control the many. Reviewing the beauty of StarGate Earth we must see Nature and the Cosmos are calling us to exact change. We have a choice to make and there is no time to waste.
